Under 1996 PA 486, which amended 1957 PA 261, membership in the system is limited to persons who first became legislators before March 31, 1997. Legislators who take office on or after March 31, 1997 are members of a defined contribution retirement plan, but current statute allows them to receive their retiree health insurance benefits, if vested, through the Legislative Retirement System when they reach age 55. The plan provides retirement allowances, survivors' allowances, and other benefits for members of the Legislature and their spouses, dependents, survivors, and beneficiaries, and is funded through state appropriations, member contributions, certain court filing fees, and investment income.

The Legislative Retirement System is administered by a Board of Trustees and is charged with the responsibility of investing the assets of the system as provided by statute and the system's investment policy. Employee payroll, postage, supplies, computer equipment, professional and contractual services, rent, money manager fees, and other administrative costs are paid from the Income Fund, which is the Legislative Retirement System reserve holding yearly investment income.
