**Subject:** Support of HB 5529

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

To Whom It May Concern,

As a licensed safety compliance facility and stakeholder in the MI cannabis market, Cambium Analytica would like to express full support for HB 5529 which would allow the CRA to establish a marijuana reference laboratory, and collect transport, and possess marijuana for the purpose of testing and conducting research in support of investigations.

This is a critical objective to amplify enforcement of the ruleset. Currently the CRA cannot screen and act on investigations on an ongoing basis without the use of other SCFs and is constrained around the SCFs available time, and willingness to coordinate.

This will allow the CRA to suppress the rampant fraud occurring in the industry by both laboratories and producers of marijuana products.

Best,

**Alex Adams**
