Hello Amy,

Please have these comments read in lieu of my 3 minute of public comment that would be allowed in person.

I approve wholeheartedly in passing HB 4837, 4838, and 4839.

For the most part, I approve HB 4845.

I do not, however, believe the Department of State needs to hire a FTE to accomplish this signature verification training. There is already an online system in place that can be utilized. Additionally, this is training that should already have been part of normal procedure even before this bill, as every election I have voted in for the last 43 years has required my signature to be verified at my township.

Sincerely,

Kristie Warner-Walls  
Belding, MI
