

As one of the state's largest employers, landowners and taxpayers, we are committed to Michigan's prosperity. In 2018 – we:

Caring for the
communities
we serve

- Paid **\$512 million** in state and local taxes.
- Gave **\$18.5 million** to Michigan nonprofits. That includes donations from the Consumers Energy Foundation, Consumers Energy, and its employees and retirees.
- Spent about **\$1 billion** with Michigan businesses through the state's Pure Michigan Business Connect program.
- Helped Michigan customers save **\$539 million** through our energy efficiency programs. Since 2009, those savings total more than **\$2 billion**.
- Spent **\$2 billion** on infrastructure replacement, additions and upgrades statewide – and **\$1 billion** on operations and maintenance expenses.

We're committed to creating a sustainable energy future for Michigan.

That means tapping more of the affordable, reliable energy we supply to customers from renewable sources such as wind and solar.

We've also announced plans to reduce carbon emissions by 90 percent and stop using coal as a fuel source by 2040.
