COMPILED**

AND APPENDICES

**HOUSE
FISCAL
AGENCY**

NOVEMBER 2006

FOREWORD

In the 1994-95 state fiscal year, the House and Senate Fiscal Agencies jointly published a document relating to the School Aid Act. This document continues the tradition by combining the Michigan School Aid Act Compiled with a set of appendices that describe the Foundation Allowance approach that is now central to Michigan's funding of public schools.

This version of the Act, updated through 2006 PA 366, was compiled in September 2006 by the Legal Editing Division of the Legislative Service Bureau, a Legislative Council Agency.

Appendices to this document were produced by Kirk Sanderson and Kathryn Summers-Coty, School Aid analysts at the Senate Fiscal Agency (SFA), and Mary Ann Cleary and Bethany Wicksall, School Aid analysts at the House Fiscal Agency (HFA). Jeanne Dee, HFA Administrative Assistant, prepared the document for publication.

Questions about Michigan's school finance system should be directed to a School Aid Analyst at either the House Fiscal Agency or the Senate Fiscal Agency. Analysts and contact information for both agencies are listed below.

- (1) "Center program" means a program operated by a district or intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.
- (2) "District and high school graduation rate" means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.
- (3) "District and high school graduation report" means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have

transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

- (4) "Membership", except as otherwise provided in this act, means for a district, public school academy, university school, or intermediate district the sum of the product of .75 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .25 times the final audited count from the supplemental count day for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:
- (a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.
 - (b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.
 - (c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.
 - (d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.
 - (e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.
 - (f) A pupil enrolled in a vocational education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.
 - (g) A pupil enrolled in a university school shall be counted in membership in the university school.
 - (h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.
 - (i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:
 - (i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership

count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

- (ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.
- (j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.
- (k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.
- (l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except a special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department and not having a high school diploma who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.
- (m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the department of labor and economic growth, or participating in any successor of either of those 2 programs, shall not be counted in membership.
- (n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:
 - (i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.
 - (ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-

time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

- (o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.
- (p) The department shall give a uniform interpretation of full-time and part-time memberships.
- (q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.
- (r) Full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12.
- (s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.
- (t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.
- (u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:
 - (i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.
 - (ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.
 - (iii) Course content is comparable to that in the district's alternative education program.
 - (iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.
- (v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that expelled the pupil.

- (w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.
- (x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .75 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .25 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.
- (y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and if the district does not receive funding under section 22d, the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:
 - (i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.
 - (ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.
- (z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.
- (aa) Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are receiving nonclassroom services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.
- (bb) Full-time equated memberships for pupils enrolled in a public school academy that is wholly contained within a county juvenile detention facility shall be considered to be the average daily attendance of pupils enrolled in the public school academy for the immediately preceding fiscal year, as reported by the public school academy and audited by the intermediate district in which the public school academy is located. However, if a public school academy described in this subdivision does not provide definitive information to the auditing intermediate district to support the pupil memberships generated by average daily attendance, then full-time equated memberships for pupils enrolled in that public school academy shall be calculated as otherwise provided under this subsection.

- (cc) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.
- (5) "Public school academy" means a public school academy, urban high school academy, or strict discipline academy operating under the revised school code.
- (6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:
- (a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.
 - (b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.
 - (c) A pupil enrolled in a public school academy or university school.
 - (d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.
 - (e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.
 - (f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:
 - (i) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.
 - (ii) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90g, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

Sec. 11.

- (1) For the fiscal year ending September 30, 2006, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$11,200,813,200.00 from the state school aid

fund established by section 11 of article IX of the state constitution of 1963, the sum of \$44,500,000.00 from the proceeds of capitalization of the school bond loan fund revolving fund, and the sum of \$62,714,000.00 from the general fund. For the fiscal year ending September 30, 2007, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$11,647,508,200.00 from the state school aid fund established by section 11 of article IX of the state constitution of 1963 and the sum of \$35,000,000.00 from the general fund. In addition, available federal funds are appropriated for each fiscal year.

- (2) The appropriations under this section shall be allocated as provided in this act. Money appropriated under this section from the general fund shall be expended to fund the purposes of this act before the expenditure of money appropriated under this section from the state school aid fund. If the maximum amount appropriated under this section from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.
- (3) If the maximum amount appropriated under this section from the state school aid fund and the school aid stabilization fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 56 shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (4). If proration is necessary, state payments under each of the other sections of this act from all state funding sources shall be prorated in the manner prescribed in subsection (4) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30 calendar day or 6 legislative session day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30 calendar day or 6 legislative session day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.
- (4) If proration is necessary, the department shall calculate the proration in district and intermediate district payments that is required under subsection (3) as follows:
 - (a) The department shall calculate the percentage of total state school aid allocated under this act for the affected fiscal year for each of the following:
 - (i) Districts.
 - (ii) Intermediate districts.
 - (iii) Entities other than districts or intermediate districts.
 - (b) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to

districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, and 53a, by that amount.

- (c) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, and 56, on an equal percentage basis.
 - (d) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(iii) for entities other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.
- (5) Except for the allocation under section 26a, any general fund allocations under this act that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11f.

- (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed \$32,000,000.00 for the fiscal year ending September 30, 2007 and for each succeeding fiscal year through the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as *Durant v State of Michigan*, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as *Durant v State of Michigan*. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.
- (2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as *Durant v State of Michigan*; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as *Durant v State of Michigan*; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.
- (3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to

admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

- (4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as *Durant v State of Michigan*. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.
- (5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.
- (6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.
- (7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of _____ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as *Durant v State of Michigan*, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of _____ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of _____ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of

the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of _____ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of _____ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979."

(8) An early intervening program that uses funds received under this section shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

Sec. 11g.

- (1) From the appropriation in section 11, there is allocated for this section an amount not to exceed \$34,961,000.00 for the fiscal year ending September 30, 2007. There is allocated for this section an amount not to exceed \$35,000,000.00 for each succeeding fiscal year through the fiscal year ending September 30, 2013. Payments under this section will cease after September 30, 2013. These allocations are for paying the amounts described in subsection (3) to districts and intermediate districts, other than those receiving a lump-sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.
- (2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.
- (3) The amount paid each fiscal year to each district or intermediate district under this section shall be the sum of the following:
 - (a) 1/30 of the total amount listed in section 11h for the district or intermediate district.
 - (b) If the district or intermediate district borrows money and issues bonds under section 11i, an additional amount in each fiscal year calculated by the department of treasury that, when added to the amount described in subdivision (a), will cause the net present value as of November 15, 1998 of the total of the 15 annual payments made to the district or intermediate district under this section, discounted at a rate as determined by the state treasurer, to equal the amount of the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.
- (4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds received under this section to pay debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:
 - (a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.
 - (b) Second, to pay debt service on other limited tax obligations.
 - (c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

- (5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.
- (6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

Article 2

388.1620 Foundation allowance per membership pupil; payments to districts, public school academies, and university schools; definitions.

Sec. 20.

- (1) For 2005-2006, the basic foundation allowance is \$6,875.00. For 2006-2007, the basic foundation allowance is \$7,085.00.
- (2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).
- (3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:
- (a) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year in the basic foundation allowance. However, for 2002-2003, the foundation allowance for a district under this subdivision is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus \$200.00.

- (b) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. For 2002-2003, for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of \$200.00 or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.
 - (c) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.
 - (d) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.
 - (e) It is the intent of the legislature that beginning in 2007-2008, for a district that receives a payment under section 22c for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c.
- (4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or \$6,500.00, whichever is less, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a principal residence or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils. For a district described in subsection (3)(b), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a principal residence or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. The \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

- (5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. However, for a pupil enrolled in a district other than the pupil's district of residence, if the foundation allowance of the pupil's district of residence has been adjusted pursuant to subsection (19), the allocation calculated under this section shall not include the adjustment described in subsection (19). For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection shall take into account a district's per pupil allocation under section 20j(2).
- (6) Subject to subsection (7) and section 22b(3) and except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy or a university school, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy or university school equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy or university school is located and the state portion of that district's foundation allowance, or the sum of the basic foundation allowance under subsection (1) plus \$300.00, whichever is less. Notwithstanding section 101(2), for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.
- (7) If more than 25% of the pupils residing within a district are in membership in 1 or more public school academies located in the district, then the amount per membership pupil calculated under this section for a public school academy located in the district shall be reduced by an amount equal to the difference between the product of the taxable value per membership pupil of all property in the district that is not a principal residence or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils, in the school fiscal year ending in the current state fiscal year, calculated as if the resident pupils in membership in 1 or more public school academies located in the district were in membership in the district. In order to receive state school aid under this act, a district described in this subsection shall pay to the authorizing body that is the fiscal agent for a public school academy located in the district for forwarding to the public school academy an amount equal to that local school operating revenue per membership pupil for each resident pupil in membership other than special education pupils in the public school academy, as determined by the department.
- (8) If a district does not receive an amount calculated under subsection (9); if the number of mills the district may levy on a principal residence and qualified agricultural property under section 1211(1) of the revised school code, MCL 380.1211, is 0.5 mills or less; and if the district elects not to levy those mills, the district instead shall receive a separate supplemental amount calculated under this subsection in an amount equal to the amount the district would have received had it levied those mills, as determined by the department of treasury. A district shall not receive a separate supplemental amount calculated under this subsection for a fiscal year unless in the calendar year ending in the fiscal year the district levies 18 mills or the number of mills of school operating taxes levied by the district in 1993, whichever is less, on property that is not a principal residence or qualified agricultural property.

- (9) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00 and that had fewer than 350 pupils in membership, if the district elects not to reduce the number of mills from which a principal residence and qualified agricultural property are exempt and not to levy school operating taxes on a principal residence and qualified agricultural property as provided in section 1211(1) of the revised school code, MCL 380.1211, and not to levy school operating taxes on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, there is calculated under this subsection for 1994-95 and each succeeding fiscal year a separate supplemental amount in an amount equal to the amount the district would have received per membership pupil had it levied school operating taxes on a principal residence and qualified agricultural property at the rate authorized for the district under section 1211(1) of the revised school code, MCL 380.1211, and levied school operating taxes on all property at the rate authorized for the district under section 1211(2) of the revised school code, MCL 380.1211, as determined by the department of treasury. If in the calendar year ending in the fiscal year a district does not levy 18 mills or the number of mills of school operating taxes levied by the district in 1993, whichever is less, on property that is not a principal residence or qualified agricultural property, the amount calculated under this subsection will be reduced by the same percentage as the millage actually levied compares to the 18 mills or the number of mills levied in 1993, whichever is less.
- (10) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts. The calculation under this subsection shall take into account a district's per pupil allocation under section 20j(2).
- (11) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.
- (12) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.
- (13) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:
- (a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.
- (b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating

conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

- (c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2005-2006 and 2006-2007, the index shall be 1.00. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.
- (14) If the principals at the revenue estimating conference reach a consensus on the index described in subsection (13)(c), the basic foundation allowance for the subsequent state fiscal year shall be at least the amount of that consensus index multiplied by the basic foundation allowance specified in subsection (1).
- (15) If at the January revenue estimating conference it is estimated that pupil membership, excluding intermediate district membership, for the subsequent state fiscal year will be greater than 101% of the pupil membership, excluding intermediate district membership, for the current state fiscal year, then it is the intent of the legislature that the executive budget proposal for the school aid budget for the subsequent state fiscal year include a general fund/general purpose allocation sufficient to support the membership in excess of 101% of the current year pupil membership.
- (16) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00, that had fewer than 7 pupils in membership in the 1993-94 state fiscal year, that has at least 1 child educated in the district in the current state fiscal year, and that levies the number of mills of school operating taxes authorized for the district under section 1211 of the revised school code, MCL 380.1211, a minimum amount of combined state and local revenue shall be calculated for the district as provided under this subsection. The minimum amount of combined state and local revenue for 1999-2000 shall be \$67,000.00 plus the district's additional expenses to educate pupils in grades 9 to 12 educated in other districts as determined and allowed by the department. The minimum amount of combined state and local revenue under this subsection, before adding the additional expenses, shall increase each fiscal year by the same percentage increase as the percentage increase in the basic foundation allowance from the immediately preceding fiscal year to the current fiscal year. The state portion of the minimum amount of combined state and local revenue under this subsection shall be calculated by subtracting from the minimum amount of combined state and local revenue under this subsection the sum of the district's local school operating revenue and an amount equal to the product of the sum of the state portion of the district's foundation allowance plus the amount calculated under section 20j times the district's membership. As used in this subsection, "additional expenses" means the district's expenses for tuition or fees, not to exceed \$6,500.00 as adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00, plus a room and board stipend not to exceed \$10.00 per school day for each pupil in grades 9 to 12 educated in another district, as approved by the department.
- (17) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection.
- (18) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's

foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00.

