This proposed transfer would provide \$120.3 million in state restricted contingency authorization to the Michigan Strategic Site Readiness Program (MSSRP) pursuant to Sec. 406 of 2022 PA 194, Sec. 311 of PA 1 of 2023, and Sec. 702 of 2023 PA 5. Funding would be transferred into the Michigan Strategic Site Readiness Program to support a grant to the Marshall Area Economic Development Alliance (MAEDA) as it undertakes site readiness activities in Marshall, Calhoun County. This state investment would support land acquisition, site preparation, water and wastewater upgrades, and other necessary public infrastructure improvements at the strategic Marshall mega-site, where the Ford Motor Company's new electric vehicle (EV) battery manufacturing facility, BlueOval Battery Park, is proposed to be located.

The Michigan Strategic Fund Board approved performance-based incentives for this project on March 28, 2023. This MSSRP investment would support site readiness activities that are required for the development of BlueOval Battery Park. A previous transfer request (letter 2023-2) for \$210 million was recommended for the Critical Industry Program to support the Ford Motor Company's efforts to build the new 2.5 million square foot electric vehicle battery manufacturing facility.
