

Adamantly opposed to ANY wolf "hunting" or "trapping!" We've already said NO to this unwarranted and foolhardy action. But, as usual #%^&*^!* Republicans are ignoring us.

I attend every mtg of the WMAC (wolf management advisory council) often at great risk, driving in blizzard conditions into the U.P. where most are held. I have heard every lame excuse, fearmongering, absurd scare tactics and threats. Everything BUT SCIENCE. I've endured heckling, ridicule and derision while making my "public opinion" statement. We (those who are using logic and commonsense) have presented voluminous studies, peer reviewed as well as 1st hand evidence showing NON lethal methods are more effective, and embraced by the vast majority of Michiganders. Three persons who sit on the Council are openly dismissive of anyone speaking FOR the wolves, and have shown clear bias against ANY mitigation measures that don't involve the deaths of these animals.

I'm disgusted that this issue has become 'political' and our essential apex predators are paying with their lives for the ignorance and obscene 'entitlement' of those 'demanding' to kill them.

NO.WOLF.HUNT.NO.WOLF.TRAP/SNARING!
