The Department of Agriculture and Rural Development (DARD) is responsible for regulating and promoting Michigan's agriculture and food industries in collaboration with the Michigan Commission of Agriculture and Rural Development, industry stakeholders, and citizens. DARD is organized into the following programmatic divisions: Animal Industry, which mitigates and eradicates infectious and contagious diseases, toxic substance contamination, and inhumane treatment affecting livestock and pets; Environmental Stewardship, which promotes resource sustainability and protects the natural environment in collaboration with conservation districts, drain commissioners, and landowners; Food and Dairy, which ensures the safety and sanitation of food and dairy products through inspection and licensure of suppliers and investigations of foodborne illness incidents; Pesticide and Plant Pest Management, which manages plant pest and disease prevention and regulates seed, plant, grain, and feed products and storage and the manufacture and use of pesticides and fertilizers; and Laboratory, which tests and analyzes groundwater, plant seeds, livestock, food and dairy products, and motor fuels and verifies nutritional labeling and weighting and measuring devices. Additionally, the Office of Agriculture Development promotes international marketing; endeavors to attract, expand, and retain jobs and investment; and administers various grant programs.

The increase is reflected in the FY 2013-14 YTD amount shown, as appropriated in supplemental Act 102 of 2013. This restores the ongoing budget for MCIR to the FY 2012-13 funding level. 21. Dual Eligibles Savings Restoration	Gross	N/A	\$0
The <u>Executive</u> recommendation restores savings for dual eligible integrated care in light of revised savings estimates. 22. Eliminate Special Rural Hospital Payment	Gross	\$35,629,500	\$0
The <u>Executive</u> recommendation includes a reduction of \$35.6 million Gross (\$12.0 million GF/GP) for full elimination of rural hospital payments. The <u>House</u> proposal replaces GF/GP with hospital QAAP revenue to allow the payments to continue in the same gross amount. The GF/GP reduction is less than the state restricted revenue increase to account for a change in the regular FMAP rate. The increased QAAP assessment applies to most hospitals, including those receiving rural hospital payments, so net payments to those facilities will be lower than the full gross amount. Additionally, the House proposal includes a shift of \$3.1 million from GF/GP to state restricted revenue for the state retainer share of the assessment (not included in the figures to the right). The <u>Executive</u> recommendation continues the phase-in of the Healthy Kids Dental program with increased funding of \$15.6 million Gross (\$5.4 million GF/GP). The recommendation expands the program into Kalamazoo and Macomb counties, which will cover an estimated 100,000 children. The <u>House</u> concurs. 24. Primary Care Rate Increase – Partial Continuation	Gross	\$156,333,300	(\$94,220,100)
The <u>Executive</u> recommendation partially continues a rate increase for primary care providers that was initially introduced in 2013. The rate increase was included temporarily with 100% federal funds from the Affordable Care Act. Full federal payment of the increased rate continues through calendar year 2014, after which states have the option to continue the higher rate at the regular FMAP. The Executive recommendation continues the increased rate with \$75.4 million Gross (\$26.0 million GF/GP) on an ongoing basis. The <u>Executive</u> recommendation includes a net zero transfer of \$7.7 million from the Long Term Care Services line to the Program for All-Inclusive Care for the Elderly (PACE) line. The <u>House</u> concurs with the Executive recommendation. The transfer will fund program expansion into Genesee, Ingham, and Saginaw counties. In Medical Services Administration, the <u>Executive</u> also recommends the addition of 1.0 FTE and associated funding to assist in administering the expanded program. The <u>House</u> proposal concurs with the increase.	Federal	N/A	0

The increase partially offsets a reduction of \$8.5 million Gross (\$0 GF/GP) in disproportionate share hospital (DSH) payments that are no longer available. The <u>Executive</u> also recommends increasing GF/GP by \$4.1 million, one-time, for the University of Detroit Dental program. The increase partially offsets a reduction of \$6.9 million Gross (\$0 GF/GP) in DSH payments that are no longer available. The <u>House</u> concurs with both.	Federal	10,152,900	(10,152,900)

The <u>Executive</u> recommendation includes a \$17.5 million fund shift to GF/GP to replace a like amount of Merit Award Trust Fund revenue. The recommendation proposes reserving the Merit Award Trust Fund revenue for distressed communities purposes. To avoid a shortfall, this transfer replaces Merit Award funds with GF/GP. The <u>House</u> proposal continues one-time funding for GME at \$2,901,900 Gross (\$1,000,000 GF/GP), contingent on meeting the conditions in boilerplate section 1903. No adjustments are proposed to ongoing GME funds in the Medical Services unit. (Related boilerplate sections 1740, 1846, and 1870 are proposed for removal).	Federal	2,864,200	(962,300)

