

Childhood Lead program- 4.5 FTEs; \$2.3 million Gross (\$645,900 GF/GP)

Funding supports FTE positions, related costs, and contracts for services to prevent lead poisoning in at-risk children caused by hazards in the home (program is also known as Childhood Lead Poisoning Prevention Program - CLPPP), including: screening for abnormal blood lead levels, lead hazard identification, outreach, public and provider education, technical assistance to providers and local health departments, lead safe housing registry, childhood and healthy homes lead poisoning surveillance, analysis, response systems, and case management and surveillance of children with elevated blood lead levels. Also supports follow-up care for children identified with housing-related disease and injury health issues. **Funding allocated to local health departments primarily in Detroit and high-incidence counties.** In the current fiscal year, \$914,200 Gross (183,500 GF/GP) has been spent.

Healthy Homes Program – 66.0 FTEs; \$56.6 million Gross (\$35.0 million GF/GP)

Funding supports FTE positions, related costs, and contracts for home-based intervention programs to reduce childhood lead poisoning, asthma, and unintended injuries, including: lead abatement/safe removal of lead hazards from older homes in areas of the state with high incidence of lead-poisoned children, and local oversight; certification of individuals to perform lead abatement and lead hazard remediation and training; remediation compliance assistance and enforcement; education and outreach; local coalition building and grant writing; public health initiatives related to revised lead and copper rules for communities with lead exceedances, and program evaluation. **Funding allocated to local health departments and venders through contracts.** In the current fiscal year, \$22.5 million Gross (\$14.4 million GF/GP) has been spent.

PFAS and environmental contamination response- 43.0 FTEs; \$19.5 million GF/GP

Funding supports FTE positions, related costs, and contracts for public health response to contamination from perfluoroalkyl and polyfluoroalkyl substances (PFAS) in drinking water and the environment. Supports PFAS laboratory testing and analysis, environmental health toxicology, chemical analysis, outreach and response, local health department services including provision of alternative water sources or water filters, and environmental and well sampling for testing. **Funding allocated to venders through contracts. Funding to address PFAS through local health departments is provided in Sec. 115 Local Health Services line item.** In the current fiscal year \$7.7 million GF/GP has been spent.
