Subject: Testimony for joint meeting on 1/13/21 - HB-5528 OPPOSE
Importance: High

Oversight Committee Members:

I oppose HB 5528, HB 5549 and HB 5550 because I believe your committee has a moral and ethical obligation to first address Michigan's humanitarian crisis created by the auto reform of 2019. As a result of the changes to auto no-fault approximately 18,000 catastrophically auto accident injured citizens are suffering.

The Michigan Interfaith Coalition will confront this moral, ethical and inhumane issue. Michigan elected legislators have the power and responsibility to fix the new law. Being in a position of power, knowing that Michigan citizens, who are your constituents, are tragically suffering, and not using your power as legislators to help them? Where is the respect for the dignity of these injured human beings?

Until such time when a fix to auto no-fault is considered by this committee, you cannot morally consider HB 5528, HB 5549, HB 5550 or any other bill.

Dr. Bonnie Anderson
Michigan Interfaith Coalition