The <u>Executive</u> recommends a gross reduction of \$19.4 million and a shift of \$12.9 million from federal to GF/GP to recognize reduced savings from school based service program claims. The <u>House</u> concurs. The totals reflect a \$32.3 million reduction in federal revenues resulting from fewer claims reported by schools. The value of those claims are used to draw down federal resources at the regular FMAP rate. The State retains a portion of federal revenues received, which it then cycles back into the Medicaid program, thereby creating a GF/GP savings. The reduction in claims from schools creates the need to replace federal revenues with GF/GP.	Federal	2,864,200	(32,333,300)

The revised House language states that DCH shall not use state restricted or GF/GP funds appropriated in the family planning local agreements or pregnancy prevention program line items for abortion counseling, referrals, or services.

Sec. 1135. School Health Education Curriculum – DELETED

Establishes that if funds become available, provision of a school health education curriculum shall be in accordance with goals of the Michigan Model for Comprehensive School Health Education State Steering Committee; establishes steering committee membership; and requires curriculum materials be made available upon request. Adds a subsection requiring a new nonemergency pilot in at least two counties, with priority given to Berrien and Muskegon counties.

Sec. 1866. Rural Hospital Payments – REVISED

This section earmarks an amount of the Part 1 appropriation for special rural hospital payments, and establishes parameters for eligibility, disbursement, and reporting. Overview

The Michigan Department of Corrections (MDOC) is responsible for the operation and maintenance of the state's 31 correctional facilities that house felony offenders sentenced to prison. This includes the provision of physical and mental health care, education, food service, transportation, and reintegration programs. The department is also responsible for the supervision of all parolees and probationers under department jurisdiction and has oversight over community corrections programs and other programs designed to encourage alternatives to prison placement for appropriate offenders. As of January 31, 2014, the department was responsible for 109,199 Michigan offenders: 43,507 prisoners, 47,725 probationers, and 17,967 parolees.

Major Budget Changes From FY 2013-14 YTD Appropriations

1. Healthy Michigan Plan Savings

Executive reflects a net positive adjustment related to implementation of the Healthy Michigan Plan under the Affordable Care Act. A three-quarter year savings of \$24.2 million GF/GP was built into the FY 2013-14 budget through Public Act 107 of 2013. It has since been determined that certain costs relative to treatment of sex offender and substance abuse disorders will not be eligible for Medicaid reimbursement, which requires a portion of the savings originally taken to be restored. Full-year savings in FY 2014-15 are estimated to be \$19.1 million GF/GP. House concurs.

Major Boilerplate Changes From FY 2013-14

Executive Boilerplate Deletions

In general, the Executive Budget deletes many sections of boilerplate including legislative reporting requirements, providing guidance, and placing conditions on appropriations, and earmarks of funding for specific purposes. The list below includes major changes to boilerplate, but is not a comprehensive list of all sections or language deleted. House retains sections.

Sec. 946. Convention Facility Development Fund Distribution – NEW

Specifies that revenue collected in the Convention Facility Development Fund is appropriated and distributed according to the Convention Facility Development Act. Executive includes as new section. House concurs.

Sec. 947. Financial Independence Teams – NEW

Stipulates that the financial independence teams shall cooperate with the office of fiscal responsibility to coordinate and streamline efforts in identifying and addressing fiscal emergencies in school districts and intermediate school districts. House includes as new section.

Major Boilerplate Changes From FY 2013-14

Sec. 951. Competitive Grant Assistance Program – REVISED

Includes direction for distribution of \$15.0 million appropriated for assistance grants to cities, villages, townships, and counties that elect to merge government services via a Competitive Grant Assistance Program; \$10.0 million of total available funding considered one-time appropriation. Includes authorities, school districts, ISDs, public community colleges, and public universities; includes work project language; and continues to make available unclaimed EVIP funds. Executive revises language to state that consideration may be given for projects that result in more efficient government services through increased cooperation and/or collaboration; amount appropriated revised to \$5.0 million. House concurs.