- (19) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002, and may also use these funds for an early intervening program described in subsection (20). For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.
- (20) An early intervening program that uses funds resulting from the adjustment under subsection (19) shall meet either or both of the following:
- (a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.
 - (b) Shall provide early intervening strategies for pupils in grades K to 3 using schoolwide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A schoolwide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.
- (21) For a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$800,000.00 for a fiscal year as a result of this adjustment.
- (22) For a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-

1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$500,000.00 for a fiscal year as a result of this adjustment.

- (23) Payments to districts, university schools, or public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.
- (24) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.
- (25) As used in this section:
- (a) "Combined state and local revenue" means the aggregate of the district's state school aid received by or paid on behalf of the district under this section and the district's local school operating revenue.
 - (b) "Combined state and local revenue per membership pupil" means the district's combined state and local revenue divided by the district's membership excluding special education pupils.
 - (c) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.
 - (d) "Immediately preceding state fiscal year" means the state fiscal year immediately preceding the current state fiscal year.
 - (e) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211.
 - (f) "Local school operating revenue per membership pupil" means a district's local school operating revenue divided by the district's membership excluding special education pupils.
 - (g) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.
 - (h) "Principal residence" and "qualified agricultural property" mean those terms as defined in section 7dd of the general property tax act, 1893 PA 206, MCL 211.7dd.
 - (i) "School operating purposes" means the purposes included in the operation costs of the district as prescribed in sections 7 and 18.
 - (j) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.
 - (k) "Taxable value per membership pupil" means taxable value, as certified by the department of treasury, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

- (a) For a district that had combined state and local revenue per membership pupil in the 1994-95 state fiscal year of \$6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district pursuant to this act in 1993-94 shall exclude payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

388.1620j Foundation allowance supplemental payments; amounts.

Sec. 20j.

- (1) Foundation allowance supplemental payments for 2006-2007 to districts that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 shall be calculated under this section.
- (2) The per pupil allocation to each district under this section shall be the difference between the dollar amount of the adjustment from the 1998-99 state fiscal year to the current state fiscal year in the basic foundation allowance minus the dollar amount of the adjustment from the 1998-99 state fiscal year to the current state fiscal year in the district's foundation allowance.
- (3) If a district's local revenue per pupil does not exceed the sum of its foundation allowance under section 20 plus the per pupil allocation under subsection (2), the total payment to the district calculated under this section shall be the product of the per pupil allocation under subsection (2) multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the foundation allowance under section 20 but does not exceed the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2), the total payment to the district calculated under this section shall be the product of the difference between the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2) minus the local revenue per pupil multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2), there is no payment calculated under this section for the district.
- (4) Payments to districts shall not be made under this section. Rather, the calculations under this section shall be made and used to determine the amount of state payments under section 22b.

Sec. 20k.

If the maximum amount appropriated under section 11 from the state school aid fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year so that a district's state school aid is reduced pursuant to section 11(3), the payments calculated under section 20j and made under section 22b shall be considered to be foundation allowance payments for the purpose of determining the maximum number of mills a district may levy under section 1211(3) of the revised school code, MCL 380.1211. However, the amount to be considered a foundation allowance payment for this purpose shall not exceed the amount reduced from the district's state aid payment as a result of the implementation of section 11(3).

388.1621b Tuition and fee support for pupil attending postsecondary institution.

Sec. 21b.

- (1) Subject to subsections (2) and (3), a district shall use funds received under section 22a or 22b to support the attendance of a district pupil at an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or under the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913.
- (2) To the extent required under subsection (3), a district shall pay tuition and mandatory course fees, material fees, and registration fees required by an eligible postsecondary institution for enrollment in an eligible course. A district also shall pay any late fees charged by an eligible postsecondary institution due to the district's failure to make a required payment according to the timetable prescribed by the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913. A district is not required to pay transportation costs, parking costs, or activity fees.
- (3) A district shall pay to the eligible postsecondary institution on behalf of an eligible student an amount equal to the lesser of the amount of the eligible charges described in subsection (2) or the prorated percentage of the state portion of the foundation allowance paid or calculated, as applicable, on behalf of that eligible student under section 20, with the proration based on the proportion of the school year that the eligible student attends the postsecondary institution. 388.1622a Allocation for 2005-2006 and 2006-2007; payments to districts, university schools, and public school academies; definitions.

Sec. 22a.

- (1) From the appropriation in section 11, there is allocated an amount not to exceed \$6,407,000,000.00 for 2005-2006 and an amount not to exceed \$6,207,000,000.00 for 2006-2007 for payments to districts, qualifying university schools, and qualifying public school academies to guarantee each district, qualifying university school, and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.
- (2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:
- (a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a homestead or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to

125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

- (b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership.
- (3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy or qualifying university school, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy, or to the board of the public university operating the qualifying university school, an amount equal to the 1994-95 per pupil payment to the qualifying public school academy or qualifying university school under section 20.
- (4) A district, qualifying university school, or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district, qualifying university school, or qualifying public school academy otherwise would be eligible.
- (5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.
- (6) As used in this section:
 - (a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

 - (c) "Current year hold harmless school operating taxes per pupil" means the per pupil revenue generated by multiplying a district's 1994-95 hold harmless millage by the district's current year taxable value per membership pupil.
 - (d) "Hold harmless millage" means, for a district with a 1994-95 foundation allowance greater than \$6,500.00, the number of mills by which the exemption from the levy of school operating taxes on a homestead and qualified agricultural property could be reduced as provided in section 1211(1) of the revised school code, MCL 380.1211, and the number of mills of school operating taxes that could be

levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, as certified by the department of treasury for the 1994 tax year.

- (e) "Homestead" means that term as defined in section 1211 of the revised school code, MCL 380.1211.
- (f) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.
- (g) "Qualified agricultural property" means that term as defined in section 1211 of the revised school code, MCL 380.1211.
- (h) "Qualifying public school academy" means a public school academy that was in operation in the 1994-95 school year and is in operation in the current state fiscal year.
- (i) "Qualifying university school" means a university school that was in operation in the 1994-95 school year and is in operation in the current fiscal year.
- (j) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.
- (k) "Taxable value per membership pupil" means each of the following divided by the district's membership:
 - (i) For the number of mills by which the exemption from the levy of school operating taxes on a homestead and qualified agricultural property may be reduced as provided in section 1211(1) of the revised school code, MCL 380.1211, the taxable value of homestead and qualified agricultural property for the calendar year ending in the current state fiscal year.
 - (ii) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current state fiscal year.

Sec. 22b.

- (1) From the appropriation in section 11, there is allocated an amount not to exceed \$3,217,000,000.00 for 2005-2006 and an amount not to exceed \$3,584,950,000.00 for 2006-2007 for discretionary nonmandated payments to districts under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.
- (2) Subject to subsection (3) and section 11, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 20j, 51a(2), 51a(3), and 51a(12), minus the sum of the allocations to the district under sections 22a and 51c.
- (3) In order to receive an allocation under this section, each district shall do all of the following:
 - (a) Administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. A district may use the Michigan literacy progress profile to satisfy this requirement for grades 1 to 3. Also, if the revised school code is amended to require annual assessments at additional grade levels, in order to receive an allocation under this section each district shall comply with that requirement.
 - (b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

 - (d) Comply with section 1230g of the revised school code, MCL 380.1230g.
- (4) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.
- (5) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, and 51c. If a claim is made by an entity receiving funds under this act that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.
- (6) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (5) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).
- (7) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim

exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

- (8) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.
- (9) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396v.

388.1624 Allocations for 2006-2007; payments for educating students assigned by court or department of human services; allocations; definitions; funding for department-approved on-grounds educational program.

Sec. 24.

- (1) From the appropriation in section 11, there is allocated for 2006-2007 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

- (2) For 2006-2007, 80% of the total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district, and 20% of the total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the district's or intermediate district's added cost. For 2007-2008, 90% of the total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district, and 10% of the total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the district's or intermediate district's added cost. Beginning with allocations for 2008-2009, 100% of the total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

Added cost shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.
- (b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.
- (3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

Compiler's Notes: Subsection (3) of Sec. 24, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987. Subsection (3) of Sec. 24, as amended by Act 212 of 1986, reads as follows: "(3) Special education pupils funded under section 53 shall not be counted under this section." In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that "the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill..." In subsection (2), as amended by Act 297 of 2000, the last sentence "In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program" was vetoed by the governor July 26, 2000. In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases "and for 2002-2003" and "and \$8,900,000.00 for 2002-2003" were vetoed by the governor September 28, 2001. Enacting section 3 of Act 521 of 2002 provides: "Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents

per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963." For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002. any amount applicable to pupils who transfer to that district from the educating district and meet the requirements of subsection (1)(a) to (c).

- (4) As used in this section, “educating district” means the district in which a pupil enrolls after the pupil membership count day as described in subsection (1).

Sec. 25c.

(1) Beginning in 2000-2001, this section applies to an educating district's enrollment of a pupil if the educating district is a school district of the first class under the revised school code and if all of the following apply:

- (a) The pupil transfers from another district and enrolls in the educating district after the pupil membership count day.
- (b) Due to the pupil's enrollment status as of the pupil membership count day, the pupil was counted in membership in the district from which he or she transfers.
- (c) The pupil was a resident of the educating district on the pupil membership count day or met other eligibility criteria under section 6(4) or (6) to be counted in membership in the educating district if the pupil had been enrolled in the educating district on the pupil membership count day.
- (d) The total number of pupils enrolled in the district who are described in subdivisions (a), (b), and (c) is at least equal to 25.

(2) If the conditions specified in subsection (1) are met, and a pupil transfers from another district and enrolls during a school year in the educating district, the educating district shall report the enrollment information to the department and to the district in which the pupil is counted in membership, and the district in which the pupil is counted in membership shall pay to the educating district an amount equal to the amount of the foundation allowance or per pupil payment as calculated under section 20 for the district in which the pupil is counted in membership, prorated according to the number of days of the school year ending in the fiscal year the pupil is educated in the educating district compared to the number of days of the school year ending in the fiscal year the pupil was actually enrolled in the district in which the pupil is counted in membership. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4). If a district does not make the payment required under this section within 30 days after receipt of the report, the department shall calculate the amount owed, shall deduct that amount from the remaining state school aid payments to the district for that fiscal year under this act, and shall pay that amount to the educating district. The district in which the pupil is counted in membership and the educating district shall provide to the department all information the department requires to enforce this section.

