**Major Boilerplate Changes From FY 2012-13**

**Sec. 6(4). Pupil Membership Blend – REVISED**

House revises the pupil membership blend from 90% October count and 10% of the previous February count to 80% of the October count and 20% of the following February count in order to align with the proposed pupil transfer process in Section 25e.

**Sec. 6(6). Counting Nonresident Pupils for Online Courses – REVISED**

Executive adds to the conditions under which a district may count a pupil in membership without the approval of his or her resident district: a pupil who enrolls in an online program in another district as allowed under the newly proposed Section 21f.  
House concurs.

**Sec. 18a. Public School Academy (PSA) Property Transfer – REVISED**

Current law requires that PSA property acquired substantially with public funds be transferred to the state if a PSA's contract is revoked or not reissued, or if the PSA is ineligible for state aid funding for 18 consecutive months.

Executive recommendation adds that a PSA corporation must initiate a dissolution process within 30 days after its contract expires.

House concurs but revises to initiate the "transfer" process.

**Sec. 20 (8) and (9). 100% Online programs Foundation – NEW**

House adds language that beginning in FY 2014-15 the foundation allowance for a cyber school or for pupils attending a district under a seat-time waiver for a 100% online model is equal to 80% of the foundation allowance of the district in which it is located.

**Sec. 20(10). Foundation Allowances for District Consolidations or Annexations– REVISED**

House revises language which currently provides that the foundation allowance for a consolidated district is the per pupil weighted average of all the affected districts. Instead the foundation allowance would be either the highest foundation of the affected districts or the sum of \$100 plus the per pupil weighted foundation, whichever is less.

**Sec. 20(14). Small Class Size Adjustments to Foundation Allowances – REVISED**

Executive revises foundation allowance adjustments for districts that received a small class size grant in 2001-2002. Currently funded in FY 2012-13 at 68.5% of FY 2010-11 levels at a total cost of \$13.0 million (funded under Sec. 22b). Executive recommendation continues adjustments into FY 2013-14, reduces to a total cost of \$9.0 million by capping adjustments as follows:

- not to exceed \$100 per pupil for districts with foundation allowances less than \$7,500.
- not to exceed \$50 per pupil for districts with foundation allowances greater than \$7,500.

House revises small class size adjustments to 70% of each district's adjustment in FY 2012-13. Assumes the same level of savings as the Executive recommendation.

## **Major Boilerplate Changes From FY 2012-13**

### **Sec. 21f. Online Courses – NEW**

Executive allows pupils in grades 5 to 12 to enroll in online courses as provided in this section (does not apply to cyber schools). Requires that a district allow a pupil to enroll in up to 2 online courses per term, semester, or trimester with the consent of the pupil's parent or legal guardian. If a pupil has demonstrated previous success in online courses, and the district and parent or guardian determine it is in the pupil's best interest, a pupil may enroll in more than 2 online courses per term, semester, or trimester. Allows pupil to enroll in online courses published in the district's catalog of online courses or the statewide catalog of online courses maintained by MVU pursuant to Sec. 98. Allows educating district to prohibit enrollment in an online course under certain circumstances, but provides the pupil an opportunity to appeal that decision to the ISD. Requires a district, if offering an online course, to provide MVU with the course syllabus for inclusion in the statewide catalog and provide links to the catalog on the district's website.

House revises to cover grades 7 to 12, deletes references to a statewide catalog maintained by MVU, deletes the provision requiring a district to allow a pupil with past success to take more than 2 online courses per term, and caps the amount a district has to pay for an online course to 1/12 of the district's foundation allowance per semester or 1/18 of the district's foundation allowance for a trimester.

