Department: Licensing and Regulatory Affairs
Agency: Bureau of Construction Codes
Rule Set No.: 2013-095-LR

Complete to: 07/01/15

BACKGROUND & SUMMARY OF PROPOSED RULES SUBMITTED TO JCAR

2013-095-LR would amend and add rules to adopt and incorporate the 2015 International Energy Conservation Code (IECC), with minimal Michigan-specified amendments, published triennially by the International Code Council. The 2015 IECC generally raises energy conservation and performance standards and specifically establishes new criteria for an Energy Rating Index. The Stille-DeRossett-Hale Single State Construction Code Act requires the department to revise the rules triennially to coincide with revisions to the IECC.

FISCAL IMPACT OF PROPOSED RULES

The rules amended and added by 2013-095-LR would not have a significant direct fiscal impact on the state or local units of government.