(3) In determining the total amount a district owes to the educating district under this section, regardless of whether that district is otherwise eligible for payment from the educating district under this section, the district may calculate and subtract from the amount owed, using the calculation described in subsection (1), any amount applicable to pupils who transfer to that district from the educating district and meet the requirements of subsection (1)(a) to (c).

(4) As used in this section, “educating district” means the district in which a pupil enrolls after the pupil membership count day as described in subsection (1).

Subject to subsection (15), the amount of the additional allowance under this section, other than funding under subsection (6), (7), or (8), shall be based on the number of actual pupils in membership in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year. However, for a public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act.
- (2) To be eligible to receive funding under this section, other than funding under subsection (6), (7), or (8), a district or public school academy that has not been previously determined to be eligible shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy must meet all of the following:
 - (a) The sum of the district's or public school academy's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), is less than or equal to \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current state fiscal year and \$5,000.00, minus \$200.00.

Russell national school lunch act and as reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or public school academy's per pupil

amount calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current state fiscal year and \$5,000.00, minus \$200.00, or of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year.

In addition, a district that is organized as a school district of the first class under the revised school code or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), may use not more than 15% of the funds it receives under this section for school security. A district or public school academy shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy under this section in the immediately preceding year and already being used by the district or public school academy for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. - (6) From the funds allocated under subsection (1), there is allocated for 2006-2007 an amount not to exceed \$3,743,000.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. Beginning in 2004-2005, to continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (15) for that fiscal year.

The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health.
- (8) From the funds allocated under subsection (1), there is allocated for 2006-2007 an amount not to exceed \$100,000.00 for payment to a district that is a school district of the first class under the revised school code to support after-school tutoring for at-risk girls in grades 1 to 8. Funds awarded under this subsection may be used to contract with a nondistrict agency for a program or services described in this subsection.
- (9) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.
- (10) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.
- (11) Subject to subsections (5), (6), (7), (8), (13), and (14), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (8), (13), and (14), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.
- (12) A district or public school academy may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.
- (13) For an individual school or schools operated by a district or public school academy receiving funds under this section that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy may submit to the department an application for flexibility in using the funds received under this section that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to benefit at-risk

pupils in the school. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

- (14) A district or public school academy that receives funds under this section may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:
- (a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

However, both of the following apply to this subparagraph:

 - (viii) The program offers supplementary day care and thereby offers full-day programs as part of its early childhood development program.
 - (ix) The application contains a plan approved by the department to conduct and report annual school readiness program evaluations and continuous improvement plans using criteria approved by the department. At a minimum, the evaluations shall include a self-assessment of program quality and assessment of the gains in educational readiness and progress of the children participating in the program.
- (e) An application shall demonstrate that the program has established or has joined a multidistrict, multiagency school readiness advisory committee that is involved in the planning and evaluation of the program and that provides for the involvement of parents and appropriate community, volunteer, and social service agencies and organizations.  - (3) The superintendent may award grants under this section at whatever level the superintendent determines appropriate. However, the amount of a grant under this section, when combined with other sources of state revenue for this program, shall not exceed \$3,300.00 per participating child or the cost of the program, whichever is less.
 - (4) For a grant recipient that enrolls pupils in a full-day program funded under this section, each child enrolled in the full-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a full-day program. As used in this subsection, "full-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a full-day program must enroll all children for the full day to be considered a full-day program.
 - (5) Except as otherwise provided in this subsection, an applicant that receives a new grant under this section for 2006-2007 shall also receive priority for funding under this section for 2007-2008 and 2008-2009. However, after 3 fiscal years of continuous funding, an applicant is required to compete openly with new programs and other programs completing their third year. All grant awards under this section are contingent on the availability of funds and documented evidence of grantee compliance with early childhood standards of quality for prekindergarten, as approved by the state board, and with all operational, fiscal, administrative, and other program requirements.
 - (6) Notwithstanding section 17b, payments to eligible entities under this section shall be paid on a schedule and in a manner determined by the department.

388.1633 Repealed. 2006, Act 342, Eff. Oct. 1, 2006.

Compiler's Notes: The repealed section pertained to allocation to assist in transition from governance by a school reform board to governance by an elected school board.

388.1634 Appropriation of funds for 2006-2007; grants.

Sec. 34.

- (1) From the appropriations in section 11, there is allocated an amount not to exceed \$400,000.00 for 2006-2007 to the department for grants to districts under this section.
- (2) Not more than 76% of the money allocated under this section shall be used for grants to districts for the first year of a 5-year grant program to develop an early intervening model program for grades K to 3. The early intervening program will instruct classroom teachers and support staff on how to monitor individual pupil learning and how to provide specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program will include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs. All of the following apply to the grants:
 - (a) Each site funded by a grant shall serve as either a model site of practice or a site of improvement. A model site will serve as an ongoing model that provides the early intervening program for pupils and conducts professional development on site for personnel visiting from a site of improvement. A site of improvement is a site that seeks to implement the early intervening program.
 - (b) The grants shall be distributed through a process established by the department. The selection of grant recipients shall be based on the ability to serve as a model site of practice or, for a site of improvement, based on the highest demonstrated need to improve opportunities for learning success as reflected by either a combined percentage of pupils who are learning disabled, emotionally impaired, or speech and language impaired that is higher than the statewide percentage of those pupils or a percentage of pupils reading below grade level as measured by the statewide third grade English

language arts assessment that is higher than the statewide percentage of those pupils, as determined by the department. The department shall ensure geographic diversity in awarding grants.

- (c) The department shall award up to 19 grants, with not more than 4 of the grants for development of model sites of practice and not more than 15 of the grants for sites of improvement. A model site of practice shall use the grant funds to make professional development on how to provide the program available on site to personnel from sites of improvement. A site of improvement shall use the grant funds to pay for the expenses of obtaining this professional development and other expenses related to implementing an early intervening program.
 - (d) The amount of a grant to a district shall be \$40,000.00.
 - (e) A grant shall be used for early intervening programs for pupils at the elementary level only.
- (3) Not more than 24% of the money allocated under this section shall be used for grants to districts for programs that provide early intervening strategies for pupils in grades K to 3 using schoolwide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A schoolwide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child. These grants shall be distributed through a competitive process established by the department. A grant shall be used for providing these programs for pupils at the elementary level only.
 - (4) The department shall develop guidelines on the use of the grant funds allocated under this section. These guidelines shall ensure that the use of these grant funds is consistent with research and instructional programs that include data-driven processes and proven methods of success.
 - (5) Programs funded under this section shall invite visitation and feedback from the regional literacy training center in which service area the recipient district is located, as identified by the department.
 - (6) Notwithstanding section 17b, payments under this section may be made pursuant to an agreement with the department.
 - (7) Not later than January 30 of the next fiscal year, the department shall prepare and submit to the governor, the senate and house standing committees on education, and the senate and house appropriations subcommittees having jurisdiction over state school aid an annual report of outcomes achieved by the grant recipients funded under this section for a fiscal year. For this report, the funded sites shall collect data prescribed by the department and report to the department on the percentage of pupils reading at grade level before implementation of the program and the percentage of pupils reading at grade level after implementation of the program, as measured by the statewide third grade English language arts assessment.

Sec. 37.

- (1) A district is eligible for an allocation under section 32d if the district meets all of the requirements in subsections (2), (3), and (4).
- (2) The district shall submit a preapplication, in a manner and on forms prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment and community collaboration plan, and shall identify all of the following:
 - (a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.
 - (b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.
 - (c) The number of children the district will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.
 - (d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the district and community early childhood programs have met their funded enrollments. The school district shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.
- (3) The district shall submit a final application for approval, in a manner and on forms prescribed by the department, by a date specified by the department. The final application shall indicate all of the following that apply:
 - (a) The district complies with the state board approved early childhood standards of quality for prekindergarten.
 - (b) The district provides for the active and continuous participation of parents or guardians of the children in the program, and describes the district's participation plan as part of the application.
 - (c) The district only employs for this program the following:
 - (i) Teachers possessing proper training. For programs the district manages itself, a valid teaching certificate and an early childhood (ZA) endorsement are required. This provision does not apply to a district that subcontracts with an eligible child development program. In that situation a teacher must have a valid Michigan teaching certificate with an early childhood (ZA) endorsement, a valid Michigan teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, both of the following apply to this subparagraph:
 - (A) If a district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but

incomplete training in early childhood education or child development may be employed by the district if the district provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 4 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(B) For a subcontracted program, the department shall consider a teacher with 90 credit hours and at least 4 years' teaching experience in a qualified preschool program to meet the requirements under this subparagraph.

- (ii) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential, or the equivalent as approved by the state board. However, if a district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the district may employ paraprofessionals who have completed at least 1 course in early childhood education or child development if the district provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.
- (d) The district has submitted for approval a program budget that includes only those costs not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the early childhood readiness program, and that would not be incurred if the program were not being offered. If children other than those determined to be educationally disadvantaged participate in the program, state reimbursement under section 32d shall be limited to the portion of approved costs attributable to educationally disadvantaged children.
- (e) The district has established a, or has joined a multidistrict, multiagency, school readiness advisory committee consisting of, at a minimum, classroom teachers for prekindergarten, kindergarten, and first grade; parents or guardians of program participants; representatives from appropriate community agencies and organizations; the district curriculum director or equivalent administrator; and, if feasible, a school psychologist, school social worker, or school counselor. In addition, there shall be on the committee at least 1 parent or guardian of a program participant for every 18 children enrolled in the program, with a minimum of 2 parent or guardian representatives. The committee shall do all of the following:
 - (i) Ensure the ongoing articulation of the early childhood, kindergarten, and first grade programs offered by the district or districts.
 - (ii) Review the mechanisms and criteria used to determine participation in the early childhood program.
 - (iii) Review the health screening program for all participants.
 - (iv) Review the nutritional services provided to program participants.

- (f) The district has submitted for departmental approval a plan to conduct and report annual school readiness program evaluations and continuous improvement plans using criteria approved by the department. At a minimum, the evaluations shall include a self-assessment of program quality and assessment of the gains in educational readiness and progress of the children participating in the program.
 - (g) More than 50% of the children participating in the program live with families with a household income that is equal to or less than 250% of the federal poverty level.
- (4) A consortium of 2 or more districts shall be eligible for an allocation under section 32d if the districts designate a single fiscal agent for the allocation. A district or intermediate district may administer a consortium described in this subsection. A consortium shall submit a single preapplication and application for the children to be served, regardless of the number of districts participating in the consortium.
 - (5) With the final application, an applicant district shall submit to the department a resolution adopted by its board certifying the number of 4-year-old children who show evidence of risk factors as described in section 32d who live with families with a household income that is less than or equal to 250% of the federal poverty level.

388.1639 Tentative allocation to eligible district under MCL 388.1632d; priority in funding; contingency; supplementary day care; district with 315 or more eligible pupils; additional eligible children; full-day program; definition.

Sec. 39.

