

MEMORANDUM

**DATE:** December 9, 2019  
**TO:** Members of the House Appropriations Committee  
**FROM:** Mary Ann Cleary, Director *MAC*  
**RE:** Legislative Initiated Transfer Package

Attached are legislative initiated transfers proposed by the Legislature. Pursuant to section 393 of the Management and Budget Act, a legislative transfer must be approved by a majority of both the House and Senate Appropriations Committees, with identical funding sources and dollar amounts, in order to become effective. This transfer package will be considered by the House Appropriations Committee on Wednesday, December 11, 2019.

This package contains standard legislative transfers.

A **standard legislative transfer** shifts existing spending authorization between line items in a particular budget area, with no net change in total appropriations. Generally, such transfers are proposed when expenditures are higher than originally anticipated in one line item and lower than anticipated in another. These transfers can represent a shift of GF/GP funding between two line items, or merely a shift of spending authorization from same broad category of funding (federal, restricted, etc.) between the line items.

*As shown in the attached table, standard transfers in this package total \$82.3 million, which will shift 0.14% of total appropriations within the existing FY 2019-20 year-to-date state budget.*

If you have questions about the transfers generally, please contact me. If you have questions about an individual transfer, please contact the HFA analyst assigned to that budget area. We can be reached at 373-8080.
