Rule Set No.: 2011-002 LR
Department: Licensing and Regulatory Affairs
Agency: Bureau of Fire Services
Submitted to JCAR on: 03/23//2016

Analysis Complete to: 04/08/2016

BACKGROUND AND SUMMARY OF PROPOSED RULES

2011-002 LR would amend, add, and rescind rules pertaining to fire safety standards required for new and existing facilities constructed and operated by public and private schools, colleges, and universities in order to update the current standards which are based on the 1997 Life Safety Code published by the National Fire Protection Association with the more recent 2012 version.

FISCAL IMPACT OF PROPOSED RULES

The rules amended, added, and rescinded by 2011-002 LR would not have a significant fiscal impact on the department; however, there could be an indeterminate fiscal impact on school districts, community colleges, and public universities dependent upon and to the extent that the fire safety standards based on the 2012 Life Safety Code are more lenient or stringent than those based on the 1999 Code.