- (1) The tentative allocation for each fiscal year to each eligible district under section 32d shall be determined by multiplying the number of children determined in section 38 or the number of children the district indicates it will be able to serve under section 37(2)(c), whichever is less, by \$3,300.00 and shall be distributed among districts in decreasing order of concentration of eligible children as determined by section 38 until the money allocated in section 32d is distributed. If the number of children a district indicates it will be able to serve under section 37(2)(c) includes children able to be served in a full-day program, then the number able to be served in a full-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined in section 38 and the number of children the district indicates it will be able to serve under section 37(2)(c) and determining the amount of the tentative allocation to the district under section 32d.
- (2) A district that received funds under this section in at least 1 of the 2 immediately preceding fiscal years shall receive priority in funding over other eligible districts. However, funding beyond 3 state fiscal years is contingent upon the availability of funds and documented evidence satisfactory to the department of compliance with all operational, fiscal, administrative, and other program requirements.

- (4) For any district with 315 or more eligible pupils, the number of eligible pupils shall be 65% of the number calculated under section 38. However, none of these districts may have less than 315 pupils for purposes of calculating the tentative allocation under section 32d.
- (5) If, taking into account the total amount to be allocated to the district as calculated under this section, a district determines that it is able to include additional eligible children in the school readiness program without additional funds under this section, the district may include additional eligible children but shall not receive additional funding under this section for those children.
- (6) For a district that enrolls pupils in a full-day program under section 32d, each child enrolled in the full-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the allocation under section 32d. A district's allocation shall not be increased solely on the basis of providing a full-day program.
- (7) As used in this section, "full-day program" means a program that operates for at least the same length of day as the district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a full-day program must enroll all children for the full day to be considered a full-day program.

Sec. 51a.

- (1) From the appropriation in section 11, there is allocated for 2005-2006 an amount not to exceed \$932,083,000.00 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$345,850,000.00, plus any carryover federal funds from previous year appropriations. From the appropriation in section 11, there is allocated for 2006-2007 an amount not to exceed \$991,983,000.00 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$350,700,000.00, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.234 and 300.235. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.
- (2) From the funds allocated under subsection (1), there is allocated each fiscal year for 2005-2006 and for 2006-2007 the amount necessary, estimated at \$191,800,000.00 for 2005-2006 and \$205,600,000.00 for 2006-2007, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

- (a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (12), times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00 minus \$200.00, or, for a special education pupil in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (12), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00 minus \$200.00, and that district's per pupil allocation under section 20j(2).
- (b) After the allocations under subdivision (a), districts and intermediate districts for which the payments under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.
- (3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2005-2006 and for 2006-2007 the amount necessary, estimated at \$2,200,000.00 for 2005-2006 and \$1,600,000.00 for 2006-2007, to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.
- (4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.
- (5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2005-2006 and for 2006-2007 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.
- (6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 each fiscal year for 2005-2006 and for 2006-2007 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for

special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

- (7) For purposes of this article, all of the following apply:
- (a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.
 - (b) Except as otherwise provided in subdivisions (c) and (d), beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this act. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.
 - (c) If the department determines before bookclosing for 2004-2005 that the amounts allocated under this section for 2004-2005 will exceed expenditures under this section for 2004-2005, then for 2004-2005 only, for a district or intermediate district whose reimbursement for 2004-2005 would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under this section is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.
 - (d) If the department determines before bookclosing for 2005-2006 that the amounts allocated for 2005-2006 under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 will exceed expenditures for 2005-2006 under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56, then for 2005-2006 only, for a district or intermediate district whose reimbursement for 2005-2006 would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.

- (e) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.
- (f) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.
- (8) From the allocation in subsection (1), there is allocated each fiscal year for 2005-2006 and for 2006-2007 an amount not to exceed \$15,313,900.00 to intermediate districts. The payment under this subsection to each intermediate district shall be equal to the amount of the 1996-97 allocation to the intermediate district under subsection (6) of this section as in effect for 1996-97.
- (9) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.
- (10) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.
- (11) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.
- (12) From the funds allocated in subsection (1), there is allocated each fiscal year for 2005-2006 and for 2006-2007 the amount necessary, estimated at \$6,900,000.00 for 2005-2006 and \$7,700,000.00 for 2006-2007, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00 minus \$200.00, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00 minus \$200.00, and that district's per pupil allocation under section 20j(2). This subsection applies to all of the following pupils:
 - (a) Pupils described in section 53a.

- (b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.
 - (c) Emotionally impaired pupils counted in membership by an intermediate district and provided educational services by the department of community health.
- (13) After payments under subsections (2) and (12) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:
- (a) 100% of the reimbursement required under section 53a.
 - (b) 100% of the reimbursement required under subsection (6).
 - (c) 100% of the payment required under section 54.
 - (d) 100% of the payment required under subsection (3).
 - (e) 100% of the payment required under subsection (8).
 - (f) 100% of the payments under section 56.
- (14) The allocations under subsection (2), subsection (3), and subsection (12) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

If the district does not have a grade 6 or higher, the district may apply for funding for the next lowest grade level. If the district operates 1 or more schools that are not meeting adequate yearly progress, as determined by the department, and that contain grade 6, the district may apply for funding for a school building-wide program for 1 or more of those schools. The independent institute shall provide districts with sample local plans and funding models for the purposes of this subdivision and with information on available federal and private resources.

- (e) How the district will amend its local technology plan as required under state and federal law to reflect the program under this section.
- (5) The amount of a grant under this section to a single district for a fiscal year shall not exceed 25% of the total amount available for grants under this section for that fiscal year.
- (6) A district that received money under section 98 in 2002-2003 for a wireless technology grant is eligible to receive a grant under this section.

- (8) The department of management and budget shall maintain a statewide public-private partnership to implement the program.
- (9) A district may elect to purchase or lease wireless computing devices from a vendor other than the statewide partnership described in subsection (8) if the independent institute determines that the vendor meets or exceeds minimum requirements and the vendor is identified in the district's grant application. Districts may apply to receive additional grants of \$1,000.00 per pupil for use in professional development activities specific to the alternative deployment solution instead of the statewide professional development as described under subsection (7).
- (10) The state education agency shall sign a memorandum of understanding with the independent institute regarding DED-OESE, title II, educational technology grants, as provided under this subsection not later than October 1, 2006. - (2) To be eligible to receive state aid under this act, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to transmit the audited data as required under this subsection, state aid due to be distributed under this act shall be withheld from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.
- (3) All of the following apply to the provision of pupil instruction:
- (a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours of pupil instruction. Except as otherwise provided in this act, a district failing to comply with the required minimum hours of pupil instruction under this subsection shall forfeit from its total state aid allocation an amount determined by applying a ratio of the number of hours the district was in noncompliance in relation to the required minimum number of hours under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours of pupil instruction in the previous school year. If the district did not provide at least the required minimum number of hours of pupil instruction under this subsection, the deduction of state aid shall be made in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6). Hours lost because of strikes or teachers' conferences shall not be counted as days or hours of pupil instruction.
 - (b) Except as otherwise provided in subdivision (c), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.
 - (c) Beginning in 2005-2006, at the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent shall grant a waiver for a period of 3 school years from the requirements of subdivision (b) in order to conduct a pilot study. The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (b) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. Not later than 2008-2009, the department shall report on the impact of this waiver on the academic achievement of pupils in these districts to the state budget director and the senate and house appropriations subcommittees on state school aid. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements during the pilot study:
 - (i) The district offers the minimum hours of pupil instruction as required under this section.
 - (ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.
 - (iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.
 - (d) The superintendent shall promulgate rules for the implementation of this subsection.
- (4) Except as otherwise provided in this subsection, the first 30 hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours of pupil instruction. Beginning in 2003-2004, with the approval of the superintendent of public instruction, the department shall count as hours of pupil instruction for a fiscal year not more than 30 additional hours for which pupil instruction is not provided in

a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours shall not be counted as hours of pupil instruction.

- (5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).
- (6) Not later than April 15 of each fiscal year, the board of each district shall certify to the department the planned number of hours of pupil instruction in the district for the school year ending in the fiscal year. In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following has occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this act that is equal to the proportion below the required minimum number of hours of pupil instruction under subsection (3), as specified in the following:
 - (a) The district fails to operate its schools for at least the required minimum number of hours of pupil instruction under subsection (3) in a school year, including hours counted under subsection (4).
 - (b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours of pupil instruction under subsection (3) in a school year, including hours counted under subsection (4).
- (7) In providing the minimum number of hours of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:
 - (a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.
 - (b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.
 - (c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.
 - (d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.
 - (e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

- (i) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.
 - (ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.
- (8) The department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.
- (9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours of pupil instruction requirement of subsection (3) for a department-approved alternative education program. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, for the fiscal year covered by the waiver the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours of pupil instruction actually provided to the minimum number of hours of pupil instruction required under subsection (3).
- (10) A district may count up to 38 hours of qualifying professional development for teachers, including the 5 hours of online professional development provided by the Michigan virtual university under section 98, as hours of pupil instruction. However, if a collective bargaining agreement that provides more than 38 but not more than 51 hours of professional development for teachers is in effect for employees of a district as of the effective date of the 2006 amendatory act that amended this subsection, then until the fiscal year that begins after the expiration of that collective bargaining agreement a district may count up to 51 hours of qualifying professional development for teachers, including the 5 hours of online professional development provided by the Michigan virtual university under section 98, as hours of pupil instruction. A district that elects to use this exception shall notify the department of its election. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:
- (a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001, Public Law 107-110.
 - (b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.
 - (c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public Law 107-110.
 - (d) Maintaining teacher certification.

388.1704a State assessments to high school pupils.

Sec. 104a.

- (1) Subject to subsection (14) and section 104b, until the end of the 2005-2006 school year, in order to receive state aid under this act, a district shall comply with this section and shall administer state assessments to high school pupils in the subject areas of English language arts, mathematics, science, and social studies. If the superintendent determines that it would be consistent with the purposes of this section, the superintendent may designate the grade 11 Michigan education assessment program tests as the assessments to be used for the purposes of this section. The district shall include on the pupil's high school transcript all of the following:
 - (a) For each high school graduate who has completed a subject area assessment under this section, the pupil's scaled score on the assessment.
 - (b) If the pupil's scaled score on a subject area assessment falls within the range required under subsection (2) for "exceeds expectations", "meets expectations", or "basic", an indication that the pupil has achieved state endorsement for that subject area.
 - (c) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.
- (2) The superintendent shall develop scaled scores for reporting subject area assessment results for each of the subject areas under this section. The superintendent shall establish 4 categories for each subject area indicating exceeds expectations, meets expectations, basic, and below basic, and shall establish the scaled

score range required for each category. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes these categories in each subject area and indicates the scaled score ranges for each category in each subject area. A district may award a high school diploma to a pupil who successfully completes local district requirements established in accordance with state law for high school graduation, regardless of whether the pupil is eligible for any state endorsement.

