APPROPRIATION BILL TERMS

Line Item: Specific funding amount in an appropriation bill which establishes spending authorization for a particular program or function (may be for a single purpose or for multiple purposes).

School Aid Fund (SAF): A restricted fund; the primary funding source for K-12 schools and Intermediate School Districts (ISDs).

General Fund: The General Fund (funded from taxes and other general revenue) is used to account for the ordinary operations of a governmental unit that are not accounted for in another fund.

DEPARTMENT OF COMMUNITY HEALTH

The Department of Community Health (DCH) is responsible for the development of health policy and management of Michigan's publicly-funded health care service systems.

The Department's Medical Services Administration provides health care coverage for low income persons throughout the state who meet the eligibility requirements for Medicaid, MICHild, and indigent care programs.

The vision of the Behavioral Health and Developmental Disabilities Administration is that all people in Michigan will have access to a public mental health and substance abuse services system that supports individuals with mental illness, emotional disturbance, developmental disabilities, and substance use disorders. The mission of this Administration is to provide leadership by establishing, articulating, and implementing policies, standards, and practices that assure high quality, effective and efficient services and supports.

The Public Health Administration protects and promotes the public health. The Department's commitment is to prevent and control infectious and chronic disease, injury, and environmental health hazards, and to reduce and eliminate health disparities in vulnerable populations.

The Office of Services to the Aging promotes independence and enhances the dignity of Michigan's older persons and their families through supportive programs, services, policies and advocacy.

The Crime Victim Services Commission protects and enhances the health, safety, dignity and rights of victims of crime through programs and grants for services, support and victim compensation.

The Department was established by Executive Order in 1996, consolidating the former Departments of Mental Health and Public Health with the Medicaid program. In 1997, the Adult Home Help Program, Social Services to the Physically Disabled Program, Office of Services to the Aging, and Crime Victim Services Commission were transferred to DCH from other departments. The following agencies were once part of DCH but have been transferred to other departments or abolished: Bureau of Health Professions, Controlled Substances Advisory Commission, and the Office of Drug Control Policy (abolished).
