Overview

The School Aid budget makes appropriations to the state's 541 local school districts, 300 public school academies, the Education Achievement System, and 56 intermediate school districts (ISDs) for operations and certain categorical programs. It also appropriates funds to the Center for Educational Performance and Information, the Workforce Development Agency, and other entities to implement certain grants and other programs related to K-12 education.

Major Budget Changes From FY 2015-16 YTD Appropriations

1. Foundation Allowances (Secs. 22a and 22b)

Executive increases foundations using the 2x funding formula with increases ranging from \$60 to \$120 per pupil. Increases the State Maximum Guaranteed Foundation (the Basic) from \$8,169 to \$8,229 and the Minimum Foundation from \$7,391 to \$7,511. The increase costs \$150.0 million, but after a cost reduction of \$126.7 million due to increasing local share from increasing taxable values and declining pupils, the net increase totals \$ 23.3 million. Adds \$72.0 million in Detroit Public Schools (DPS) Trust Funds to support the foundation allowance costs of the newly proposed Detroit Community district to offset the loss of local school operating millage revenue, which would be redirected to pay off the debts of the former district. Adds \$1.0 million to change the pupil membership blend from 90% of the October count plus 10% of the previous February count to 50% of the fall count plus 50% of the previous February count.

Major Boilerplate Changes From FY 2015-16

Sec. 3. Definitions – REVISED

Senate adds a new definition for "community district" as defined under Part B of the Revised School Code, as proposed in the Detroit Public Schools legislative package.

Conference concurs with Senate.

Sec. 6. Pupil Membership Definitions – REVISED

Executive revises pupil membership blend in (4) from 90% of the October count plus 10% of the prior February count to 50% fall count plus 50% prior February count. Caps the number for which a district may claim a nonpublic school pupil membership, for the purposes of receiving state aid, at no more than 1/3 of an FTE for grades 1 to 12 to align it with Sec. 166b, which requires that a nonpublic student be part-time and limited to nonessential elective courses. (See also Sec. 166b below). Strikes language added in FY 2015-16 that would count allow a student to be counted as homeless if he or she was counted in membership in FY 2014-15 even if the student didn't meet the Federal homeless definition.

House revises pupil membership blend in (4) to 85% of the current October count plus 15% of the previous October count. Does not cap the number of FTEs a nonpublic school pupil membership. House concurs to strike the homeless exception added in FY 2015-16. Adds that for a special education student who was expelled on the pupil count day but reinstated after, the district's membership shall be adjusted to count the student.

Senate revises pupil membership blend in (4) to 75% of pupils counted on the October count day plus 50% of pupils counted on the prior February count day. Revises the proposed cap on nonpublic school FTEs to 1/2 of an FTE. Expands the pupils allowed in an alternative education program to be educated until age 22 as long as program is "primarily focused on educating pupils with extreme barriers to education such as being homeless..." rather than the pupil actually is homeless. Revises the prohibition on establishing an instructional site within the boundaries of another district to provide an exception for the Michigan Youth Challenge Program (MYCP). Revises one of the count days for the MYCP, which is a residential 11-month program from the fourth Wednesday in July to the fourth Wednesday in August.

Conference maintains current law pupil membership blend; includes no cap on nonpublic school FTEs; concurs with House to adjust memberships for expelled, but reinstated, special education students; concurs with Senate on alternative education programs primarily focused on pupils with extreme barriers to education; concurs with Senate to allow MYCP to establish an existing instructional site in another district.

Sec. 11r. Distressed District Emergency Grant Fund – REVISED

Conference provides that \$2.8 million of the \$3.8 million remaining in the fund shall lapse to the School Aid fund for FY 2015-16.

Sec. 19. Reporting Requirements – REVISED

Executive deletes legislative intent that MDE and CEPI begin implementing statewide standard reporting requirements for districts in 2016-17.

House concurs with Executive.

Senate requires that MDE and CEPI begin implementing statewide standard reporting requirements in 2016-2017 and requires that districts and ISDs implement beginning in FY 2017-18 or whenever a district or ISD updates its education data reporting system, whichever is later.

Concurs with Senate.

Sec. 20. Foundation Allowance Calculation – REVISED

Executive increases minimum foundation to \$7,511 and the basic foundation to \$8,229; makes adjustments to reflect Section 20j.