- (3) The assessments administered for the purposes of this section shall be administered to pupils during the last 90 school days of grade 11. The superintendent shall ensure that the assessments are scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate the pupil's scaled score for each subject area assessment, the range of scaled scores for each subject area, and the range of scaled scores required for each category established under subsection (2). In reporting the scores to pupils, parents, and schools, the superintendent shall provide specific, meaningful, and timely feedback on the pupil's performance on the assessment.
- (4) Beginning with assessments conducted in the 2005-2006 school year, all of the following apply to the assessments under this section:
 - (a) The superintendent shall ensure that any contractor used for scoring the assessment supplies an individual report for each pupil that will identify for the student's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.
 - (b) The superintendent shall ensure that any contractor used for scoring, developing, or processing an assessment instrument meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the 2005-2006 school year assessments and at least meeting level 3 of the capability maturity model for subsequent assessments.
 - (c) The superintendent shall ensure that any contract it enters into for scoring, administering, or developing an assessment instrument includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.
 - (d) The superintendent shall ensure that the assessment instruments meet all of the following:
 - (i) Are designed to test pupils on grade level content expectations or course content expectations, as appropriate, in all subjects tested.
 - (ii) Comply with requirements of the no child left behind act of 2001, Public Law 107-110.
 - (iii) Are consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.
 - (iv) Are factually accurate. If the superintendent determines that a question is not factually accurate and should be removed from an assessment instrument, the state board and the superintendent shall ensure that the question is removed from the assessment instrument.
- (5) For each pupil who does not achieve proficiency in 1 or more subject areas, the board of the district in which the pupil is enrolled shall provide that there be at least 1 meeting attended by at least the pupil and a member of the district's staff or a local or intermediate district consultant who is proficient in the measurement and evaluation of pupils. The district may provide the meeting as a group meeting for pupils in similar circumstances. If the pupil is a minor, the district shall invite and encourage the pupil's parent, legal guardian, or person in loco parentis to attend the meeting and shall mail a notice of the meeting to the

pupil's parent, legal guardian, or person in loco parentis. The purpose of this meeting and any subsequent meeting under this subsection shall be to determine an educational program for the pupil designed to have the pupil achieve state endorsement in each subject area in which he or she did not achieve state endorsement. In addition, a district may provide for subsequent meetings with the pupil conducted by a high school counselor or teacher designated by the pupil's high school principal, and shall invite and encourage the pupil's parent, legal guardian, or person in loco parentis to attend the subsequent meetings. The district shall provide special programs for the pupil or develop a program using the educational programs regularly provided by the district unless the board of the district decides otherwise and publishes and explains its decision in a public justification report.

- (6) A pupil who wants to repeat an assessment administered under this section may repeat the assessment, without charge to the pupil, in the next school year or after graduation. An individual may repeat an assessment at any time the district administers an applicable assessment instrument or during a retesting period under subsection (8).
- (7) The superintendent shall ensure that the length of the assessments used for the purposes of this section and the combined total time necessary to administer all of the assessments are the shortest possible that will still maintain the degree of reliability and validity of the assessment results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for administration of all of the assessments used for the purposes of this section does not exceed 8 hours. However, this subsection does not limit the amount of time that individuals may have to complete the assessments.
- (8) The superintendent shall establish, schedule, and arrange periodic retesting periods throughout the year until the end of the 2006-2007 school year for individuals who desire to repeat an assessment under this section. The superintendent shall coordinate the arrangements for administering the repeat assessments and shall ensure that the retesting is made available at least within each intermediate district and, to the extent possible, within each district.
- (9) A district shall provide accommodations to a pupil with disabilities for the assessments required under this section, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes.
- (10) For the purposes of this section, the superintendent shall develop or select and approve assessment instruments to measure pupil performance in English language arts, mathematics, social studies, and science. The assessment instruments shall be based on grade level content expectations or course content expectations, as appropriate.
- (11) Upon written request by the pupil's parent or legal guardian stating that the request is being made for the purpose of providing the pupil with an opportunity to qualify to take 1 or more postsecondary courses as an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or under the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, the board of a district shall allow a pupil who is in at least grade 10 to take an assessment administered under this section without charge at any time the district regularly administers the assessment or during a retesting period established under subsection (8). A district is not required to include in an annual education report, or in any other report submitted to the superintendent for accreditation purposes, results of assessments taken under this subsection by a pupil in grade 11 or lower until the results of that pupil's graduating class are otherwise reported.
- (12) All assessment instruments developed or selected and approved by the state under any statute or rule for a purpose related to K to 12 education shall be objective-oriented and consistent with grade level content expectations or course content expectations, as appropriate.

- (13) Until the end of the 2006-2007 school year, a person who has graduated from high school after 1996 and who has not previously taken an assessment under this section may take an assessment used for the purposes of this section, without charge to the person, at the district from which he or she graduated from high school at any time that district administers the assessment or during a retesting period scheduled under subsection (8) and have his or her scaled score on the assessment included on his or her high school transcript. If the person's scaled score on a subject area assessment falls within the range required under subsection (2) for a category established under subsection (2), the district shall also indicate on the person's high school transcript that the person has achieved state endorsement for that subject area.
- (14) Until the end of the 2006-2007 school year, a person who has previously taken an assessment under this section may take a retest on the assessment for the purposes of qualifying for a Michigan merit award under the Michigan merit award scholarship act, 1999 PA 94, MCL 390.1451 to 390.1459. The person may take the retest, without charge to the person, at the district in which he or she is enrolled or resides or, if it is not available in that district, at another location within the intermediate district in which he or she resides, at a regular testing time scheduled for the assessment or during a retesting period scheduled under subsection (8).
- (15) A child who is a student in a nonpublic school or home school may take an assessment under this section. To take an assessment, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the assessment, or the child may take the assessment at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall supply assessments and the nonpublic school may administer the assessment. If a district administers an assessment under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.
- (16) The purpose of the assessment under this section is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards. These standards are based upon the expectations of what pupils should know and be able to do by the end of grade 11.
- (17) As used in this section:

 - (a) For pupils in grade 11 in the 2005-2006 school year, the provisions concerning state assessments under section 104a apply to all pupils in grade 11 and the Michigan merit examination shall be administered to a sample of pupils in grade 11 statewide, as identified by the department. The pupils to be included in this sample shall be determined by the department as the department determines necessary to seek the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110.
 - (b) Subject to subdivision (c), for pupils in grade 11 in the 2006-2007 school year and subsequent school years, the Michigan merit examination shall be offered to all pupils in grade 11.
 - (c) If the United States department of education has not approved the use of the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110, by December 31, 2006, all of the following apply:
 - (i) The provisions concerning state assessments under section 104a shall continue to apply to all pupils in grade 11 until the next calendar year that begins after that approval occurs.
 - (ii) The Michigan merit examination shall be offered to all pupils in grade 11 beginning in the next calendar year that begins after that approval occurs.
 - (iii) If it is necessary as part of the process of continuing to seek the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110, the department may again provide for the administration of both the state assessments under section 104a and the Michigan merit examination to a sample of pupils in grade 11 statewide as described in subdivision (a).
- (2) The department shall take all steps necessary, including, but not limited to, conducting a content alignment study and statistical analyses, to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110, by not later than December 31, 2006 or as soon thereafter as possible.
- (3) For the purposes of this section, the department of management and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:
 - (a) Assessment instruments that measure English language arts, mathematics, reading, and science and are used by colleges and universities in this state for entrance or placement purposes.
 - (b) One or more tests from 1 or more test developers that assess a pupil's ability to apply reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions.
 - (c) A social studies component.
 - (d) Any other component that is necessary to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110.
- (4) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

- (a) The department of management and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.
- (b) The department of management and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.
- (c) The department of management and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.
- (d) The superintendent shall ensure that the Michigan merit examination meets all of the following:
 - (i) Is designed to test pupils on grade level content expectations or course content expectations, as appropriate, in all subjects tested.
 - (ii) Complies with requirements of the no child left behind act of 2001, Public Law 107-110.
 - (iii) Is consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.
 - (iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be removed from an assessment instrument, the state board and the superintendent shall ensure that the question is removed from the assessment instrument.
- (5) Beginning with pupils completing grade 11 in 2006, a district shall include on each pupil's high school transcript all of the following:
 - (a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.
 - (b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.
- (6) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination, including scaling and merging of test items for the different subject area components. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.
- (7) The Michigan merit examination shall be administered each year after March 1 and before June 1 to pupils in grade 11. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

- (8) A pupil who does not qualify for a Michigan merit award scholarship under the Michigan merit award scholarship act, 1999 PA 94, MCL 390.1451 to 390.1459, and who wants to repeat the Michigan merit examination may repeat the Michigan merit examination in the next school year on a designated testing date. The first time a pupil repeats the Michigan merit examination under this subsection shall be without charge to the pupil, but the pupil is responsible for paying the cost of any subsequent repeat.
- (9) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for administration of all of the components of the Michigan merit examination does not exceed 8 hours.
- (10) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.
- (11) To the greatest extent possible, the Michigan merit examination shall be based on grade level content expectations or course content expectations, as appropriate.
- (12) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.
- (13) In contracting under subsection (3), the department of management and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.
- (14) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.
- (15) As used in this section:
 - (a) "English language arts" means reading and writing.
 - (b) "Social studies" means United States history, world history, world geography, economics, and American government.

Sec. 105.

- (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing within the same intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.
- (2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing within the same intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents:
 - (a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.
 - (b) If the district has a limited number of positions available for nonresidents residing within the same intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents in that grade, school, or program:
 - (i) The district shall do all of the following not later than the second Friday in August:

The notice shall identify the 15-day period and the place and manner for submitting applications.
 - (B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program.
 - (C) Within 15 days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment.
 - (ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester enrollment under subsection (3), as provided under that subsection, or until the next school year.
 - (c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:
 - (i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited

application period, the notice shall include the dates of the application period. The application period shall be at least a 15-day period.

- (ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment.
- (3) If a district determines during the first semester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond those entitled to preference under this section, for the second semester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester using the following procedures:
 - (a) Not later than 2 weeks before the end of the first semester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.
 - (b) During the last 2 weeks of the first semester, the district shall accept applications from nonresidents residing within the same intermediate district for enrollment for the second semester in the available grades, schools, and programs.
 - (c) By the beginning of the second semester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll in the district for the second semester and notify the parent or legal guardian of each nonresident applicant residing within the same intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment.
- (4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.
- (5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.
- (6) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.
- (7) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.
- (8) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.
- (9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

- (a) The applicant is, or has been within the preceding 2 years, suspended from another school.
 - (b) The applicant, at any time before enrolling under this section, has been expelled from another school.
 - (c) The applicant, at any time before enrolling under this section, has been convicted of a felony.
- (10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.
 - (11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester immediately preceding the school year or semester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.
 - (12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).
 - (13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.
 - (14) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.
 - (15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.
 - (16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.
 - (17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.
 - (18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.
 - (19) A district that, pursuant to this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, shall be considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with

state and federal law, that district is responsible for developing and implementing an individualized education plan annually for a nonresident pupil described in this subsection.

