Subject: Testimony for Feb 13, 2018 Energy Committee Meeting
Attachments: DTE-bill.pdf

Since our "smart meter" has been installed, our DTE bill has significantly increased.

Last 2 bills are over $500. (see attached for history)

We have lived in this same house for 20 years, we heat with wood (no electric required) and have NEVER had bills this high.

Thanks for your representation in this matter.

Kind regards,

Patricia Alsop
