Department of Attorney General

The Attorney General's powers are prescribed by the Constitution and further delineated by statute and case law.

- The Attorney General:
 - Serves as legal counsel for state departments, agencies, boards, commissions, and their officers
 - Defends the state in court
 - Serves as the chief law enforcement officer of the state
 - Brings actions and intervenes in cases on the state's behalf
 - Issues legal opinions that have the force of law until reversed by legislative or judicial action

Key Budget Terms

Fiscal Year: The state's fiscal year (FY) runs from October to September. FY 2018-19 is October 1, 2018 through September 30, 2019.

Appropriation: Authority to expend funds. An appropriation is not a mandate to spend. Constitutionally, state funds cannot be expended without an appropriation by the Legislature.

Line Item: Specific appropriation amount in a budget bill which establishes spending authorization for a particular program or function.

Boilerplate: Specific language sections in a budget bill which direct, limit, or restrict line item expenditures, express legislative intent, and/or require reports.

Lapse: Appropriated amounts that are unspent or unobligated at the end of a fiscal year. Appropriations are automatically terminated at the end of a fiscal year unless designated as a multi-year work project under a statutory process. Lapsed funds are available for expenditure in the subsequent fiscal year.

Note: Unless otherwise indicated, historical budget figures in this presentation have not been adjusted for inflation.
