Overview

The State Board of Education is an eight-member elected board constitutionally mandated to provide leadership and supervision for public education in Michigan. The Michigan Department of Education (MDE) is the administrative arm of the Board charged with implementing state and federal educational mandates and administering programs. Major responsibilities of the MDE include developing and overseeing the K-12 school system, certifying teachers, disbursing funds to educational organizations and libraries, providing technical assistance to school districts and libraries, and providing early education and child day care support for low-income and other qualifying families.

Executive revises that only “known” grants in the School Aid grant application process must be open by December 1, 2018 to reflect the possibility that certain grants, especially federal grants that are available for FY 2018-19, will not be either open or available for review by the deadline. House revises the set of requirements for the state grant award process and would reduce state money appropriated for unclassified positions, state board/superintendent operations, school support services operations, and field services operations by 5% if the following requirements are not met for FY 2018-19: not later than August 1, 2018 MDE open the grant application process and send districts and post on its publicly accessible website the grant application and award process schedule and the list of the state grants available; on October 1, 2018 close the grant application process and begin the award process for state grants; and not later than November 1, 2018 distribute grant awards.
