This legislatively directed spending item would fund water main replacement (1,284 linear feet) and road repair (1,360 linear feet) along Oakley Road in Clawson. The water main was built in 1960 and has 14 recorded breaks. Per a water reliability study conducted by the City, the 6-inch water main should be upgraded to an 8-inch main to reduce the risk of future breaks. During a PASER (Pavement Surface Evaluation and Rating) study conducted in 2022, the road itself was scored a 3 out of 10, indicating an

urgent need for repair. Improving the water main and road in this neighborhood of Clawson would significantly improve the quality of life of its residents.