### **Sec. 22f. Best Practices – REVISED**

Executive reduces per pupil awards from \$52 per pupil to \$16 per pupil for districts complying with 7 out of 8 best practices. 4 out of the 8 best practices include revisions under the Executive recommendation:

- Acts as policyholder for insurance - Adds that a district with a voluntary employee beneficiary association (VEBA) that pays no more than the maximum allowed under PA 152 of 2011 is considered to have met this requirement.
- Competitively bid at least one non-instructional service - Adds that the unfunded liability costs for retirement must be excluded from district costs when comparing competitive bids.
- Provide online learning opportunities - Adds that a district must publish syllabi for offered online courses, as required under Sec. 21f.
- Provide a dashboard to parents and the community - Adds additional required dashboard items including revenue and expenditure projections, list of all debt service obligations by project including anticipated payments for FY 2013-14, and total outstanding debt.

The 4 other best practices remain the same and include participating in schools of choice, measuring student growth twice annually, providing dual enrollment, and provide physical or health education that meet State Board of Education standards.

House includes the Executive language but provides only a \$100 placeholder for best practices grants.

### **Sec. 22i. Technology Infrastructure Grants – REVISED**

Executive adds instructional practices and shared service consolidation of technology and data as allowable uses of funding and changes the grant process from a competitive bid process to a process in which all eligible districts and ISDs may participate.

House limits the uses to technology infrastructure, shared service consolidation of technology and data, and hardware.

Also requires that to be eligible for funding under this section, a district or intermediate district must comply with language prohibiting contract renewals or extensions between December 10, 2012 and March 28, 2013 unless they can realize 10% savings as certified by an independent certified public accounting firm or those contracts that include only an agreement regarding conditions of employment that include membership in a labor organization or bargaining representative or paying dues or fees to a labor organization or bargaining representative or to a third party in lieu of those dues or fees.

### **Sec. 22j. District Performance Grants – REVISED**

Executive updates the school year assessment used to awards to 2011-2012 and revises the high school award to broaden from only the Michigan Merit Exam to all high school assessments.

House concurs but also requires that to be eligible for funding under this section, a district or intermediate district must comply with language prohibiting contract renewals or extensions between December 10, 2012 and March 28, 2013 unless they can realize 10% savings as certified by an independent certified public accounting firm or those contracts that include only an agreement regarding conditions of employment that include membership in a labor organization or bargaining representative or paying dues or fees to a labor organization or bargaining representative or to a third party in lieu of those dues or fees.

### **Sec. 25e. Pupil Transfer Process – NEW**

House repeals Sec. 25, which was set to begin in FY 2013-14 and replaces it with Sec. 25e. It would require CEPI to work with MDE, districts, and intermediate districts to develop a pupil transfer application modeled after the graduation and dropout application, and allow districts to transfer students and revise membership between the October and February count dates.

## **Major Boilerplate Changes From FY 2012-13**

### ***Sec. 32d. Great Start Readiness Program – REVISED***

Executive proposes significant funding increases, but also includes several major policy changes including:

- Revises to align with new kindergarten age requirements, phased in over 3 years, to move the eligibility age cutoff date from December 1 to September 1.
- Eliminates former Parents Involved in Education (PIE) programs as an allowable use of funds.
- Distributes 100% of the funding through the Section 39 formula and requires all entities including ISDs, districts, public or private for-profit and nonprofit entities receiving funding to comply with Sections 32d and 39 rather than continuing a separate competitive application for public or private for-profit and nonprofit entities.
- Requires that a program receiving funds under this section must participate in the state's Great Start to Quality Process, the Tiered Quality Rating Improvement System (TQRIS), with a rating of at least 3 stars.
- Increases the minimum percentage of participating children who must live in families with income less than 300% of federal poverty level from at least 75% to at least 90%.
- Requires an ISD to contract with eligible public and private for-profit and nonprofit community-based providers for at least 20% of its total allocated slots. Requires notification to department if ISD is unable to meet this requirement.

House concurs but revises the Executive recommendation to continue allowing PIE programs, decreases the income eligibility threshold to 250% of the federal poverty, revises the minimum percentage of participating children who must qualify based on income to 80%, and clarifies that if MDE verifies an ISD tried to contract at least 20% of their slots and is unable to do so, the ISD may keep those remaining slots. Requires an ISD to let parents choose among ISD providers and requires an ISD to allow a parent of an eligible child to choose a program in another ISD and that the resident ISD would have to pay for it.

