Department: Environmental Quality (DEQ)

Agency: Air Quality Division (AQD)

Rule Set No.: 2013-109-EQ

Complete to: 4/8/15

BACKGROUND & SUMMARY OF PROPOSED RULES SUBMITTED TO JCAR

Rule set 2013-109-EQ amends the current AQD rules as required by the federal Clean Air Act, Title 42 of the United States Code. Specific AQD rules sections are rescinded, amended, and added where necessary in order to accomplish compliance with federal regulation and to consolidate where possible. These proposed rules changes adopt specific federal regulations by reference as well. Dates are updated where necessary and obsolete rules are rescinded. These rules incorporate current federal air quality standards and regulations as established by the Environmental Protection Agency and apply these regulations at the state level in order to bring Michigan's air quality standards and monitoring into compliance with current federal law.

FISCAL IMPACT OF PROPOSED RULES

The administrative rules amended by 2013-109-EQ would not have a significant fiscal impact on the Department of Environmental Quality of local units of government.
