The Department of Health and Human Services (DHHS) was created through the merger of the Department of Community Health (DCH) and the Department of Human Services (DHS) under Executive Order 2015-4.

- The **Health Services** portion of the DHHS budget provides funding for:
 - Medical services programs, including Medicaid and the Healthy Michigan Plan
 - Behavioral health services, including substance use disorder services
 - Public health programs
 - Aging and adult services
- The **Human Services** portion of the DHHS budget includes programs and services to assist Michigan's most vulnerable families. This includes:
 - Public assistance programs
 - Protecting children and assisting families by administering foster care, adoption, and family preservation programs, and by enforcing child support laws

Key Budget Terms

Fiscal Year: The state's fiscal year (FY) runs from October to September. FY 2016-17 is October 1, 2016 through September 30, 2017.

Appropriation: Authority to expend funds. An appropriation is not a mandate to spend. Constitutionally, state funds cannot be expended without an appropriation by the Legislature.

Line Item: Specific appropriation amount in a budget bill which establishes spending authorization for a particular program or function.

Boilerplate: Specific language sections in a budget bill which direct, limit, or restrict line item expenditures, express legislative intent, and/or require reports.

Lapse: Appropriated amounts that are unspent or unobligated at the end of a fiscal year. Appropriations are automatically terminated at the end of a fiscal year unless designated as a multi-year work project under a statutory process. Lapsed funds are available for expenditure in the subsequent fiscal year.

Note: Unless otherwise indicated, historical budget figures in this presentation have not been adjusted for inflation.