### ***Sec. 32p. Early Childhood Block Grants – REVISED***

Executive provides that each ISD shall receive 100% of its FY 2012-13 allocation.

House provides that beginning in FY 2013-14 funding shall be determined by a distribution formula to be established by the MDE Office of Great Start in order to provide for equitable funding statewide.

### ***Sec. 56. Special Education Millage Equalization – REVISED***

FY 2012-13 allocations were frozen at prior year levels, but Executive recommendation reverts back to the formula, which guarantees a minimum taxable value per pupil for special education millages. For FY 2013-14 the per-pupil taxable value equalization amount is \$166,000.

House provides that no single ISD shall receive more than 62.9% of the total allocation under this section, and revises the taxable value equalization amount to \$169,900 accordingly.

### ***Sec. 62. Vocational Education Millage Equalization – REVISED***

FY 2012-13 allocations were frozen at prior year levels, but Executive recommendation reverts back to the formula, which guarantees a minimum taxable value per pupil for vocational education millages. For FY 2013-14 the per-pupil taxable value equalization amount is \$185,300.

House provides that no single ISD shall receive more than 38.4% of the total allocation under this section, and revises the taxable value equalization amount to \$186,500 accordingly.

### ***Sec. 81(6). ISD Best Practices – REVISED***

Executive maintains \$2.0 million allocation for ISD best practices, but revises to require 5 out of 6 best practices:

- Develop a consolidation plan - Adds for an ISD that developed a plan in FY 2012-13, it must implement that plan to qualify in FY 2013-14.
- Obtain competitive bids on at least 1 non-instructional service valued at \$50,000 or more for itself or its constituent districts - Adds that the unfunded liability costs for retirement must be excluded from costs when comparing competitive bids.
- Develop a technology plan - Adds for an ISD that developed a plan in FY 2012-13, it must implement that plan to qualify in FY 2013-14.
- Provide a dashboard to parents and the community - Adds additional, required dashboard items including revenue and expenditure projections, list of all debt service obligations by project including anticipated payments for FY 2013-14, and total outstanding debt.
- Work in a consortium with other ISDs to develop system requirements and bid specifications for a statewide model information system - Adds working with CEPI and changes focus to developing local systems that result in a recommended model information system that supports interoperability to ensure linkage and connectivity in a manner that facilitates the efficient exchange of data between districts, ISDs, and CEPI.
- New requirement that ISD act as policyholder for health care services benefits. An ISD that does not directly employ its staff or an ISD with a voluntary employee beneficiary association (VEBA) that pays no more than the maximum allowed under PA 152 of 2011 is considered to have met this requirement.

House includes the Executive language but provides only a \$100 placeholder for best practices grants.

## **Major Boilerplate Changes From FY 2012-13**

### ***Sec. 98. Michigan Virtual University – REVISED***

Executive renames the Center for Online Learning and Innovation, which was established in FY 2012-13, as the Michigan Virtual Learning Research Institute. Requires that the Institute do the following: provide professional development to at least 1,000 education personnel on integrating digital learning, provide up to \$2.2 million in competitive grants to ISDs to expand integration of online and blended learning, work with higher education faculty on a new digital learning teacher endorsement, and create a statewide catalog of all online courses at all public schools including course syllabi and a review of each course. House maintains current law with minor changes.

### ***Sec. 101. Instructional Days and Hours – REVISED***

House deletes for FY 2013-14 the provision allowing up to 38 hours of professional development for teachers as instruction to meet the 1,098 minimum number of hours required and increases the minimum number of days required from 170 to 175 beginning in FY 2014-15.

### ***Sec. 107. Adult Education – REVISED***

House adds legislative intent to begin allocating grant funds under this section on a competitive basis beginning in FY 2014-15.