- (20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.
- (21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

 - (C) Within 15 days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll under this section in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment under this section shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment.
- (ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester enrollment under subsection (3), as provided under that subsection, or until the next school year.
- (c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing in a district located in a contiguous intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program under this section:
 - (i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing in a district located in a contiguous intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-day period.
 - (ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment under this section that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment.
- (3) If a district determines during the first semester of a school year that it has positions available for enrollment of a number of nonresidents residing in a district located in a contiguous intermediate district, beyond those entitled to preference under this section, for the second semester of the school year, the district may accept applications from and enroll nonresidents residing in a district located in a contiguous intermediate district for the second semester using the following procedures:
 - (a) Not later than 2 weeks before the end of the first semester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

- (b) During the last 2 weeks of the first semester, the district shall accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment for the second semester in the available grades, schools, and programs.
 - (c) By the beginning of the second semester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll under this section in the district for the second semester and notify the parent or legal guardian of each nonresident applicant residing in a district located in a contiguous intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment.
- (4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.
 - (5) A district offering to enroll nonresident applicants residing in a district located in a contiguous intermediate district may limit the number of those nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant under this section.
 - (6) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant under this section if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.
 - (7) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.
 - (8) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.
 - (9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant under this section if any of the following are met:
 - (a) The applicant is, or has been within the preceding 2 years, suspended from another school.
 - (b) The applicant, at any time before enrolling under this section, has been expelled from another school.
 - (c) The applicant, at any time before enrolling under this section, has been convicted of a felony.
 - (10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.
 - (11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester immediately preceding the school year or semester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

- (12) A district shall give preference for enrollment under this section over all other nonresident applicants residing in a district located in a contiguous intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).
- (13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.
- (14) If the number of qualified nonresident applicants eligible for acceptance under this section in a school, grade, or program does not exceed the positions available for nonresident pupils under this section in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.
- (15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.
- (16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.
- (17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.
- (18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.
- (19) In order for a district or intermediate district to enroll pursuant to this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement shall include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.
- (20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.
- (21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.
- (22) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

- (23) As used in this section, "district located in a contiguous intermediate district" means a district located in an intermediate district that is contiguous to the intermediate district in which a pupil's district of residence is located.

- (a) For districts and consortia that received payments for 2005-2006 under this section, the amount allocated to each for 2006-2007 shall be based on the number of participants served by the district or consortium for 2006-2007, using the amount allocated per full-time equated participant under subsection (6), up to a maximum total allocation under this subsection in an amount equal to 107.1% of the amount the district or consortium received for 2005-2006 under this section before any reallocations made for 2005-2006 under subsection (4).

388.1769 State aid to public school academies.

Sec. 169.

The department shall not make any payments to a public school academy until the public school academy supplies evidence satisfactory to the department demonstrating compliance with this section. If a public school academy is a successor to a nonpublic school and more than 75% of the pupils enrolled in the public school academy during its first school year of operation were previously enrolled in that nonpublic school, there is a rebuttable presumption that the public school academy did not make the good faith effort required under this section.

APPENDIX B

Description of Allocation Sections

This appendix contains brief descriptions of the sections of the State School Aid Act that authorize FY 2005-06 and FY 2006-07 expenditures, including the amount appropriated, purpose, method for calculating payments, and eligible recipients.

Section 11f

Durant v. State of Michigan Non-Plaintiffs' Cash Award

Appropriation: \$32,000,000 in FY 2006-07.

Purpose: This section pays monies to eligible local and intermediate school districts that were not plaintiffs in the *Durant v. State of Michigan* case decided by the Michigan Supreme Court in July 1997. The funds may be used for textbooks, electronic instructional materials, software, technology, training for technology, early intervening programs, infrastructure or infrastructure improvements, school buses, school security, or to pay debt service on previously-issued, voter-approved bonds. For an intermediate district, funds may also be used for projects on behalf of constituent districts, other non-recurring instructional expenditures, or debt service for acquisition of technology for academic support services.

Payment Calculation: The annual payment is equal to 1/20 of the settlement amount. FY 2006-07 is the ninth year of 10 years of payments. Payments are made annually on November 15 or the next business day.

Eligible for Payments: Local and intermediate school districts that were not plaintiffs in the cases consolidated into the *Durant v. State of Michigan* case, submitted a waiver of liability by March 2, 1998, and have a settlement amount stated in Section 11h greater than \$75,000.

Section 11g

Durant v. State of Michigan Non-Plaintiffs' Debt Service Payment

Appropriation: \$34,961,000 in FY 2006-07.

Purpose: This section pays monies to local and intermediate school districts that were not plaintiffs in the *Durant v. State of Michigan* case decided by the Michigan Supreme Court in July 1997.

A district may issue bonds through Michigan Municipal Bond Authority under language in Section 11i for 1/2 of its settlement amount. The appropriation pays the debt service (principal, interest, and cost of issuance) of those bonds. Bond proceeds may be used for any construction, renovation, or other purpose described in Section 1351a of the Revised School Code. Bond proceeds became available on or after November 15, 1998.

A district that does not issue bonds may receive instead an annual cash payment equal to 1/30 of the settlement amount. Cash payments can only be used for the following, listed in order of priority: (1) to pay debt service on previously-issued, voter-approved bonds, (2) to pay debt service on other limited tax obligations, or (3) for deposit into a sinking fund.

FY 2006-07 is the ninth of 15 years of appropriations for this purpose. Payments are made annually on May 15 or the next business day.

Payment Calculation: For a district that issues bonds under Section 11i, the payment is equal to the annual debt service. For districts that do not issue bonds, the payment is equal to 1/30th of the settlement amount.

Eligible for Payments: Local and intermediate school districts that were not plaintiffs in the cases consolidated into the *Durant v. State of Michigan* case, have a settlement amount of more than \$75,000, and submitted a waiver of *Durant*-related liability to the State Treasurer by March 2, 1998.

Section 11j**School Bond Loan Redemption Fund**

Appropriation: \$48,000,000 in FY 2006-07.

Purpose: To make payments on behalf of districts and intermediate districts to the school bond loan redemption fund in the Department of Treasury for debt service payments.

Payment Calculation: A payment is made on behalf of districts and intermediate districts to the Department of Treasury for the amount owed for the State's debt service payments on loans made to districts through the School Bond Loan Fund program.

Eligible for Payments: Local and intermediate districts, with payments to Department of Treasury.

Section 11m**Cash Flow Borrowing Costs**

Appropriation: \$22,800,000 in FY 2006-07.

Purpose: To make payments for cash-flow borrowing costs solely related to the School Aid Fund.

Payment Calculation: A payment will be made to partially cover the cash-flow borrowing interest costs incurred by the General Fund for borrowing on behalf of districts and intermediate districts solely related to the School Aid Fund.

Eligible for Payments: On behalf of local districts, public school academies, and intermediate districts, with payments to Department of Treasury.

Section 20**Foundation Allowance**

Appropriation: See Sections 22a and 22b.

Basic Foundation Allowance: \$6,875 in FY 2005-06; \$7,085 in FY 2006-07.

Purpose: This section is for calculation (not payment) of foundation allowances only.

Payment Calculation - Local School District: A foundation allowance is a per pupil amount determined for each local school district. In general, the FY 1994-95 foundation allowance for local districts was calculated based on the amount of eligible State and local revenue per pupil a district received in FY 1993-94.

For FY 2005-06, the basic (and minimum) per pupil amount increased by \$175 over the FY 2004-05 level to \$6,875 per pupil. In FY 2006-07, a \$210 increase in the basic (and minimum) foundation allowance occurred, bringing it to \$7,085 per pupil. This means all districts receive a \$210 per pupil increase in their calculated foundation allowances.

Exceptions to Foundation Allowance Calculations

Five additional provisions targeting specific districts or purposes have been included in this Section:

1. Beginning in FY 2000-01, for a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed for 1993-94, the foundation allowance was recalculated as if that millage reduction did not occur. Only Wayne-Westland Schools meets this criterion. Section 20(17)
2. Beginning in FY 2002-03, for a district in which a certain industrial facilities exemption certificate was issued, the district's foundation allowance was increased by \$250. Only Gibraltar Schools meets this criterion. Section 20(18)
3. Beginning in FY 2002-03, the 26 districts that received Small Class Size grants under Section 32e had their foundation allowances increased by the amount of their Class Size grant divided by their pupil memberships. Section 20(19)
4. Beginning in FY 2006-07, for a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's 1994-95 foundation allowance will be recalculated (thereby driving an

increase in the FY 2006-07 foundation allowance) as if those mills were included as operating mills in the calculation of the district's foundation allowance. Only Garden City Schools meets this criterion. Section 20(21)

5. Beginning in FY 2006-07, for a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's 1994-95 foundation allowance will be recalculated (thereby driving an increase in the FY 2006-07 foundation allowance) as if those mills were included as operating mills in the calculation of the district's foundation allowance. Only Huron Schools meets this criterion. Section 20(22)

The State and local shares of the total foundation allowance revenue are determined as follows:

State Portion. For non-hold harmless districts in FY 2006-07 with a foundation allowance per pupil of less than \$8,385, the State allocation to a district is the difference between the product of the district's foundation allowance per pupil and the district's pupil membership (excluding special education pupils), less the local revenue on 18 mills or the number of mills levied in 1993, whichever is less.

For hold harmless districts in FY 2006-07, the State portion of the foundation allowance is equal to \$8,385, multiplied by the district's pupils' membership (excluding special education pupils), less the local revenue on 18 mills or the number of mills levied in 1993, whichever is less.

Local Portion. The local share of the foundation allowance is raised from limited local school operating mills levied as provided in Section 1211 of the Revised School Code.

For districts with a foundation allowance per pupil of less than \$8,385 in FY 2006-07, the local portion of the foundation allowance is the school operating property tax revenue from 18 mills (or the number of school operating mills levied in 1993, whichever is less) levied on non-homestead property in the district.

For districts with a foundation allowance of more than \$8,385 per pupil in FY 2006-07, the local share of the foundation allowance has two parts: (1) the local revenue on 18 mills levied on non-homestead property (or the number of mills levied in 1993, whichever is less); and (2) additional millage referred to as "hold harmless" millage that may be levied to raise revenue per pupil equal to the difference between the foundation allowance and \$8,385 in FY 2006-07. This millage is levied first on homestead and qualified agricultural property. Any hold harmless millage levied above 18 mills or the number of school operating mills levied in 1993 is levied uniformly on all taxable property in the district.

Hold harmless districts that have fewer than 350 pupils or that need to levy 0.5 mill or less are eligible for State payments of the amount of hold harmless revenue necessary to achieve the foundation allowance.

Payment
Calculation -
Public School
Academies:

The foundation allowance for a pupil in a public school academy is equal to the lesser of the foundation allowance of the local school district in which the public school academy is located or \$7,385 in FY 2006-07.

The State allocation to a public school academy or university school from the foundation allowance appropriation is equal to the foundation allowance per pupil multiplied by the number of pupils in membership. The State payments are made to the authorizing body for a public school academy or the board of a public university operating a university school. Payments are calculated in Section 20, but allocated in Sections 22a and 22b.

If more than 25% of a school district's resident pupils are enrolled in one or more public school academies, the local district must pay the public school academy an amount per pupil equal to the local school operating revenue of the school district, calculated as if the district's resident pupils of the public school academy were in membership in the district.

Eligible for
Payments:

Local school districts, public school academies, and university schools.

Section 20j**Additional Calculations for Hold-Harmless Districts**

Appropriation: See Section 22b.

Purpose: This section is for calculation (not payment) of foundation allowances only.

Payment Calculation: Section 1211(3) of the Revised School Code prohibits "hold-harmless" districts from collecting more than an inflationary increase in their per-pupil State and local revenue from one year to the next year. (A "hold-harmless" district is one whose foundation allowance exceeds the State Maximum Foundation Allowance, which in FY 2006-07 is \$8,385.) Section 20j came into existence when the dollar increase given in the basic foundation allowance exceeded the cap in Section 1211(3) of the Code. This section ensures that each "hold-harmless" district receives the full dollar increase given for the basic foundation allowance, even when that dollar increase exceeds the dollar increase that would result from applying inflation to a hold-harmless district's individual foundation allowance.

