GLOSSARY

STATE BUDGET TERMS

Line Item

Specific funding amount in an appropriation bill which establishes spending authorization for a particular program or function.

Boilerplate

Specific language sections in an appropriation bill which direct, limit, or restrict line-item expenditures, express legislative intent, and/or require reports.

Lapse

Appropriated amounts that are unspent or unobligated at the end of a fiscal year; appropriations are automatically terminated at the end of a fiscal year unless otherwise provided by law.

Work Project

Account authorized through statutory process which allows appropriated spending authorization from one fiscal year to be utilized for expenditures in a succeeding fiscal year or years for a specific project or purpose.

APPROPRIATIONS AND FUND SOURCES

Appropriations

Authority to expend funds for a particular purpose. An appropriation is not a mandate to spend.

Gross: Total of all applicable appropriations in an appropriation bill.

Adjusted Gross: Net amount of gross appropriations after subtracting interdepartmental grants (IDGs) and intradepartmental transfers (IDTs).

Interdepartmental Grant (IDG) Revenue

Funds received by one state department from another state department—usually for service(s) provided.

Funds transferred from one appropriation unit to another within the same departmental budget.

Federal Revenue

Federal grant or match revenue; generally dedicated to specific programs or purposes.

Local Revenue

Revenue received from local units of government for state services.

State revenue restricted by the State Constitution, state statute, or outside restriction that is available only for specified purposes; includes most fee revenue; at year-end, unused restricted revenue generally remains in the restricted fund.

General Fund/General Purpose (GF/GP) Revenue

Unrestricted general fund revenue available to fund basic state programs and other purposes determined by the legislature; unused GF/GP revenue lapses to the General Fund at the end of a fiscal year.

MAJOR STATE FUNDS

General Fund

The state's primary operating fund; receives state revenue not dedicated to another state fund.

School Aid Fund (SAF)

A restricted fund that serves as the primary state funding source for K-12 schools and Intermediate School Districts. Constitutionally, SAF revenue may also be used for postsecondary education.

Budget Stabilization Fund

The Countercyclical Economic and Budget Stabilization Fund (also known as the "rainy day fund"); the Management and Budget Act provides guidelines for making deposits into and withdrawals from the fund.

COMMUNITY COLLEGES

The 1963 Michigan Constitution charged the legislature with providing by law for the establishment and financial support of public community colleges controlled by locally elected boards, which it did with enactment of the Community College Act of 1966. Twenty-eight public community colleges have been established, each drawing its students primarily from within a district organized under statute; each is governed by a locally elected board of trustees. Community colleges are supported primarily through a combination of state appropriations, tuition and fees, and local property tax revenues.

Community colleges offer a wide range of programs that are generally two years or less in duration, including: vocational-technical education leading to an associate degree, education in anticipation of transfer to a four-year institution, basic skills, and customized training or retraining for displaced workers. Since 2012, community colleges have been statutorily permitted to offer baccalaureate degrees in a limited number of majors: cement technology, maritime technology, energy production technology, and culinary arts.

Since enactment of the FY 2011-12 budget in 2011, the Community Colleges budget has been enacted as Article II of the State School Aid Act, rather than being enacted as a standard one-year budget act.

SECTION 201(2), 201(3), and 201f: COMMUNITY COLLEGES OPERATIONS

The Community College budget article contains a separate appropriation for each of the state's 28 community colleges. Each community college's appropriation listing includes a grant to the community college for base operations, an ongoing operations increase (not included for FY 2025-26), a one-time operations increase, and an appropriation based on North American Indian Tuition Waiver costs, which cover the costs of waiving tuition for eligible Native American students. Receipt of the one-time operations increase is dependent on compliance with requirements in section 217b.

For FY 2025-26, total appropriations for community college operations increased by \$7.6 million from the prior fiscal year, \$11.0 million for a one-time increase, \$207,100 for Indian Tuition Waiver costs, and the removal of \$3.6 million of FY 2024-25 one-time funding. The one-time operations increases are allocated using a performance indicators formula that distributes the increase as follows:

- 30% in proportion to FY 2024-25 base funding
- 30% based on contact-hour-equated students, weighted for health and technology fields
- 10% based on performance completion improvement
- 10% based on performance completion number
- 10% based on performance completion rate
- 5% based on administrative costs
- 5% based on a local strategic value component

Funding sources shown below reflect amounts administratively allocated to each community college.