### ***Sec. 147. MPSERS Contribution Rates – REVISED***

Executive reflects employer contribution rates for defined benefit pension and retiree health benefits are now broken out for seven different subgroups based on hire date and benefit and contribution choices made under PA 300 of 2012. For FY 2013-14, rates are based on a 25-year amortization period, and they range from 20.96% to 24.79% of MPSERS payroll. Employer rates do not include contributions into employee defined contribution accounts.

House concurs.

### ***Sec. 147b. MPSERS Reserve Fund – REVISED***

Executive makes no appropriation into the MPSERS reserve fund, and instead begins to use available funds as a source of revenue under Sec. 147c. Adds new language, which would direct the funds collected in FY 2010-11 and FY 2011-12 for the employee 3% contributions for retiree health care, currently being held in escrow pursuant to a court injunction, to be deposited into the MPSERS reserve fund for the purposes of funding health care unfunded liabilities if the injunction is lifted.

House concurs

### ***Sec. 147c. MPSERS State Share for Health Care Unfunded Accrued Liabilities – REVISED***

Executive revises such that instead of paying the MPSERS funds directly to the MPSERS system, funding would be distributed to districts and ISDs based on their proportional share of MPSERS payroll. Then districts and ISDs would be required to pay the exact amount back to the MPSERS system.

House concurs.

Notes: (1) FY 2012-13 year-to-date (YTD) figures include mid-year budget adjustments through February 7, 2013.  
(2) Appropriation figures for all years include all proposed appropriation amounts, including amounts designated as one-time.

**Overview**

The Community Colleges budget supports the 28 community colleges located throughout the state. The colleges are governed by locally-elected boards of trustees. The colleges offer numerous educational programs aimed at traditional transfer students, career and technical education, developmental and remedial education, and continuing education courses. The colleges are funded through a combination of state aid, local property tax revenue, tuition and fees revenue, and other sources of revenue such as federal grants and investment earnings. State aid makes up about 19% of total community college general fund operating revenue, although the revenue mix varies considerably among the colleges.

**Major Budget Changes From FY 2012-13 YTD Appropriations**

**1. Operations Funding**

Executive increases community college operations funding by 2 percent, or \$5.8 million, to be distributed according to performance funding measures similar to those in the FY 2012-13 enacted budget. Additionally, \$1.3 million that was previously distributed according to local strategic value requirements are now distributed according to performance funding measures. Local strategic value requirements are now prerequisites for all performance funding. Performance funding components are as follows:

- 50.0% Across-the-board distribution
- 17.5% Weighted degree completions
- 15.0% Skilled trades program students placed in a relevant job
- 10.0% Contact-hour equated students (CHES)
- 7.5% Administrative spending

House concurs with funding amount increase, but retains FY 2012-2013 performance funding formula, which includes local strategic value instead of skilled trades program students placed in a relevant job. Local strategic value funding from FY 2012-2013 is included in each community college's base appropriation. Additional boilerplate requirements would withhold performance funding for colleges that do not meet certain requirements related to renewal of labor contracts before March 28, 2013 (see boilerplate Sec. 230(5) below).

<b>2. MPSERS Retirement Reform Payments</b>	<b>Gross</b>	<b>\$1,733,600</b>	<b>\$31,400,000</b>
<u>Executive</u> includes a \$12.5 million GF/GP supplemental for FY 2012-13 and \$31.4 million GF/GP for FY 2013-14, for payments to community colleges to pay MPSERS retirement liabilities. Retains \$1.4 million appropriated for MPSERS retiree health care in FY 2012-13, but appropriates these funds in proportion to each college's total MPSERS-covered payroll. Provides a further increase of \$17.4 million for FY 2014-15. <u>House</u> concurs with funding amounts, boilerplate language describing the distribution of appropriations is included in the funding section.	Restricted	1,733,600	0
	GF/GP	\$0	\$31,400,000
<b>3. Renaissance Zone Reimbursements</b>	<b>Gross</b>	<b>\$0</b>	<b>\$3,500,000</b>
<u>Executive</u> transfers \$3.5 million GF/GP from the Treasury budget for community college renaissance zone reimbursements. These funds replace property tax revenue lost to community colleges as a result of renaissance zones. Previously, such reimbursements were included in the community colleges budget, but were eliminated in FY 2009-10 before they were included in the FY 2012-13 Treasury budget. <u>House</u> concurs with executive.	GF/GP	\$0	\$3,500,000
<b>4. Virtual Learning Collaborative</b>	<b>Gross</b>	<b>N/A</b>	<b>\$0</b>
<u>Executive</u> adds one-time appropriation of \$1.1 million GF/GP to support the Michigan Community College Association Virtual Learning Collaborative. Funds will be used to develop an infrastructure and course repository for community college online courses. This program allows students to enroll in online courses from other community colleges when home institution courses are full or unavailable. <u>House</u> does not include.	GF/GP	N/A	\$0