House concurs with Executive.

Senate concurs with Executive and adds that a community district would have a foundation allowance equal to the qualifying school district that it is replacing. Also, provides that for a district receiving a consolidation grant under Sec. 22g, for the first two years, its new foundation allowance would be the pupil weighted average plus \$300.

Conference concurs with Executive, House, and Senate on foundation allowance increases, and includes adjustments for community district.

Sec. 20g. Dissolved District Transition Grant – REVISED

Senate adds legislative intent that \$660,000 from the FY 2013-14 work project be used to pay off the former Buena Vista District debt because voters twice rejected a reauthorization of its nonhomestead school operating mills.

Conference provides intent to lapse \$660,000 in work project funds and includes an FY 2016-17 appropriation to pay off the Buena Vista debt.

Major Boilerplate Changes From FY 2015-16

Sec. 20m (20j). Foundation Calculations for Hold Harmless Districts – NEW

Executive due to an inflationary cap on Hold Harmless (HH) District Foundation Allowances, which was put in statute along with the school funding reforms tied to Proposal A in 1994, HH districts (currently foundation allowances greater than \$8,169) would be capped at increases ranging from \$8-\$15. The Executive budget reintroduces former Section 20j, which would allow the difference between each HH district's inflationary increase and the \$60 increase in the State Maximum Guaranteed foundation allowance to be allocated under a separate calculation than its foundation calculation in Sec. 20.

House concurs with Executive.

Senate concurs with Executive but moves to a categorical in Section 20f rather than funding as a foundation allowance adjustment.

Conference concurs with Executive and House but renames it Section 20m.

Sec. 21f. Virtual Classes – REVISED

- Executive requires a district to provide written notification and a description of appeal process if denying enrollment. Also requires a district if disallowing a course for sufficient rigor to "enroll" a pupil in an alternative course, rather than "make a reasonable effort to assist" a student in finding an alternative.

House concurs.

Senate maintains current law but revises to allow the primary district to determine if an alternative course if of acceptable rigor and quality.

Conference concurs with Executive and House.

- Executive requires primary enrolling districts to provide a student enrolled in more than 2 virtual courses per term with hardware, software, and internet access without charge to the pupil, in addition to the expenses paid for the virtual course under (9), currently 6.67% of the minimum foundation.

House and Senate do not include.

Conference concurs with House and Senate.

- Executive requires MDE to establish standards for appropriate hardware, software, and internet access and to establish minimum requirements to count a pupil in a virtual course in a district's pupil membership, for the purpose of receiving of state aid.

House maintains current law.

Senate concurs with Executive.

Conference concurs with Executive and Senate but adds that the pupil membership standards shall be as in the pupil accounting manual in FY 2015-16 or subsequently amended by MDE if MDE notifies the Legislature of amendments at least 60 days before any changes take effect.

- Executive deletes requirement that online courses offered by community colleges generate postsecondary credit.

House maintains current law.

Senate concurs with Executive.

Conference concurs with House.

- Executive deletes provision allowing district to deny enrollment in online course if request does not occur within same timelines established for enrollment and schedule changes for regular courses.

House concurs.

Senate maintains current law.

Conference concurs with Senate.

Sec. 25e. Pupil Transfer Process – RETAINED

Executive repeals this section and eliminates the pupil transfer process, which currently allows districts to transfer a portion of a pupil membership FTE, and thus the state aid funding tied to it, if a pupil transfers from one district to another between the Fall count date and the following February count date.

House concurs with Executive.

Senate maintains current law.

Conference retains the pupil transfer process but only for pupils that enroll in a strict discipline academy after the pupil membership count date.

Sec. 32d. Great Start Readiness Program (GSRP) – REVISED

Executive prioritizes children who are homeless, in foster care, or have an IEP that requires preschool as if they are in the lowest income quintile. Reduces program eligibility notification requirements to community-based providers to those that are currently non-participating and to just one notice, which could be done electronically.

House concurs with Executive and revises the cap on ISD administration expenses from either 7% or 4% depending on whether or not the ISD is subcontracting services to 5% either way, and eliminates the 4% cap for subrecipient administration costs and instead counts them as direct services.

