## July 2023 Revenue Update

### Major Taxes

Cash collections from Michigan's major taxes, penalties and interest, and lottery transfers totaled \$2,847.5 million in July 2023, \$24.4 million more than in July 2022. For the fiscal year-to-date, collections in FY 2022-23 were \$1,719.9 million (or 6.9%) lower than during FY 2021-22.

Net income tax revenue totaled \$1,061.3 million in July 2023, and for FY 2022-23 collections through July were \$1,918.5 million less than the same period during FY 2021-22. Year-to-date gross income tax collections in FY 2022-23 were \$1,316.7 million lower than one year ago due to lower quarterly and annual payments and lower collections from the new flow through entity (FTE) tax. It should be noted that for FY 2022-23 year-to-date IIT refunds exceeded the May 2023 consensus revenue estimating conference (CREC) estimate in July 2023.

Net business taxes are composed of the single business tax (SBT), the Michigan business tax (MBT), the corporate income tax (CIT), and insurance company taxes. Because of their inherent volatility, monthly collections of business taxes often display significant fluctuations that diverge from historical trends. On a fiscal year-to-date basis, net business taxes were \$226.3 million higher through July 2023 than a year ago. MBT refunds through July 2023 were close to last year's pace while CIT collections over the same period were \$189.7 million higher than last year's amount. However, collections do not reflect CIT earmarks related to the Strategic Outreach and Attraction Reserve Fund, Revitalizing and Placemaking Fund, and Michigan Housing and Community Development Fund that will offset much of that differential when they are accounted for.

Revenue from consumption taxes, which consist of the sales tax, the use tax, beer and wine taxes, liquor taxes, and tobacco taxes, totaled \$1,230.0 million in July 2023, and were collectively \$48.2 million lower than in FY 2021-22 on a year-to-date basis. Sales tax collections were running a bit below last year's amounts while use tax collections were slightly above.

Revenue from online gaming totaled \$26.7 million in July 2023 and collections through July were \$35.8 million higher than the same period during FY 2021-22. Year-to-date revenue from recreational marijuana sales through July 2023 was \$65.3 million higher than one year ago while collections from the real estate transfer tax were \$121.8 million (or 29.9%) lower on a year-to-date basis. The transfer from the lottery to the School Aid Fund was \$90.0 million in July 2023, and year-to-date transfers were \$6.0 million higher than FY 2021-22.

### General Fund/General Purpose (GF/GP) Tax Revenue

General Fund/General Purpose revenue from Michigan's major taxes was estimated<sup>1</sup> to be \$1,421.7 million in July 2023, about \$40.7 million below the projection established at the May 2023 CREC. Lower than projected FTE payments under the individual income tax (IIT) and higher IIT refunds more than offset higher IIT withholding.

Year-to-date GF/GP tax revenue for FY 2022-23 was about \$60.9 million above the expected amount, with the majority of the differential due to strong CIT collections and IIT withholding, quarterlies, and annuals.

### School Aid Fund (SAF) Revenue

School Aid Fund revenue from Michigan's major taxes was estimated<sup>1</sup> to be \$1,236.7 million in July 2023, about \$60.7 million below the amount established at the May 2023 CREC. Most of the differential can be attributed to a lower than projected lottery transfer and lower sales tax collections.

Year-to-date SAF revenue for FY 2022-23 was \$138.0 million below the consensus revenue projections with the majority of the differential due to a lower than projected lottery transfer and lower sales tax collections.

<sup>1</sup> Because of accruals and undistributed revenue, monthly fund splits are estimated.