Sec. 952. Economic Vitality Incentive Program and County Incentive Program – REVISED

Specifies three category requirements for cities, villages, townships, and counties to meet to receive funding under the Economic Vitality Incentive Program and County Incentive Program. Creates bifurcated system whereby CVTs and counties that did not previously participate in the program would retain the FY 2012-13 requirements, while those CVTs that participated in FY 2012-13 would be required to meet new benchmarks. Distribution method allows for partial payments and ties each bi-monthly payment to a specific category. Executive revises to create Ongoing and Supplemental (One-Time) EVIP Programs; Ongoing EVIP keeps three category requirements but offers alternative method of qualifying for eligible payment by meeting 4 standards outlined in boilerplate. New Supplemental EVIP provides for adjusted population per capita distribution of \$28.5 million appropriated as one-time. Population would be adjusted upward by 10% for each of the four criteria a CVT qualified under. House does not concur with Executive changes. House revises language to include all CVTs and provide that they receive a 1% increase if the CVT was eligible for a payment in FY 2013-14 or \$7.14609 per capita, whichever is greater, subject to a \$5,000 floor. House revises category 2 to require 5.0% of eligible payment be committed to road construction or preservation. House revises category 3 to require 5.0% of eligible payment be committed to unfunded liabilities. House also revises category language to state that a CVT receiving less than \$50,000 does not have to comply with the categories to qualify for its eligible payment.

BUREAU OF STATE LOTTERY

Sec. 963. Department of Human Services Bridge Cards – RETAINED

Requires Lottery to notify lottery retailers that DHS bridge cards are not to be used to purchase lottery tickets. Executive deletes. House retains.

STATE BUILDING AUTHORITY

Executive transfers the following State Building Authority (SBA) boilerplate sections from DTMB to the Department of Treasury:

- Sec. 841. Excess Facility Revenue (Sec. 1102)

Overview

The Michigan Strategic Fund (MSF) contains programs that work with existing Michigan businesses and communities to retain and expand jobs through coordination of business assistance services through interdisciplinary account management teams and other economic development services. The MSF has administrative responsibilities over Workforce Investment Act activities, Community Development Block Grants, GEAR-UP grants, Carl D. Overview

Article VI of the State Constitution of 1963 forms the basis for Michigan's judicial branch of government. The Judiciary budget provides operational funding for the Michigan Supreme Court, the Court of Appeals, and related judicial agencies. The budget funds the salaries of justices of the Supreme Court and judges of the appeals, circuit, probate, and district courts according to constitutional and statutory requirements. Funding assistance for local trial court operations is provided through a variety of grant programs. The largest of these, the Court Equity Fund Reimbursement program, reimburses counties for trial court operations based on a statutory formula that recognizes circuit and probate caseloads and the numbers of judgeships.

Overview

The Department of Licensing and Regulatory Affairs (LARA) is primarily responsible for business regulatory and employment services programs and is organized according to its four principal functions: 1) Licensing and Regulation, which implements and enforces statutory laws and administrative rules pertaining to commercial and occupational, construction and fire safety, healthcare provider and facility, public utility, and liquor regulation; 2) Employment Security and Workplace Safety, which administers unemployment insurance, workers' compensation insurance, occupational safety and health standards, labor and wage laws, and vocational rehabilitation services for the blind; 3) the Michigan Administrative Hearing System (MAHS), a quasi-judicial agency which centralizes and conducts administrative hearings for agencies throughout state government; and 4) the Office of Regulatory Reinvention (ORR), which oversees administrative rule-making and evaluates the state's regulatory infrastructure. The agencies within LARA are primarily supported by various federal grants and revenue generated through numerous fees collected from regulated entities.

Major Budget Changes From FY 2013-14 YTD Appropriations

1. Unemployment Insurance Agency - Customer Service (One-Time)
Executive includes one-time spending authorization to maintain customer services at the Unemployment Insurance Agency (UIA), supported with revenue from the Penalty and Interest Account of the Contingent Fund in which penalties, damages, and interest collected from employers and claimants are deposited. The UIA anticipates that process improvement efforts will enable it to operate within existing federal grant funding by the end of FY 2014-15. In August of 2012, due to the decline in the state's Insured Unemployment Rate during 2012, the federal government reduced the amount of administration grants to the UIA by \$37.2 million, resulting in 402 FTEs being laid-off. The Legislature approved a contingency transfer authorizing \$5.0 million from the Fund to support the maintenance of UIA operations during FY 2012-13. LARA anticipates a similar transfer request for FY 2013-14 dependent upon the level of quarterly supplemental federal grants allocated to the UIA during the year. House concurs.

Overview

The Department of Military and Veterans Affairs provides for the operations of the Michigan National Guard in support of the military and security needs of the state and the federal government. The department, through the Michigan Veterans Affairs Agency, also oversees state programs for veterans, including the state's veterans' homes, grants to veterans service organizations, and the Michigan Veterans' Trust Fund.

