

MHA

Michigan Health &
Hospital Association

Leading Healthcare

Michigan's Hospitals and Health Systems Behavioral and Mental Health Care

Laura Appel, Executive Vice President

About the MHA

162 member hospitals,
of which 129 are community hospitals

18 health systems (11 based in Michigan;
7 headquartered in other states)

82 teaching hospitals

7 public hospitals

6 children's hospitals

51 rural hospitals

37 critical access hospitals

96 urban hospitals

The Michigan Health & Hospital Association represents all hospitals in Michigan.

Established in 1919, the MHA represents the interests of its member hospitals and health systems in both the legislative and regulatory arenas and supports their efforts to provide quality, cost-effective and accessible care.

Our Mission

We advance the health of individuals and communities.

Staffing Shortages Aren't New – But They're at Critical Levels

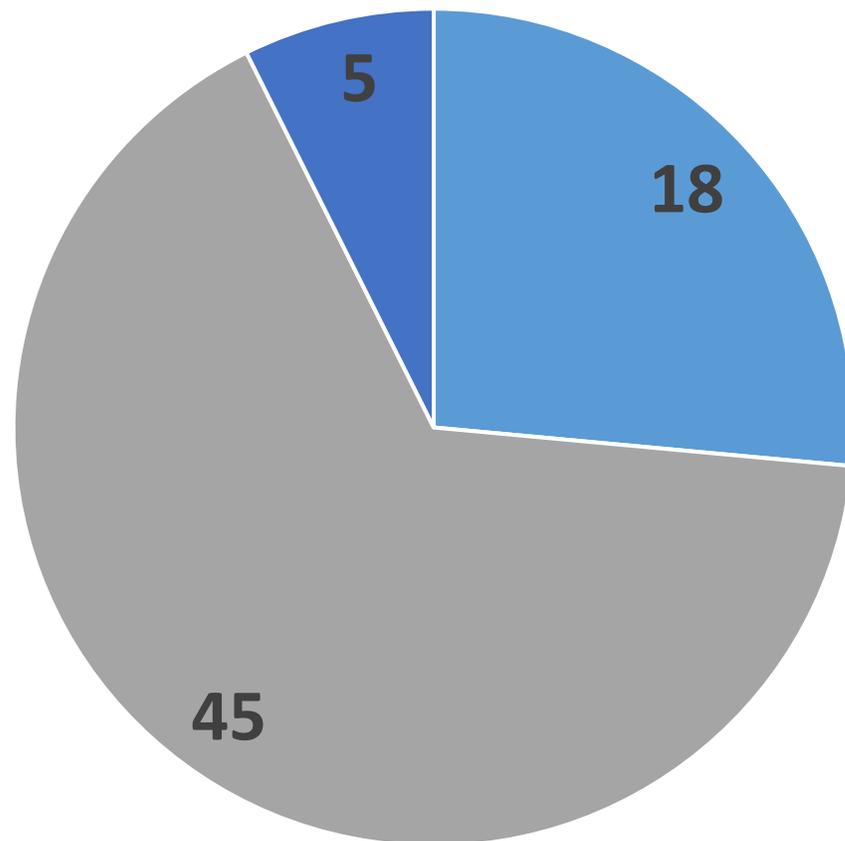

Nursing	8,438
Technicians (surgical tech, pharmacy techs, radiology tech, patient care tech)	4,548
Administrative (Executive office, IT, accounting, patient registration, others)	2,870
Clinical assistants (certified nurse assistants, medical assistants)	2,995
Operational (environmental services, food services, other)	1,702
All Others	6,870
Total hospital job openings in Michigan	27,423

Behavioral Health Emergency Department Survey

- MHA is collecting data on a weekly basis
 - Requesting data by 5 PM on Mondays
 - Data should be entered for each individual ED
 - Designed off of success of Massachusetts Hospital Association
- Behavioral health director or emergency department director are entering the survey data
- Data is reported in aggregate and used to inform advocacy and policy efforts