Senate concurs with Executive and revises the cap on ISD administration expenses from either 7% or 4% depending on whether or not the ISD is subcontracting services to 4% either way, and eliminates the 4% cap for subrecipient administration costs and instead counts them as program costs or contracted fees for service. Also, allows a Head Start grantee or delegate in a blended Head Start GSRP program to count toward the 30% of slots that must be allocated to community-based providers but excludes children in a pure Head Start program from counting toward the 30%.

Conference concurs with Senate.

Major Boilerplate Changes From FY 2015-16

Sec. 39. Great Start Readiness Program Formula – REVISED

Executive revises application and formula to base it on number of half-day slots filled rather children served such that the hold harmless provision, guaranteeing an ISD at least its prior slot allocation, would include slots used to provide full-day programs. House, Senate, and Conference concur with Executive.

Sec. 39a. Federal Funds – REVISED

Senate adds that for the purposes of funding Title I grants, MDE shall allocate an amount of Title I, Part A funds to a strict discipline academy equal to what it would have received if it were included under Part D or what it would receive under Part A, whichever is greater.

Conference concurs with Senate.

Sec. 51a(15). Special Education Penalty – REVISED

Executive deletes legislative intent that, beginning in FY 2016-17, would penalize a district, PSA, or ISD by 10% of its total state aid if it does not comply with the process for special education services for PSA pupils under subsection (14) or federal regulations. House and Senate maintain the penalty and implement it beginning in FY 2016-17.

Conference concurs with House and Senate.

Sec. 101. Days and Hours of Instruction – REVISED

Executive deletes district reports of days and hours of instruction and replaces with district certification to MDE that it is in full compliance or district reports to MDE for each instance of noncompliance.

House, Senate, and Conference concur with Executive.

Sec. 104b. Assessments – REVISED

Executive revises to update NCLB references with ESSA references.

House repeals this section, which requires that districts administer the Michigan Merit Exam including a college entrance test (SAT, formerly ACT), a work skills test (WorkKeys), and a state summative assessment (M-STEP).

Senate concurs with Executive.

Conference concurs with Executive and Senate.

Sec. 104c. Assessments – REVISED

Executive revises to require fall and spring assessments in grades K to 2, and eliminates the kindergarten entry assessment.

House repeals this section.

Senate revises to require MDE to field test a kindergarten readiness assessment (KRA) to replace the kindergarten entry assessment (KEA) and work with at least 3 ISDs and their constituent districts to participate in the KRA.

Conference concurs with Executive.

Sec. 107. Adult Education – REVISED

Executive revises eligible programs to add adult secondary education programs, eliminate job- or employment-related programs, and revise GED to high school equivalency test prep programs. Deletes all current participant eligibility criteria, and replaces with either a) is at least 20 years of age or b) is an out-of-school youth as defined in federal Workforce Innovation and Opportunity Act. Deletes FTE funding formula based on 80% enrollment and 20% completion. Makes payments based on statewide allocation criteria including 3-year average enrollments, census data, and local needs as well as participant completion data, and allowable expenditures.

House concurs with Executive except maintains current law in regards to participant eligibility criteria.

Senate maintains current law except for the following revisions: freezes the formula at the current split of 2/3 old method, 1/3 new method and deletes formula to continue moving toward a new method in future fiscal years.

Conference concurs with Executive, but revises eligibility to either a) is at least 20 years old or b) is at least 18 years old and his/her graduating class has graduated. Concur with Senate to freeze formula phase-in again, but for just one year rather than permanently.

Sec. 166. Penalty for Family Planning – RETAINED

Executive repeals this section.

House revises the penalty under which a district currently forfeits 5% of its total state aid if a board member or staff distributes family planning drugs or devices or makes referrals for abortions. Instead it would require a district to adopt a disciplinary policy for school officials or staff for violations of MCL 380.1507 (regarding Sex Education and prohibits distribution of family planning drugs or devices) or for making abortion referrals. A district that fails to adopt a disciplinary policy would forfeit \$100,000 of its state aid. The policy must create financial penalties for school officials, staff, or contractors and require that penalties be negotiated in collective bargaining agreements.

Senate maintains current law.

Conference concurs with House but does not include penalties for contractors or references to collective bargaining agreements.