Part 1 (line items) follows a line item/schedule of programs structure for the DMVA budget that is similar (but not the same) to the structure of the FY 2013-14 budget. The budget continues to roll-up to many of the smaller program lines into the major program areas. There are four basic "core services" for the department: (1) Department and National Guard Operations, (2) National Guard Programs, (3) Michigan Veterans Affairs Agency, and (4) Veterans' Homes.

Part 2 (boilerplate) is significantly reorganized, although much of the existing language remains intact. Generally, each program area has a pair of related boilerplate sections. The first section (Sec. ###) describes the legal authority and other requirements under which a particular program operates, including specific legal citations. The second section in each pairing (Sec. ###a) describes the performance metrics or other reporting requirements that apply to each program.

Major Budget Changes From FY 2013-14 YTD Appropriations

3. National Guard Tuition Assistance Program

Executive: Adds \$5.0 million GF/GP (1.0 transferred FTE) to reestablish a state tuition assistance (TA) program for National Guard members in active drilling status (1 weekend/month and 2 weeks/year). The program would cover 100% of tuition and fees, up to \$4,500 per year, for programs leading to a certificate, associate's degree, baccalaureate degree, or master's degree. Guard members could not pursue a lateral or lower degree, must remain in good standing, and must maintain a 2.0/4.0 GPA. The aim is to aid recruiting and retention efforts, as most other states provide this type of benefit, supplementing available federal education benefits. The state previously provided a TA program from FY 2000 to FY 2009, but ended the program amid state budget reductions and declining utilization rates largely due to the expanded availability of federal education benefits following Post-9/11 active duty service. However, federal active duty deployments are becoming less frequent, and recent changes to the Army's TA program now provide benefits to service members (including National Guard members in active drilling status) after one year of service (rather than making TA available upon completion of their initial training, and cap assistance at 16 semester hours per year.

FTE	N/A	1.0
Gross	N/A	\$2,000,000
GF/GP	N/A	\$2,000,000

House: Concurs on the establishment of the program, but reduces the appropriation to \$2.0 million, with the expectation being that the first year costs of the program would not reach \$5.0 million. Unexpended funds would lapse to the General Fund.

4. National Guard Armories – Special Maintenance

Executive: Adds \$4.0 million GF/GP as a "one-time" appropriation for various maintenance projects at the state's National Guard armories. Projects would include repairs and maintenance to roofs, parking lots, plumbing, heating/cooling systems, etc. This one-time appropriation would be in addition to the ongoing appropriations for armory maintenance, which the Executive reduces by \$2.3 million Federal to align the spending authorization with actual available revenues.

	Gross	\$20,351,200	(\$2,300,000)
Federal	17,300,000	(2,300,000)	
GF/GP	\$3,051,200	\$0	

House: Does not concur with the one-time appropriation of \$4.0 million. Note: 2014 PA 34 (SB 608) appropriates \$7.2 million for armory maintenance in FY 2014, essentially pulling forward the FY 2015 \$4.0 million appropriation requested by the Executive.

Items Agreed to by the Executive and the House

5. Veterans Service Regional Coordinators

Executive: Adds \$750,000 GF/GP for veterans service organizations (or others) to hire 10 regional coordinators who would be responsible for managing the workload of VSO service officers, monitoring service officer performance, and ensuring compliance with grant and boilerplate performance requirements. These coordinators would also serve as a liaison to other public and private agencies serving veterans.

	Gross	N/A	\$750,000
GF/GP	N/A	N/A	\$750,000

House: Concurs with the Executive, but adds boilerplate Section 401 providing some direction on how the funds would be used.

6. Annualize MVAA Staffing Costs

Executive: Adds \$1.2 million GF/GP to annualize the full-year, full-staffing costs for the Michigan Veterans Affairs Agency. Ostensibly, the FY 2013-14 budget did not support the full-year costs for the full-staffing compliment of the MVAA, recognizing that while the agency was being established, some positions would remain vacant after the start of the fiscal year, as the agency continued to define its work plan and operations.

	Gross	\$5,017,000	\$1,200,000
GF/GP	\$5,017,000	\$1,200,000	

House: Concurs with the Executive.