House concurs with revisions.

Requires community colleges to purchase automobiles made in the state of Michigan or elsewhere in the U.S., if competitively priced and of comparable quality. Executive deletes, House retains.

### **Sec. 230. Local Strategic Value and Performance Funding – REVISED**

Identifies performance funding formula, as well as local strategic value (LSV) components that community colleges must meet in order to qualify for performance funding. Executive revises to make LSV components a prerequisite for all performance funding. The performance funding formula is revised as explained in item 1 above. House retains FY 2012-13 formula, but removes requirement that all additional funding be used to offset retirement costs. Additional prerequisites for performance funding are added (see below).

### **Sec. 230(5). Limitations on Renewal of Labor Contracts before March 28, 2013 – NEW**

House creates new prerequisite for receiving performance funding, where colleges must not have extended or renewed a labor contract between December 10, 2012 and March 28, 2013, unless certain requirements were met. These requirements are as follows: (1) The contract that is renewed must expire before September 30, 2013 (unless certain savings requirements are met); (2) The contract does not extend beyond the length of the contract it replaces (unless certain savings are met); or (3) the contract does not exclusively contain a union security agreement or closed-shop provision. Any performance funding that would go to a college that does not meet these requirements would be distributed to eligible colleges in proportion to their total performance funding.

### **Sec. 230a. State Building Authority Rent Payments – REVISED**

Indicates an estimated amount appropriated to the Department of Technology, Management, and Budget specifically for community college-related state building authority rent payments. Executive updates amounts for FY 2013-14 appropriations, House concurs with executive.

### **Sec. 231. Repeals Community College Sections at End of Fiscal Year – DELETED**

Executive repeals all sections, including appropriations, for community colleges effective September 30, 2014. House does not include repeal of all sections.

Notes: (1) FY 2012-13 year-to-date (YTD) figures include mid-year budget adjustments through February 7, 2013.

(2) Appropriation figures for all years include all proposed appropriation amounts, including amounts designated as one-time.

#### Overview

The Higher Education budget, as contained in Article III of the compiled School Aid Act, provides funding for operational support of the state's 15 public universities, the Agricultural Experiment Station and Cooperative Extension Service operated by Michigan State University, various financial aid programs for students attending public and independent colleges and universities in the state, and several other smaller higher education-related programs.

#### Major Budget Changes From FY 2012-13 YTD Appropriations

##### 1. University Funding

Executive includes \$24.9 million GF/GP increase (2.0%) in total funding for university operations. University base appropriations for FY 2012-13 include performance funding and tuition restraint increases received for that fiscal year. The increase for FY 2013-14 is based on a model that is basically identical to that used in the final FY 2012-13 budget:

- \$4.1 million based on critical skill area undergraduate degree completions.
- \$2.1 million in proportion to research and development expenditures (only for universities in "research university" Carnegie classifications).
- \$12.4 million each for three components (\$4.1 million each) based on national comparisons to Carnegie peers: six-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures.
- \$6.2 million for tuition restraint, to be allocated to universities holding resident undergraduate tuition/fee rate increases below 4.0%.

