Would like to write you too ask please think about this bill before voting it threw, I myself have felt the pain this registry has caused myself and my family for the last 28 years I have lived it first hand, I myself was convicted in 1992, I was 19 years old today I am 48, I was sentenced to 1 to 3 1/2 years Aug 1993, My Conviction date Nov 1992 . Years before a registry was ever even created, I served my time, completed every class, received my g.e.d, was released into the community with recommendations of a state psychologist that I was no danger what so ever to the public, I came home, (I was 23 years old) I got a job, worked very hard to fix the mistakes I made as a young man, I stayed with my girlfriend who stuck by my side threw this entire thing, I was home for over 5 years I received a DUI I was forced onto the registry years after a judge sentenced me via retroactive laws and amendments, At what time my life was getting better, then everything changed, Not from my sentencing judge, I tried my very best to stay employed, focused and hard to be normal, That wasn't ever going too happened since the registry is public, my whole life was turned upside down I was laid off work, I couldn't find a place to live, I had a daughter, her life was tore upside down in school with kids making fun of her, parents not wanting to let their children play with her, she suffered dearly for my mistake, My soon to be wife suffered terribly over the years lost her job many times because someone found out I was on the registry, Our lives as a family was turned upside down, Please remember I was home and completed my sentence, the registry never even existed, then I was forced onto it ex post\ facto. it started as 1 to 3 1/2 then it went to 25 years on a registry then I received a letter in 2011 via mail man that stated I now have a life sentence, I am 49 years old and have never reoffended I have a family I have a daughter, I just want too be normal again, It is not fair that people can be forced onto these kinda registries in most cases years after a sentenced has been served then forced to a life of pain and suffering, Please think about the young men this registry holds captive for life, people make mistakes they deserve the chance too be normal after doing nothing but trying to be a good person . Please consider the damage these registry's do when someone has never a chance to be free again or normal. All people need sometimes is a chance. My life of suffering is almost over, All I ask you today is to think about the young men and the damage a life time of punishment on the registry does to them.

Thank You Again Todd
