**Overview**

The School Aid budget makes appropriations to the state's 536 local school districts, 300 public school academies, the Education Achievement System, and 56 intermediate school districts (ISDs) for operations and certain categorical programs. It also appropriates funds to the Center for Educational Performance and Information, the Workforce Development Agency, and other entities to implement certain grants and other programs related to K-12 education.

<ul style="list-style-type: none"> <li>• 11.5% x District Foundation x Free Lunch Eligible Pupils to</li> <li>• 11.5% x Statewide Weighted Average Foundation x Economically Disadvantaged Pupils.</li> </ul>		

Economically disadvantaged pupils are currently collected and reported by CEPI to the US Department of Education and include pupils who are eligible for both free and reduced-price lunch, Temporary Assistance to Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), or are homeless, migrant, or in foster care. The expanded definition is estimated to increase the number of pupils for whom districts receive funding by 131,000.

However, total funding would not fully fund the expanded formula, so payments would be prorated on a per-pupil basis. The per-pupil allocation received is expected to increase from a current average of \$673 to \$778.

### **Major Boilerplate Changes From FY 2016-17**

#### **Secs. 3(1)(2) and 4((1). Achievement Authority, Achievement School, Education Achievement System – DELETED**

Deletes definitions and references throughout the budget to the Education Achievement Authority, as it will be dissolved at the end of the current fiscal year.

#### **Sec. 8b(3). Cyber Public School Academies (PSAs) – Assignment of District Codes – REVISED**

Provides that for a cyber PSA that does not provide instruction at a specific location, and is authorized by a non-statewide entity, the ISD of assignment shall be the ISD that would normally provide programs and services to the resident school district in which the administrative office of the cyber PSA is located. Also provides that the ISD required to provide programs and services remains the same for as long as the cyber PSA is operating.

#### **Sec. 31a. At-Risk – REVISED**

- (1) Expands the goals of the program from A) English Language Arts (ELA) proficiency in grade 3 and B) college and career ready high school graduates to include C) Math proficiency in grade 8 and D) pupils attending school regularly.
- (2) Deletes the prohibition of funding to hold harmless or out-of-formula districts.
- (3) Expands the requirement that the district uses a multi-tiered systems of supports (MTSS) from K-3 to K-8.
- (4) Revises to base the district allocation formula on economically disadvantaged pupils rather than free lunch eligible pupils. Economically disadvantaged pupils are currently collected and reported by CEPI to the US Department of Education and include pupils who are eligible for both free and reduced-price lunch, Temporary Assistance to Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), or are homeless, migrant, or in foster care. The expanded definition is estimated to increase the number of pupils for whom districts receive funding by 131,000.
- (5) Revises to base the district allocation formula on 11.5% times a statewide weighted average foundation allowance rather than each district's foundation allowance to eliminate the variation in per pupil funding among districts.
- (6) Requires a district to use at-risk funds for 4 goals or metrics that will be used to measure a district's success beginning in FY 2021 including chronic absenteeism rates, ELA proficiency in grade 3, Math proficiency in grade 8 and that at least 65% of high school pupils enroll in CTE, advanced placement, international baccalaureate, or dual-enrollment programs and that at least 80% of those pupils have successfully completed the courses.
- (7) Allows a district to use up to 5% of its funds for professional development related to MTSS and improving the goal metrics.
- (8) Revises the definition of at-risk pupil for the provision of services to pupils who are economically disadvantaged or English language learners and who failed or is at risk of failing to be proficient in grade 3 ELA or grade 8 math or is chronically absent.
- (9) Requires that MDE identify districts that do not meet the goal metrics by FY 2021 and partner with the district to review and revise district programs and practices.

**Major Boilerplate Changes From FY 2016-17**

**Sec 32d. Great Start Readiness Program (GSRP) – REVISED**

Revises to require that 100% rather than 90% of GSRP participants meet the income eligibility of family income less than 250% of the federal poverty level. Deletes provision that allows a program to serve children in families with income up to 300% of the federal poverty level if all of the eligible children under 250% are served.

**Sec. 39. Great Start Readiness Program (GSRP) Formula Allocation – REVISED**

Eliminates the process whereby ISDs individually estimate the number of children eligible for the program and replaces it with an estimate provided by the MDE based on American Community Survey Census data.

Revises the formula allocation from being based on a half-day slot to number of children served in a school day program. The allocation for a child in a school day program would remain \$7,250 per day, or \$3,625 if in blended GSRP/Head Start program. An ISD would be allocated under the initial round of funding an amount equal to the amount they received in the prior year or an amount necessary to fund their available capacity if it is less than the prior year. Creates a statewide benchmark of the percent of eligible children that were served by the program in previous year, currently at 60%. If funds remain after the initial allocations, remaining funding would be distributed to ISDs based on their proportional share of children unserved if they are below the state benchmark.

**Sec 56 and 62. Special Education and Vocational Education Millage Equalization – REVISED**

Revises the equalization formula based on updated taxable values estimates for 2017. Adjusts the formula to reflect the amount an ISD receives from the Local Community Stabilization Authority for reimbursement due to the loss of personal property tax revenue so that an ISD's allocation under these sections does not reimburse for a loss that is being reimbursed under by the Authority.