Eligible for Payments: Local school districts whose FY 1994-95 foundation allowances were at or above \$6,500 per-pupil (i.e., "hold-harmless" districts).

Section 22a**Proposal A Obligation Payment**

Appropriation: \$6,407,000,000 in FY 2005-06; \$6,207,000,000 in FY 2006-07.

Purpose: To satisfy the State's Proposal A Constitutional per pupil funding obligation. This Section allocates payments to guarantee an FY 1994-95 foundation allowance for every pupil.

Payment Calculation: Local District. The Section 22a payment to a local district is calculated by subtracting the district's current-year local operating revenue from the lesser of the district's FY 1994-95 foundation allowance or \$6,500. The resulting per pupil State portion is multiplied by the district's current-year total pupil membership.

Public School Academy. A public school academy (PSA) in operation in FY 1994-95 and continuing in the current year will receive a payment equal to the current-year membership multiplied by the academy's FY 1994-95 foundation allowance.

See Section 22b discussion for a PSA that opened after FY 1994-95.

Eligible for Payments: Local districts and public school academies in operation in FY 1994-95 and continuing operations in the current fiscal year.

Section 22b**Discretionary Payment**

Appropriation: \$3,217,000,000 in FY 2005-06; \$3,584,950,000 in FY 2006-07.

Purpose: To make discretionary non-mandated payments to districts. In order to receive the funds, districts must do all of the following: administer department-approved standardized tests of basic educational skills in grades 1-5 or any other grades required under the Revised School Code; comply with Sections 1230g (criminal history or records checks for employees), 1278a (requirements for high school diploma), and 1278b (awarding of high school diploma, credit requirements, and annual report) of the Revised School Code; and, furnish data and other information required by State and Federal law to the Center for Educational Performance and Information.

Payment Calculation: Payments are equal to the sum of calculations under Sections 20, 20j, 51a(2), 51a(3), and 51a(12) minus the payments made under Sections 22a and 51c.

Section 20 calculates foundation allowances. Section 20j provides additional payment calculations for hold harmless districts when foundation allowance increases exceed inflation. Section 51a(2) calculates special education foundation allowances. Section 51a(3) calculates special education hold harmless figures. Section 51a(12) calculates special education foundation allowances for certain special education pupils, such as court-placed pupils. The calculations in these five sections are totaled in the first step for determining discretionary payments.

The second step allocates the Constitutional obligation payments under Section 22a (guaranteeing FY 1994-95 per-pupil funding) and Section 51c (meeting the Headlee-required percentages of the approved costs of special education and special education transportation).

Discretionary payments, then, are equal to the difference between the total calculated in the first step, minus the two payments made in the second step.

If proration of the School Aid Act is required under Section 11(3), public school academies that opened after 1994-95 and are in operation would first receive (before proration of this section) an amount equal to the 1994-95 foundation allowance of the district in which the PSA is located, multiplied by the PSA's pupil membership. The balance of the payment under this section would then be subject to any required proration. This provides a "guaranteed" allowance for PSAs that began operation after 1994-95, similar to the guarantee in Section 22a for districts and PSAs in operation in 1994-95.

Eligible for Payments:

Local districts and public school academies.

Section 22c

Equity Payment

Appropriation: \$20,000,000 in FY 2006-07.

Purpose: To provide supplemental payments to districts whose calculated foundation allowances under Section 20 are below \$7,360 per pupil in FY 2006-07.

Payment Calculation: The Section 22c payment is calculated by multiplying an eligible district's total membership pupils by the lesser of \$23 or the difference between \$7,360 and the district's FY 2006-07 foundation allowance. Intent language is included stating that this payment, in FY 2007-08, will be built into eligible districts' FY 2006-07 base foundation allowances, thereby reducing the gap between the basic and state maximum foundation allowances from \$1,300 to \$1,277.

Eligible for Payments:

Local districts and public school academies whose FY 2006-07 calculated foundation allowances are below \$7,360 per pupil.

Section 22d

Isolated Districts Grants

Appropriation: \$750,000 in FY 2006-07 (allocated out of Section 22b).

Purpose: To provide supplemental payments to small, geographically isolated districts.

Payment Calculation: The amount of supplemental funding under this section is determined under a spending plan developed by the district and the intermediate school district in which it is located and approved by the Superintendent of Public Instruction.

Eligible for Payments:

Only five districts meet the criteria laid out in the School Aid Act: Burt Township, Beaver Island, Detour Area, Whitefish, and Mackinac Island.

Section 24

Court-Placed Children

APPENDIX C

Sample Calculations: Foundation Allowances, Special Education Funding, and The Three-Tier Payment System

Basic Foundation Allowance History

Set by the Legislature at \$5,000 per pupil in FY 1994-95, the first full fiscal year in which Proposal A was in effect, the basic foundation allowance was a target per pupil funding level which lawmakers hoped all districts below that funding level would one day reach. The Legislature sets the basic foundation allowance each year and, until FY 1999-2000, districts with foundation allowances below the basic foundation allowance received larger foundation allowance increases than districts with allowances at or above the basic. This was the mechanism by which lawmakers hoped to lessen inequities in per pupil funding among districts over time.

The table below provides information on the foundation allowances since Proposal A took effect in FY 1994-95. It shows the minimum foundation allowance that any district receives, the basic foundation allowance, the public school academy (PSA) maximum foundation allowance, and the maximum foundation allowance upon which state foundation allowance payments may be based. In the last column, the dollar increase is the amount by which the basic foundation allowance has increased each year since FY 1994-95, with the exception of the increase for FY 2002-03. (See note at bottom of table below.)

The Foundation Allowance: FY 1994-95 to FY 2006-07

2006-07	\$7,085	\$7,085	\$7,385	\$8,385	\$210

**In FY 2001-02, districts with a foundation below \$6,500 also received an equity payment of up to \$200 per pupil. The FY 2002-03 dollar increase of \$200 was calculated from the FY 2001-02 basic foundation allowance, plus \$200 to reflect the equity payment.*

Equity Payments

In FY 2001-02, the state made a one-time "equity" payment of up to \$200 per pupil to any district with a foundation allowance below \$6,500 in FY 2001-02. This equity payment, which became part of eligible districts' foundation allowances beginning in FY 2002-03, closed the state funding gap between the basic and the state maximum foundation from \$1,500 to \$1,300 per pupil.

For FY 2006-07, the state again will make a one-time "equity" payment of up to \$23 per pupil to any district with a foundation allowance below \$7,360 in FY 2006-07. Language in the School Aid Act includes an intent that, like

the equity payment in FY 2001-02, this payment will become part of eligible districts' foundation allowances beginning in FY 2007-08. There are 399 school districts eligible for this payment in FY 2006-07.

Annual Increases

In FY 1999-2000, all districts reached the basic foundation allowance for the first time. *All school districts now receive the same dollar increase in their foundation allowance as the annual increase in the basic foundation allowance.* For example, when the basic foundation allowance increased by \$300 per pupil from \$5,700 in FY 1999-2000 to \$6,000 in FY 2000-01, all districts received an increase of \$300 per pupil in their FY 2000-01 foundation allowance over FY 1999-2000 levels. For FY 2006-07, all districts will receive a \$210 increase.

Public School Academies

Since Proposal A went into effect and until FY 2002-03, the foundation allowance for a public school academy was the lesser of \$500 above the basic foundation allowance or the foundation allowance of the local district in which the public school academy is located. However, due to implementation of the \$200 equity payment in FY 2001-02, beginning in FY 2002-03, public school academies receive a maximum of \$300 above the basic foundation allowance level—rather than \$500. In FY 2006-07, public school academies will receive a maximum of \$7,385, which is \$300 above the \$7,085 basic foundation allowance.

Foundation Allowance Adjustments

Since FY 1994-95, for a variety of reasons, the foundation allowances of 30 districts have received permanent increases in addition to standard increases in the basic foundation allowance. Thus, the foundation allowance base upon which annual increases are added has been increased for these districts. (See table below.) Of the 30 increases, 26 were made when small class-size grants were rolled into eligible districts' foundation allowances in Section 20(19). The others were made for miscellaneous reasons shown in the table below. After these initial one-time adjustments, the districts will still receive the same dollar increase as the increase in the basic foundation allowance, but the increases are added to the new, higher foundation allowance amounts.

Foundation Allowance Calculations

Calculation of Foundation Allowance Revenue (Section 20)

The total amount of state aid a district will receive for foundation allowances is calculated in Section 20. It is derived from multiplying the number of general education membership pupils a district educates by the district's foundation allowance, then subtracting the local revenue from levying 18.0 mills. (See note below regarding pupil membership.) Note that the state pays only a portion of a district's foundation allowance revenue—it pays the amount remaining after subtracting from the foundation allowance amount the local revenue the district collects from its "nonhomestead" property tax. This tax is equal to 18 mills or the number of mills a district levied in 1993, whichever is less, multiplied by the nonhomestead taxable value (taxable value from businesses and second homes) in the district.

Foundation Allowance Calculation (Sec. 20): FY 2006-07

$$\text{STATE PORTION} = \left\{ \begin{array}{l} \text{General Education} \\ \text{Membership Pupils} \end{array} \times \begin{array}{l} \text{The lesser of } \$8,385 \text{ or the} \\ \text{District's Foundation Allowance} \end{array} \right\} - \text{Local Revenue from levying 18.0 mills*} \\ \text{on nonhomestead property}$$

*Or the number of school operating mills levied in 1993, whichever is less.

Example of FY 2006-07 Sec. 20 Calculation

FY 2006-07 Foundation = \$7,200

General Education Membership = 1,000

Local Revenue from Nonhomestead Property Tax = \$2,000,000

State and Local Foundation Allowance Revenue = \$7,200 × 1,000 = \$7,200,000

State Portion of Foundation Allowance Revenue = \$7,200,000 – \$2,000,000 = \$5,200,000

State Portion Per Pupil = \$5,200,000 ÷ 1,000 = \$5,200

There is a maximum amount, called the state maximum foundation allowance, which may be used when calculating the state portion of the foundation allowance. This is the highest foundation allowance that may be used when multiplying the number of general education membership pupils by a district's foundation allowance to calculate total revenue (as described above). The state maximum foundation revenue was set at \$1,500 above the basic foundation allowance each year until FY 2002-03. Beginning in FY 2002-03, the first year following the equity payment, the state maximum foundation is \$1,300 above the foundation allowance, which

for FY 2006-07 will be \$8,385 per pupil. (Districts with a foundation allowance above the state maximum—so-called “hold harmless” districts—must levy additional local millages to make up the difference between this \$8,385 maximum and their foundation allowances.)

A Note on Pupil Membership

Pupil membership is calculated by adding a percentage of the number of full-time equivalent (FTE) pupils counted in September of the current school year to a percentage of those counted during the prior February. In FY 2006-07, pupil membership is the sum of 25% of the February 2006 count plus 75% of the September 2006 count. The 75/25 pupil membership blend has been used since FY 2004-05, when it replaced an 80/20 blend.

There is two notable exception to this membership blend—a provision intended to assist certain districts with declining enrollment that allows districts with a 75/25 blend membership of 1,550 or less and fewer than 4.5 pupils per square mile to use a three-year average membership blend.

For qualified districts, the previous two years’ 75/25 blends plus the current 75/25 blend are averaged and the foundation allowance revenue calculation is based on this three-year average membership. The three-year average calculation will be higher than the current 75/25 blend in declining districts, thus giving qualified districts more revenue. In FY 2006-07, this “declining enrollment” provision is expected to affect around 60 districts and result in an additional nearly 1,000 memberships statewide.

