Overview

The Department of Community Health budget provides funding for a wide range of behavioral health (mental health and substance abuse), public health, and medical services programs, including Medicaid. Established in 1996, the Department also includes the Office of Services to the Aging, the Crime Victim Services Commission, and health policy.

Major Budget Changes From FY 2012-13 YTD Appropriations

1. Medicaid Expansion

The House and the Senate do not concur with the Executive to expand Medicaid. Medicaid expansion savings within the Department of Community Health budget are projected to be \$181.7 million GF/GP and additional federal Medicaid revenue of \$1.5 billion, both covering three quarters of the fiscal year. Across the Department of Community Health and the Department of Corrections, the GF/GP savings are estimated to be \$205.9 million mainly from shifting current state costs to federal revenue, with one half of these savings to be deposited in a Budget Stabilization Fund sub-fund entitled the Michigan Health Savings Fund to pay future state costs when the state share of expansion costs increases from 0% to 5% in 2017 and then 10% in 2020. The expansion of the income criteria for Medicaid eligibility up to 133% of the federal poverty level (FPL) is estimated to qualify an additional 320,000 Michigan residents in FY 2013-14. The assumed expansion start date is January 1, 2014.