The three requirements to be eligible for performance funding are maintained from FY 2012-13: participation in at least three reverse transfer agreements, a dual enrollment policy that does not consider whether the credits were used toward high school graduation, and participation in the Michigan Transfer Network.

## **Major Boilerplate Changes From FY 2012-13**

**NOTE:** Boilerplate sections with no changes from current law do not appear in budget bill but would remain in compiled School Aid Act and apply to FY 2013-14 appropriations.

### **Sec. 239. American Goods and Services – RETAINED**

States preference for American goods and services, as well as those produced in Michigan and those produced by businesses owned by veterans. Executive deletes; House retains.

### **Sec. 239a. Foreign Auto Manufacturers – RETAINED**

States intent that funds appropriated to universities not be used to purchase vehicles assembled outside U.S. Executive deletes; House retains.

### **Sec. 245. University Transparency – REVISED**

Requires universities to post various budget, compensation (including salary list), other financial, and performance data on its website, using a standard format; allows Budget Director to withhold payments for a university not in compliance. Executive revises to replace the salary list with a list of all active employees and add requirements to report general fund budget projections, a listing of all debt service obligations, and the number of Pell Grant graduates. House retains salary list and adds new items proposed by Executive.

### **Sec. 252. Tuition Grant Program – RETAINED**

Provides for distribution of funds appropriated for Tuition Grants; specifies maximum grant amount of at least \$1,512, unless insufficient funds are available, in which case a report is required; limits award eligibility to undergraduate students; provides that unexpended funds at close of fiscal year remain available for expenditure in subsequent year; caps awards received by students at a single institution at \$3.0 million. Executive revises to eliminate provision regarding carry forward of unexpended funds, move application deadline from July 1 to March 1, and add requirement that independent colleges and universities with students participating in the program participate in the state P-20 longitudinal data system and report on the number of Tuition Grant students graduating, the number of such students taking remedial education classes, and the number of Pell Grants students graduating each year. House retains current provisions in all cases.

### **Sec. 256. Tuition Incentive Program – REVISED**

Specifies criteria for Tuition Incentive Program eligibility; provides for award conditions and limits under Phases I and II of the program. Executive proposes to include program provisions in permanent statute, consistent with other major state financial aid programs. Major change under proposed statutory provisions would be limiting reimbursement at public universities at 300% of the average community college tuition rate beginning in FY 2014-15. A new section 256a would simply reference the new statute. House retains boilerplate language and adds statement of intent to adopt the Executive-proposed policy change beginning in FY 2014-15.

### **Sec. 259. College Access Program – NEW**

Specifies allowable uses of funding, to be administered by Department of Treasury: Michigan College Access Network operations, local college access networks, the Michigan College Access Portal, public awareness and outreach campaigns, and subgrants to postsecondary institutions. (Similar language is currently included in the Department of Education budget.) Executive and House include new section.

### **Sec. 261. Douglas Lake Biological Station – DELETED**

Designates University of Michigan Douglas Lake Biological Station as a unique resource. Executive and House delete.

### **Sec. 263a. MSU AgBioResearch and MSU Extension – REVISED**

Provides for establishment of a strategic growth initiative for the food and agriculture industry and state intent regarding metric goals that will be used to evaluate impacts of MSU AgBioResearch and MSU Extension; requires annual report containing financial data and metric goals for the two organizations. Executive revises to remove language related to strategic growth initiative but retain metric goals and reporting requirement; House concurs.

### **Sec. 265. Tuition Restraint Funding – REVISED**

Provides for allocation of funding component tied to tuition restraint in FY 2012-13. Executive makes minor revision to require that universities hold tuition rate increases below 4.0%, rather than to 4.0% or below. Removes language defining the term "fee" to include the cost of a university-affiliated health insurance policy for a university that compels resident undergraduate students to have health insurance coverage as a condition of enrollment. House sets threshold at 3.0%, makes tuition restraint a requirement to receive performance funding (rather than a separate funding allocation), and retains language related to health insurance coverage.