Major Boilerplate Changes From FY 2015-16

Sec. 166b. Nonpublic Students – REVISED

Executive revises to clarify that a district may count nonpublic students as FTEs, to receive state aid, for nonessential, elective courses "that are offered **AND BEING PROVIDED**" to full-time pupils in the same grade level or age group during regularly scheduled school hours.

House maintains current law.

Senate maintains current law and adds that MDE must provide a uniform definition of nonessential elective courses.

Conference maintains current law and adds that MDE shall convene a workgroup to examine the issue of a uniform definition of nonessential elective courses and a uniform definition of par-time pupil.

Sec. 167a. Expelled or Suspended Pupils – NOT INCLUDED

Community colleges offer a wide variety of educational programs, including traditional two-year transfer programs, associates' degrees, career and technical education, developmental and remedial education, continuing education, and, after 2012, baccalaureate programs in a limited number of areas. The colleges are supported primarily through a combination of state aid, local property tax revenue, and tuition and fees.

Overview

The Higher Education budget, contained in Article III of the compiled School Aid Act, provides funding for operational support of the state's 15 public universities, the AgBioResearch and Extension programs operated by Michigan State University, various financial aid programs for students attending public and independent colleges and universities in the state, and several other smaller higher education-related programs.

Major Budget Changes From FY 2015-16 YTD Appropriations

1. University Operations

Conference increases university operations funding by 2.9% (\$39.8 million), a reduction of \$20.0 million GF/GP from the Executive, and concurs with Executive, House, and Senate in reinstating the formula component that distributes 50% of the performance funding based on each university's share of operational funding appropriated in the baseline year of FY 2010-11. Percentages applying to other formula components are thus halved; those other components are weighted completions, research and development expenditures, and comparisons to Carnegie peers, the latter of which includes four metrics.

	FY 2015-16 Year-to-Date (as of 2/10/16)	FY 2016-17 Conference Change
Gross	\$1,360,557,600	\$39,787,400
Restricted	200,019,500	31,200,000
GF/GP	\$1,160,538,100	\$8,587,400

Performance funding that would otherwise be allocated to Eastern and Oakland is reduced by \$400,000 for each school and divided equally among the four other institutions that would still be below FY 2010-11 funding levels: Michigan State, UM-Ann Arbor, Wayne State, and Western.

Receipt of performance funding conditioned on restraining tuition/fee increases to 4.2% (set at 3.2% in current year). Projected funding increases for individual universities range from 2.4% to 4.5%.

Executive increases university operations funding by \$59.8 million (\$31.2 million School Aid Fund, \$28.6 million GF/GP), a 4.4% increase that brings total support to FY 2010-11's level of \$1.4 billion. Increase distributed under a revised performance funding formula that reinstates a component that distributes 50% of the increase based on each university's share of operational funding appropriated in the baseline year of FY 2010-11. Percentages applying to other formula components thus halved. Receipt of performance funding conditioned on restraining resident undergraduate tuition/fee increases to 4.8%. Projected funding increases for individual universities ranging from 3.5% to 6.8%.

1. University Operations, continued

House increases university operations funding by 3.4% (\$46.3 million), a reduction of \$13.5 million GF/GP from the Executive. House concurs with Executive's reinstatement of a performance funding formula component that distributes 50% of the increase based on each university's share of operational funding appropriated in the baseline year of FY 2010-11. House further revises formula to incorporate a fifth Carnegie metric: whether the university received a 2010 or 2015 Community Engagement classification. House conditions performance funding on restraining resident undergraduate tuition/fee increases to 4.8% or \$500, whichever was more. Projected funding increases for universities ranging from 2.8% to 4.7%.

Senate concurs with Executive in total amount of university performance funding and formula changes, but reduces funding for Eastern and Oakland by the amounts that they otherwise would have received under the formula component distributing 50% of the performance funding based on FY 2010-11 appropriations. The resulting \$2.7 million (about \$1.6 million from Eastern and about \$1.7 million from Oakland) divided equally between the remaining four universities that would still be below FY 2010-11 funding levels, thereby providing \$667,100 each for Michigan State, University of Michigan – Ann Arbor, Wayne State, and Western. Senate concurs with Executive in 4.8% tuition restraint cap. Projected funding increases for individual universities ranging from 2.4% to 5.2%.