Calculation of Section 20j

Section 1211(3) of the Revised School Code prohibits “hold-harmless” districts from collecting more than an inflationary increase in their per-pupil State and local revenue from one year to the next year. (A “hold-harmless” district is one whose foundation allowance exceeds the State Maximum Foundation Allowance, which, in Fiscal Year (FY) 2006-07 is \$8,385.) Section 20j came into existence when the dollar increase given in the basic foundation allowance exceeded the cap in Section 1211(3) of the Code. This section ensures that each “hold-harmless” district receives the full dollar increase given for the basic foundation allowance, even when that dollar increase exceeds the dollar increase that would result from applying inflation to a hold-harmless district’s individual foundation allowance. A total of 51 districts are eligible to receive a payment under Section 20j.

The Section 20j amount is calculated by subtracting an amount equal to the current-year Consumer’s Price Index multiplied by the previous year’s foundation allowance from the dollar increase in the foundation allowance and multiplying this sum by the general education pupil membership. Amounts calculated under Section 20j are added to those calculated under Section 20 in order to calculate total foundation allowance funding.

Foundation Allowance Calculation Part II (Sec. 20j): FY 2006-07

$$\text{STATE AMOUNT} = \text{General Education Memberships} \times \left\{ \begin{array}{l} \text{Dollar Amount of Foundation Allowance} \\ \text{Increase from Previous Fiscal Year} \end{array} - \begin{array}{l} \text{U.S. CPI Multiplied by Previous} \\ \text{Year’s Foundation Allowance} \end{array} \right\}$$

NOTE: This calculation is made only for districts with a foundation allowance greater than the state maximum, which for FY 2006-07 is \$8,385.

Example of FY 2006-07 Sec. 20j Calculation

Increase in Basic Foundation Allowance, FY 2005-06 to FY 2006-07 = \$210	
FY 2005-06 Foundation Allowance for District A = \$10,000	General Education FTE Membership = 1,000
FY 2006-07 Foundation Allowance for District A = \$10,210	FY 2006-07 U.S. Consumer Price Index: 1.8 percent
Inflationary Increase in Foundation Allowance	= 0.018 × 10,000 = \$180
Difference Between Allocated and Inflationary	= \$210 - \$180 = \$30
District A’s Sec. 20j Payment	= \$30 × 1,000 = \$30,000

Note: The actual U.S. Consumer Price Index is estimated to be 3.4% and therefore no additional Sec. 20j payments are anticipated for FY 2006-07. The example above is purely hypothetical.

The Special Education Calculation

As in previous years, special education funding is calculated by adding together the amounts calculated in Sections 51a(2), 51a(3), and 51a(12):

Sec. 51a(2).

This subsection calculates the special education foundation allowance amount, which accounts for the majority of special education funding. Two separate calculations are made and compared in order to calculate the final Sec. 51a(2) amount.

- **Foundation Allowance Calculation**

Special education pupil membership is multiplied by the district's current-year foundation allowance (capped at \$1,300 above the basic, or \$8,385, for FY 2006-07).

- **Durant Percentages**

28.6138% of the district's special education costs are added to 70.4165% of the district's special education transportation costs. These percentages are commonly referred to as the "Durant Percentages".

- **The Comparison and the "Categorical" Amount**

The amount calculated with the Durant percentages is compared to the amount calculated with the foundation allowance, and the larger of the two is the final Section 51a(2) amount. *If the amount calculated with the Durant Percentages exceeds the amount calculated for the foundation allowance, the difference is made up with an amount called the "Categorical" Amount.*

Sec. 51a(3).

This section calculates the "hold harmless" special education payment amount. The payment was created as part of the state's response to the *Durant* case to ensure that districts did not see a decline in their special education funding from their FY 1996-97 amount. It is calculated by comparing the amount of special education categorical funding that a district received in FY 1996-97 to the amount calculated by subtracting a district's special education foundation allowance amount described above (its foundation allowance multiplied by special education membership) from the amount calculated for it with the Durant percentages.

If the FY 1996-97 funding was higher than the Categorical Amount, the state will make up the difference through the hold harmless payment. If it is the same or less than the amount calculated with the Durant percentages, the district receives no hold harmless payment amount. If a district does receive a hold harmless payment, the Department of Education may adjust it to reflect program reductions or shifts made since FY 1996-97. (The Department determines the methodology to do this.)

Sec. 51a(12).

This section pays the foundation allowance for certain special education students in very specific, unusual situations, including students placed in community settings, residents of institutions operated by the Department of Community Health, and others. Many of the students eligible for funding under this section are described in Section 53a of the School Aid Act, and are commonly referred to as "Section 53a students". These students are not counted towards special education pupil membership as used in Section 51a(2).

The Special Education Calculation (Secs. 51a (2), 51a(3), and 51a(12))

<u>Sec. 51a(2)</u>	<u>Sec. 51a(3)</u>	<u>Sec. 51a(12)</u>
Greater of		
$\left\{ \begin{array}{l} \text{Special} \\ \text{Education} \\ \text{Membership} \end{array} \right\} \times \text{Foundation Allowance} \quad \text{OR} \quad \text{Amount Calculated from} \\ \text{Durant Percentages}$	$+ \text{Difference Between} \\ \text{Categorical Amount and} \\ \text{FY 1996-97 Funding*}$	$+ \text{Membership Pupils Eligible} \\ \text{for Sec. 51a(12) Funding} \\ \times \text{Foundation Allowance}$

**This calculation is completed only if FY 1996-97 Sec. 52 and 58 funding is greater than the Categorical Amount.*

Example of FY 2006-07 Special Education Calculation

FY 2006-07 Foundation Allowance = \$7,100

Special Education Membership Eligible for 51a(2) Funding = 200.0

Special Education Costs = \$3,200,000

Special Education Membership Eligible for 51a(12) Funding = 5.0

Special Education Transportation Costs = \$160,000

FY 1996-97 Special Education Funding = \$500,000

Sec. 51a(2) Calculation

Foundation Allowance Calculation: $200.0 \times \$7,100 = \$1,420,000$

Durant Percentages = $(.286138 \times \$3,200,000) + (.704165 \times \$160,000) = \$1,028,308$

Sec. 51a(2) Payment Amount = \$1,420,000, since $\$1,420,000 > \$1,028,308$

Sec. 51a(2)(b) Categorical Amount = 0, since $\$1,420,000 > \$1,028,308$

Sec. 51a(3) Calculation = $\$500,000 - \$0 = \$500,000$

Sec. 51a(12) Calculation = $5.0 \times \$7,100 = \$35,500$

TOTAL SPECIAL EDUCATION AMOUNT = $\$1,420,000 + \$500,000 + \$35,500 = \$1,955,500$

A Note on Special Education Membership

A student who is eligible for special education services may be counted in both general and special education memberships. A pupil who is served 100% in a special education classroom generates 1.0 special education FTE. A pupil who is 40% in a resource room generates a 0.4 special education FTE membership and a 0.6 general education FTE. A pupil who receives only special education pull-out services such as speech therapy, physical therapy, or occupational therapy generates no special education FTEs.

The Three-Tier Payments Sections

Since FY 2000-01, payments of the amounts calculated in Sections 20, 20j, 51a(2), 51a(3), and 51a(12) have been made out of the three new payment sections, as described below.

Section 22a. The Proposal A Guarantee

As part of Proposal A, Article IX of Michigan Constitution was amended to guarantee that districts will receive at least the same state-local revenue each year as they received in FY 1994-95. This section pays the state portion of that guarantee. To calculate payments under this section, a district's FY 1994-95 foundation allowance (capped at the FY 1994-95 state maximum of \$6,500 per pupil) is multiplied by the district's total general and special education membership (51a(2) plus 51a(12)) in the current fiscal year. The revenue from the nonhomestead property tax in the current year is then subtracted from this product. The difference is the Section 22a payment.

Proposal A Guarantee (Sec. 22a)

$$\text{TOTAL PAYMENT} = \left\{ \begin{array}{l} \text{FY 1994-95} \\ \text{Foundation} \\ \text{Allowance} \end{array} \right\} \times \left\{ \begin{array}{l} \text{Current Year General Education} \\ \text{and Special Education} \\ \text{Memberships (51a(2)+51a(12))} \end{array} \right\} - \left\{ \begin{array}{l} \text{Revenue from levying} \\ \text{18.0 mills* on} \\ \text{nonhomestead property} \end{array} \right\}$$

**Or the number of school operating mills levied in 1993, whichever is less.*

Sec. 51c. The Headlee Obligation Payment

This section pays the percentages of special education costs and special education transportation costs required under the "Headlee Amendment" to the Michigan Constitution as determined in the 1997 ruling in the *Durant v. State of Michigan* case. That ruling requires the state to pay school districts 28.6138 % of the approved costs

they incur providing special education services and 70.4165% of the approved costs of providing special education transportation services. The Section 51c payment is calculated as shown below.

Headlee Obligation Payment (Sec. 51c)

$$\text{TOTAL PAYMENT} = \left\{ \text{Total Approved Cost of Special Education} \times 0.286138 \right\} + \left\{ \text{Total Approved Cost of Special Education Transportation} \times 0.704165 \right\}$$

Sec. 22b. The Discretionary Payment

The discretionary payment is the mechanism by which the state will assure that districts receive the same amount of funding as they would have had the three-tier payment system not gone into effect. To calculate payments under this section, the amounts calculated for foundation allowances and special education under Sections 20, 20j, 51a(2), 51a(3), and 51a(12) are added together. Payments made under Section 22a and 51c are then subtracted from this total, and the remainder is paid out as a “Discretionary Payment.” The amounts allocated under the payment sections (Sections 22a, 51c, and 22b) should equal the amount calculated under the old methodology for foundation allowance and special education funding (Sections 20, 20j, 51a(2), 51a(3), and 51a(12)).

Discretionary Payment (Sec. 22b)

$$\text{DISCRETIONARY PAYMENT} = \text{Sum of the Amounts Calculated Under Sections 20, 20j, 51a(2), 51a(3), and 51a(12)} - \left\{ \text{Payment Made Under Section 22a} + \text{Payment Made Under Section 51c} \right\}$$

The state is required to allow students who attend “persistently dangerous schools” to transfer to a safe school.</p> <p>State grants to locals are based 60% on Title I basic grants, and 40% on enrollment.</p>
Educational Technology Grants	\$6,140,900	<p>Provides formula grants to support the integration of educational technology into classrooms to improve teaching and learning, and to assist all students in becoming technologically literate by the end of the eighth grade.</p> <p>The state must allocate 50% of the grants to local education agencies (LEAs) based on Title I formula and the other 50% through a competitive grant process.</p>
Improving Teacher Quality	\$106,249,200	<p>Combines the Eisenhower Professional Development and Class Size Reduction programs into one program that focuses on preparing, training, and recruiting high-quality teachers. Allows local districts increased flexibility to allocate funds among professional development, class-size reduction, and other teacher activities.</p> <p>The state can use funds for reforming certification requirements, teacher/principal recruitment and retention initiatives, reforming tenure systems, testing, and merit pay. Local districts will receive the amount they received in 2001 for Eisenhower/Class-Size. Any remaining funds will be distributed based on child population and child poverty. Subgrants to Eligible Partnerships will be awarded competitively (higher education).</p>