7. County Veterans Counselors (CVCs)	Gross	N/A	\$250,000
<u>Executive:</u> Adds \$250,000 to counties to expand the veterans claims processing capabilities of their county veterans service departments. These funds would be used to support technology improvements, such as the acquisition of an electronic claims management system, to hire additional VA-accredited counselors, or to establish a veterans service department either directly through county employees or through service agreements with neighboring counties. The department provided a similar grant program in FY 2012-13 through the availability of a one-time appropriation.	GF/GP	N/A	\$250,000
<u>House:</u> Concurs with the Executive, but adds boilerplate Section 404 providing some direction on how the funds would be used and Section 404a requiring a report on how the funds were used.			
8. Grand Rapids Veteran' Home (GRVH) Fund Sourcing	Gross	\$47,869,900	(\$2,275,000)
<u>Executive:</u> Adjusts the fund sourcing for the GRVH to better align spending authority with actual revenues and expenditures. These adjustments include a reduction in excess authorization from Income and Assessment revenue (paid by resident members) by \$2.5 million, as continuing renovations to members' rooms (from 4/room to 2/room or 1/room) have reduced the home's member census, thus generating less Income and Assessment revenue. Over the years the home has also seen an increase in members with a disability rating of 70%-100% for whom the home receives a higher per diem payment from the VA, which represents the full cost of care, thereby no longer requiring any additional assessments paid by the member. Because Income and Assessment revenue has been over-appropriated, annual economics adjustments (for salaries, benefits, etc.) charged to Income and Assessment revenues have actually been paid from available GF/GP funds. The Executive adds \$225,000 GF/GP to account for that shift in costs.	Federal	21,650,300	0
	Restricted	13,951,900	(2,500,000)
	GF/GP	\$12,267,700	\$225,000
<u>House:</u> Concurs with the Executive.			
9. National Guard Armories – Operations	Gross	\$13,705,300	\$2,000,000
<u>Executive:</u> Adds \$2.0 million from funds received through the National Guard Bureau to reflect the availability of additional federal NGB funds for the cost of utilities and related services (snow/trash removal, etc.) at the state's armories. A similar adjustment was made in FY 2013 through a September 2013 Legislative Transfer.	Federal	5,780,700	2,000,000
	Restricted	346,400	0
	GF/GP	\$7,578,200	\$0
<u>House:</u> Concurs with the Executive.			
10. Economics Adjustments	Gross	N/A	\$1,289,800
Reflects increased costs of \$1.3 million Gross (\$377,400 GF/GP) for negotiated salary and wage amounts (2.0% base increase plus 0.5% lump sum payments), actuarially-required retirement rate increases, and other economic adjustments. Insurance costs held flat due to recent state employee health plan revisions.	Federal	N/A	730,000
	Restricted	N/A	182,400
	GF/GP	N/A	\$377,400
11. Homeland Security – Align Authorization	Gross	\$650,000	(\$550,000)
Reduces appropriations by \$550,000 IDG-State Police to eliminate excess authorization for this program line. This program line has not been used to any great degree in recent years. The remaining \$100,000 authorization would provide the department with sufficient spending authority should the need arise.	IDG	650,000	(550,000)
12. D.J. Jacobetti Veterans' Home – Align Authorization	Gross	\$19,385,000	\$0
Adjusts authorization between VA per diem payments and Income and Assessment Revenue.	Federal	7,781,200	150,000
	Restricted	5,491,000	(150,000)
	GF/GP	\$6,112,800	\$0

Overview

The Michigan Department of State Police (MSP) provides general law enforcement services throughout the state and provides for the development and coordination of state programs, technologies, and specialized services that enhance enforcement and emergency response capabilities for the entire public safety community.

Part 1 (line items) follows a line item/schedule of programs structure that is similar to the structure of the FY 2013-14 budget, in which the "schedule of programs" in the bill aligns to the department's core services. Part 2 (boilerplate) is significantly reorganized, although much of the FY 2013-14 language remains intact. Generally, each core services has one or more pairs of related boilerplate sections for each program. The first section (Sec. ###) describes the legal authority and other requirements under which a particular program operates, including specific legal citations. The second section (Sec. ###a) describes the performance metrics or other reporting requirements that apply to each program.

Overview

The Transportation budget supports state and local highway programs, public transportation programs, aeronautics programs, and administration of the Michigan Department of Transportation (MDOT). Approximately 60% of the revenue in this budget comes from state restricted revenue, with approximately one-third from federal sources. Most of the state-restricted revenue in this budget is constitutionally restricted – from motor fuel taxes and vehicle registration taxes – and is first credited to the Michigan Transportation Fund (MTF) and then distributed in accordance with 1951 PA 51 (Act 51) to other state transportation funds and programs, including the State Trunkline Fund (STF) and the Comprehensive Transportation Fund (CTF), and to local road agencies. Revenue related to taxes on aviation fuel and aircraft registrations is credited to the State Aeronautics Fund (SAF) for aeronautics programs.