2. MSU AgBioResearch and MSU Extension

Executive provides increases for Michigan State's AgBioResearch and Extension programs, bringing funding for each to FY 2010-11 levels. AgBioResearch with 2.3% (\$734,800 GF/GP) increase, bringing funding to \$33.2 million; Extension with 2.4% (\$677,800 GF/GP) increase, bringing funding to \$28.7 million.

House, Senate, and Conference concur.

Gross	\$60,503,100	\$1,412,600
GF/GP	\$60,503,100	\$1,412,600

3. MSU Veterinary Diagnostic Laboratory

Conference provides one-time appropriation of \$500,000 GF/GP for MSU's Diagnostic Center for Population and Animal Health, which assists in identifying emerging animal and public health issues and works with national, state, and local officials on research and responses to threats such as avian influenza, bovine tuberculosis, West Nile virus, and chronic wasting disease.

Gross	NA	\$500,000
GF/GP	NA	\$500,000

4. Michigan Public School Employees' Retirement System (MPSERS)

Executive assumes enactment of a cap of 25.73% of payroll on university payments for unfunded accrued liability under MPSERS. Executive provides \$5.9 million in School Aid Fund (SAF) revenues to pay the difference between the 25.73% cap and universities' unfunded accrued liability. This would affect the seven universities with MPSERS employees: Central, Eastern, Ferris, Lake Superior State, Michigan Tech, Northern, and Western. Current-year funding is \$5.2 million, which also assumes enactment of 25.73% cap.

House, Senate, and Conference concur.

Gross	\$5,160,000	\$730,000
Restricted	5,160,000	730,000

5. State Competitive Scholarships

Senate provides a 2.2% increase, adding \$404,000 in federal TANF funding to this program, which assists with tuition and mandatory fees for undergraduate students pursuing their first degrees who have demonstrated both financial need and academic merit. Executive, House, and Conference make no changes.

Major Boilerplate Changes From FY 2015-16

GENERAL SECTIONS

Sec. 236a. Intent Regarding Succeeding Fiscal Year – RETAINED

Executive replaces Sec. 236a, which expresses legislative intent to maintain appropriations, with a new Article IV containing an itemized summary of appropriations for FY 2016-17 and anticipated for FY 2017-18, with the only FY 2017-18 change being an additional \$200,000 in funding for MPSERS unfunded accrued liabilities in excess of the proposed 25.73% employer cap. Conference, House, and Senate retain current-year language.

Sec. 236c. State Building Authority Rent Payments – REVISED

Executive itemizes estimated SBA rent payments to be made under the DTMB budget for university capital outlay projects. Current-year payments total an estimated \$136.0 million, updated to \$145.0 million for FY 2016-17. Conference, House, and Senate concur.

Major Boilerplate Changes From FY 2015-16

Sec. 239a. Foreign Vehicles – DELETED

States intent that funds appropriated to universities not be used to purchase vehicles assembled outside the United States. Executive and Conference delete, House and Senate retain.

Sec. 242. Federal or Private Funds – RETAINED

Appropriates federal or private funds received by the state for use by a college or university. Executive deletes language specifying that acceptance of funds does not place an ongoing obligation on the legislature; Conference, House, and Senate retain this language.

Sec. 245. University Transparency – RETAINED

Requires universities to post various budget, compensation, financial, and performance data, as well as transfer policies, on its website, using a standard format. Executive deletes requirement that state budget director determine compliance and language granting authority to withhold payments for a university not in compliance; Conference, House, and Senate retain this language.

GRANTS AND FINANCIAL AID

Sec. 252. Tuition Grant Program – REVISED

Establishes conditions for the Tuition Grant Program, which provides need-based tuition assistance at Michigan independent (i.e., private and nonprofit) colleges and universities.

- Executive deletes requirement for unexpended funds to continue to be available in the next fiscal year; unexpended funds thus would lapse to the General Fund. Conference, House, and Senate retain the rollover provision.
- Executive reduces annual cap on awards at any one institution (which affects awards at Baker College and Davenport University) from the current \$3.2 million to \$3.0 million. House raises cap to \$3.5 million, Senate raises cap to \$3.3 million, Conference retains current cap of \$3.2 million.
- Executive moves application deadline from July 1 to March 1. Conference, House, and Senate retain current deadline.

