GLOSSARY: KEY DATA DEFINITIONS

Enrollment Definitions

Headcount: Number of individual students enrolled for at least one class at a university.

Fiscal-Year-Equated Students (FYES): Calculated equivalent of the number of full-time students enrolled at a university; FYES is equal to student credit hours divided by 30 at the undergraduate level.

Resident/Nonresident: The HEIDI definition as to whether or not a student is categorized as a Michigan resident is based on the universities' individual residency policies for tuition purposes.

Finance Definitions

Tuition and Fees: Tuition and fee rates are based on 30 credit hours per academic year; rates do not reflect course fees or other fees not paid by a majority of students in a given academic level.

Current Fund Revenue: All revenue received for current operations—including auxiliary operations, such as hospitals and dormitories, and operations funded from restricted revenue sources, such as federally-funded research.

General Fund Revenue: Subset of current fund revenue received for student instruction and related activities; general fund revenue consists primarily of state appropriations and tuition/fees.

State Appropriation: Funds appropriated to a state university for general operations for the state's fiscal year; amount may differ from appropriation amount recognized during university fiscal year due to differing fiscal period for 14 of 15 state universities (July to June).

Indirect Cost Recovery: Reimbursement of general fund expenditures for indirect costs resulting from federally-funded research or other grant-based activity.

Financial Aid (General Fund Expenditures): Allocation from institution's general fund resources for financial aid to students; effectively results in discounting of tuition rate.