## **Major Boilerplate Changes From FY 2012-13**

### ***Sec. 265a. Performance Funding – REVISED***

Specifies requirements for a university to receive performance funding: participation in at least three reverse transfer agreements, a dual enrollment policy that does not consider whether the credits were used toward high school graduation, and participation in the Michigan Transfer Network. Executive revises to specify performance component metrics. House concurs but adjusts to reflect formula change (weighting based on resident undergraduate fiscal year equated students). Adds tuition restraint compliance as a requirement to receive performance funding.

### ***Sec. 265b. Employee Contracting – NEW***

Provides that funds appropriated for fiduciary responsibility in employee contracting be paid to a university only if it does not extend, renew, or enter into a labor contract under certain circumstances between December 10, 2012 and March 28, 2013 without achieving 10% or greater savings and does not enter into a contract between the same dates that contains only terms that constitute a union security agreement that requires any of several specified employee actions as a condition of employment. House adds new section.

### ***Sec. 265c. Reappropriated Funds – NEW***

Reappropriates any funding amounts not received by universities due to noncompliance with performance funding or employee contracting requirements for the following purposes (in order):

- Up to \$2.2 million for MSU AgBioResearch and MSU Extension
- Up to \$7.0 million for MPERS reimbursement to universities in the system (based on total MPERS payments)
- Any remaining funds to universities in proportion to performance funding amounts (excluding any amounts not paid due to noncompliance)

House adds new section.

### ***Sec. 268. Unfunded Indian Tuition Waiver Costs – RETAINED***

States legislative intent to allocate funds for unfunded Indian Tuition Waiver costs at universities from the General Fund. Executive deletes; House retains.

### ***Sec. 272a. Transfer Credit Reporting – NEW***

Requires universities to report on the number of transfer credits, with grade of C or better, rejected for incoming students, by both academic area and prior institution. House adds new section (similar language appeared in FY 2011-12 budget).

### ***Sec. 273. Student Religious Beliefs – RETAINED***

States intent that universities report on efforts to accommodate the religious beliefs of students in accredited counseling programs. Executive deletes; House retains.

### ***Sec. 273a. Non-Profit Worker Centers – DELETED***

States intent that universities not use appropriated funds to benefit a non-profit worker center whose documented activities include coercion through protest, demonstration, or organization against a Michigan business. Executive and House delete.

### ***Sec. 274. Embryonic Stem Cell Research – RETAINED***

States intent that universities conducting research using human embryonic stem cells report to the Department of Community Health regarding compliance with federal guidelines and stem cell lines derived by university. Executive deletes; House retains.

### ***Sec. 274a. Adult Coresident Health Benefits – RETAINED***

States intent that universities not provide benefits to unmarried adult coresidents or their dependents and report on the costs of providing any such benefits. Executive deletes; House retains.

### ***Sec. 275a. Capital Outlay Reporting – DELETED***

Prohibits use of state funds for self-liquidating projects; requires compliance with Joint Capital Outlay Subcommittee reporting requirements, with specified penalty of 1.0% appropriation reduction. Executive and House delete.

### ***Sec. 282. Reallocation of King-Chavez-Parks (KCP) Funds – RETAINED***

Provides for reallocation of KCP grant funds from institutions that do not fully expend their funds. Executive revises to allow funds remaining after reallocation to be expended for program administration. House does not concur with proposed revision.

### ***Sec. 290. Degree Programs – REVISED***

Lists new degree programs established by public universities for which credit hours may be reported to HEIDI. House inserts new list submitted by Presidents Council.

### ***Sec. 293. Student Records – DELETED***

Requires universities to provide information from the records of a student to persons authorized by the student pursuant to federal law. Executive and House delete.

### ***Sec. 293a. State Building Authority (SBA) Rent Payments – REVISED***

States amounts appropriated through Department of Technology, Management, and Budget for SBA rent payments associated with state costs for previous capital projects at universities. Executive revises to reflect updated total of \$125.4 million (vs. \$124.0 million in FY 2012-13 budget act). House concurs and renumbers to section 236c.
