GLOSSARY

STATE BUDGET TERMS

Line Item

Specific funding amount in an appropriation bill which establishes spending authorization for a particular program or function.

Boilerplate

Specific language sections in an appropriation bill which direct, limit, or restrict line-item expenditures, express legislative intent, and/or require reports.

Lapse

Appropriated amounts that are unspent or unobligated at the end of a fiscal year; appropriations are automatically terminated at the end of a fiscal year unless otherwise provided by law.

Work Project

Account authorized through statutory process which allows appropriated spending authorization from one fiscal year to be utilized for expenditures in a succeeding fiscal year or years for a specific project or purpose.

APPROPRIATIONS AND FUND SOURCES

Appropriations

Authority to expend funds for a particular purpose. An appropriation is not a mandate to spend.

Gross: Total of all applicable appropriations in an appropriation bill.

Adjusted Gross: Net amount of gross appropriations after subtracting interdepartmental grants (IDGs) and intradepartmental transfers (IDTs).

Interdepartmental Grant (IDG) Revenue

Funds received by one state department from another state department—usually for service(s) provided.

Intradepartmental Transfer (IDT) Revenue

Funds transferred from one appropriation unit to another within the same departmental budget.

Federal Revenue

Federal grant or match revenue; generally dedicated to specific programs or purposes.

Local Revenue

Revenue received from local units of government for state services.

Private Revenue

Revenue from non-government entities: rents, royalties or interest payments, payments from hospitals or individuals, or gifts and bequests.

State Restricted Revenue

State revenue restricted by the State Constitution, state statute, or outside restriction that is available only for specified purposes; includes most fee revenue; at yearend, unused restricted revenue generally remains in the restricted fund.

General Fund/General Purpose (GF/GP) Revenue

Unrestricted general fund revenue available to fund basic state programs and other purposes determined by the Legislature; unused GF/GP revenue lapses to the General Fund at the end of a fiscal year.

MAJOR STATE FUNDS

General Fund

The state's primary operating fund; receives state revenue not dedicated to another state fund.

School Aid Fund (SAF)

A restricted fund that serves as the primary state funding source for K-12 schools and Intermediate School Districts. Constitutionally, SAF revenue may also be used for postsecondary education.

Budget Stabilization Fund

The Countercyclical Economic and Budget Stabilization Fund (also known as the "rainy day fund"); the Management and Budget Act provides guidelines for making deposits into and withdrawals from the fund.

HIGHER EDUCATION

The Higher Education budget article contains appropriations to support the operations of the state's 15 public universities, fulfilling the requirement of Section 4, Article VIII of the State Constitution. Additionally, the article contains funding for financial aid to students attending both public and independent postsecondary institutions in the state, as well as several other higher education-related programs.

Beginning in FY 2011-12, the Higher Education budget has been incorporated into the compiled School Aid Act as Article III of that act (MCL 388.1836 to 388.1891), rather than being enacted into law as a standard one-year budget act.

SECTIONS 236(2) and 236(3): PUBLIC UNIVERSITIES

The Higher Education budget article contains a separate appropriation for each of the state's 15 public universities established under Sections 5 and 6, Article VIII of the State Constitution. Each university's appropriation unit includes a grant to the university for base operations, plus a separate appropriation based on performance funding calculations and subject to compliance with certain requirements established in sections 265, 265a, and 265b. Michigan State's appropriation unit also includes appropriations to support the activities of the AgBioResearch and Extension services operated by the university.

Beginning in FY 2011-12, state School Aid Fund (SAF) revenue has been appropriated for public universities and community colleges, replacing a portion of GF/GP support. The total amount appropriated for universities (excluding MSU's AgBioResearch and Extension programs) is \$1.46 billion, of which \$1.43 billion is baseline "Operations" appropriations continued from the prior year, and \$28.6 million is performance funding. The \$1.4 billion total is funded with \$962.6 million in state GF/GP revenues and \$494.3 million in SAF revenues. Funding sources shown below reflect amounts administratively allocated to each university.