Sec. 254. Financial Aid Payment Schedule – REVISED

Specifies quarterly payment schedule for financial aid programs: 50%, 30%, 10%, 10%. Executive recommends a revised quarterly payment schedule for the Tuition Incentive Program in which payments are completed in the first three quarters: 55%, 40%, 5%. Conference, House, and Senate concur.

Sec. 256. Tuition Incentive Program – REVISED

Provides for the tuition incentive program, which pays associate's degree ("Phase I") tuition for Medicaid-eligible students completing high school, and provides tuition assistance of up to \$2,000 for participants continuing on with a baccalaureate ("Phase II"). Executive proposes annual limit of \$8.5 million in awards at any one college or university, beginning in FY 2017-18, a change that currently would affect only Ferris State University. House does not include this cap. Senate does not include cap, and instead requires proration of Phase I awards if appropriation insufficient. Conference concurs with Executive.

UNIVERSITY OPERATIONS

Sec. 261. Douglas Lake Biological Station – RETAINED

Designates University of Michigan Douglas lake Biological Station as a unique resource. Executive deletes; Conference, House, and Senate retain.

Sec. 265. Performance Funding Criteria: Tuition Restraint – REVISED

Conditions receipt of performance funding in part on compliance with tuition restraint requirements that limit allowable resident undergraduate tuition/fee increases to 3.2% over the prior year.

- Executive increases the limit to 4.8%. House sets limit at 4.8% or \$500, whichever is more. Senate concurs with Executive. Conference sets at 4.2%.
- Executive deletes language that in part defines "fee" to include the cost of a university-affiliated health insurance policy for a university that compels resident undergraduate students to have health insurance coverage as a condition of enrollment. Conference, House, and Senate retain this language.
- Executive clarifies various terms consistent with usage. Conference, House, and Senate concur.

Conference includes Senate language that says that universities that exceed the tuition restraint cap shall not receive a planning or construction authorization for a state-funded capital outlay project in FY 2017-18 or FY 2018-19.

Conference also adds a provision explicitly stating that the legislature may at any time adjust appropriations for a university that adopts a tuition and fee increase that exceeds the tuition restraint cap.

Major Boilerplate Changes From FY 2015-16

Sec. 265a. Performance Funding Criteria and Formula – REVISED

Conditions receipt of performance funding on:

- Compliance with tuition restraint provisions.
- Certification that university participates in reverse transfer agreements with at least three Michigan community colleges, or has made a good faith effort to do so. Executive deletes language regarding good faith effort. Conference, House, and Senate concur.
- Certification that dual enrollment policy does not consider use of credits toward high school graduation requirements.
- Participation in Michigan Transfer Network; Executive revises to specify active participation, including submission of timely updates. Conference, House, and Senate concur.

Establishes process for universities to certify compliance with all requirements. Provides for performance funding forfeited due to noncompliance to be redistributed to other universities based on their performance funding appropriations.

Sets the formula used to distribute performance funding, currently distributed as follows:

- 22.2% based on weighted undergraduate completions in critical skills areas.
- 11.1% based on research and development expenditures (for high-research universities)
- 66.7% based on comparisons with Carnegie classification peers (or improvement) on four metrics: six-year graduation rate, total degree completions, institutional support as a percentage of core expenditures, and percentage of students receiving Pell grants.

Executive reinstates a component that distributes 50% of performance funding proportional to each university's share of total operations funding in the baseline year of FY 2010-11, thereby halving the percentages applying to the remaining three components. Conference, House, and Senate concur.

Executive also deletes statement of intent to lower score for three-year improvement from 2 points to 1 point. House concurs. Senate and Conference retain the statement.

Conference does not include House's formula revision to add a fifth Carnegie metric (scored at 3 points) of whether a university received a Carnegie Community Engagement classification in 2010 or 2015.

Sec. 268. Indian Tuition Waivers – REVISED

Executive deletes language expressing legislative intent for universities to allocate Indian Tuition Waiver costs from the general fund, and states that a report required from the Department of Civil Rights is to include specified information from each "public university," rather than "postsecondary institution."
