

Policy, Planning & Legislative Affairs Administration

Fiscal Year 2018

Presentation to Appropriations Subcommittee
on Health & Human Services

Matt Lori, Senior Deputy Director, Policy, Planning & Legislative Affairs Administration
Farah A. Hanley, Senior Deputy Director, Financial Operations Administration

Our Guiding Principles

Mission

The Michigan Department of Health and Human Services provides opportunities, services, and programs that promote a healthy, safe, and stable environment for residents to be self-sufficient.

Vision

Develop and encourage measurable health, safety and self-sufficiency outcomes that reduce and prevent risks, promote equity, foster healthy habits, and transform the health and human services system to improve the lives of Michigan families.

Mission

To ensure that MDHHS policy development, implementation, and legislative priorities are aligned with the department's strategic goals.

Action on Flint Declaration of Emergency

- Obtained a Health Professional Shortage Area designation from the federal government allowing us to expand the State Loan Repayment program (SLRP) in Flint to encourage more pediatric providers to practice in that area
 - In 2016, SLRP targeted strengthening the primary care workforce in Genesee County by awarding loan repayment to 11 primary care providers in Flint, MI
 - In 2017, SLRP will continue to focus on retaining Genesee County providers, and will begin a focus on recruiting Inpatient Child/Adolescent Psychiatrists, which are in a critically short supply in Michigan
- Nurse Professional Fund is providing nurses, nurse practitioners, and nursing students to provide clinical services and public education in Flint. This efforts targets:
 - Latino Community
 - Deaf and hard of hearing

State Innovation Model

Background

- \$70 million Michigan State Innovation Model (SIM) began February 2015
- Develop and test state-led, multi-payer healthcare payment and service delivery models to improve health outcomes, increase quality of care, and reduce costs
- Rolling out multiple initiatives to support patient-centered healthcare that coordinates with community organizations to address social determinants of health

State Innovation Model

Patient Centered Medical Home

Launched January 1, 2017 statewide

- Nearly 360 primary care practices
- Over 2,100 primary care providers
- Over 350,000 Medicaid beneficiaries
- Sustain and expand foundation developed through the Michigan Primary Care Transformation (MiPCT) demonstration
- Enhancements:
 - Transitions of care
 - Managing cost
 - Creating clinical-community linkages to address social and other wellness factors

State Innovation Model

Health Information Exchange

Implement the Relationship and Attribution Management Platform (RAMP)

- Includes the following information sharing use cases:
 - Health provider directory (HPD), registering providers in the information exchange network
 - Active care relationship service (ACRS), attributing patient records with registered providers
 - Common key service (CKS), consolidating patient records under a common patient identifier
 - Quality measure information (QMI), standardizing quality measures and reporting process across payers
- Forms information sharing and exchange foundation to build care coordination and value-based payment efforts in the future

State Innovation Model

Community Health Innovation Regions

- Piloting development of local, multi-sector infrastructure to improve population health
 - Governance to include healthcare payers and providers along with public health, mental health, and other community groups
 - Consolidate disparate community needs assessment and improvement planning efforts into single effort
 - Operationalize clinical-community linkage partnerships and processes to inform ongoing and upstream decision making to address social determinants of health and health inequities
- State Program Guidance released in November 2016

State Innovation Model

- Five regions developing and submitting local operational plans in April:
 - Muskegon
 - Jackson
 - Washtenaw/Livingston
 - Genesee
- Northwest Lower Michigan

Health Information Technology

- Support the Health Information Technology Commission created by PA 137-06
- Coordinate MDHHS activities with the State Designated Entity for Health Information Exchange and the Trusted Data Sharing Organizations in Michigan
- Offer recommendations on strategic alignment and direction on policy issues related to health IT and secure data exchange
- Coordinate and align HIT and data sharing efforts with statewide transformation initiatives
- Align federal health IT priorities with MDHHS health IT policy to ensure the right data for the right person is at the right point of care

Health Disparities Reduction and Minority Health Section

- Established in 1988 to provide a persistent and continuing focus on eliminating health disparities among Michigan's populations of color
- Designated MDHHS lead for PA 653 related activities, including the annual legislative report
- Initiates programs and policies to eliminate health disparities. Priority strategies include:
 - Improve race/ethnicity data collection and data systems
 - Strengthen government capacity to develop effective programs and partnerships
 - Improve social determinants through public education and evidence-based interventions
 - Ensure equitable access to quality healthcare
 - Strengthen community engagement, capacity, and empowerment

Integrated Service Delivery

Brief Overview

- Integrated Service Delivery (ISD) is an enterprise strategy to bring together a diverse set of benefits and services in a holistic, customer-focused experience aimed at impacting health, safety and self-sufficiency outcomes

Integrated Service Delivery BJ(3)

ISD Strategy Includes Multiple Key Components

- Integrated Service Delivery Portal- An online experience guiding residents through a process which assesses their needs, connects them with supports that meet those needs, and develops goals to improve stability over time
- Universal Caseload Management- A casework system which assigns tasks to groups of staff members working on a specific part of the casework process, allowing casework to be shared across teams and offices and improving efficiency
- Contact Center- A streamlined customer contact point which better manages incoming phone calls and other contact types, offers self-service options over the phone and routes customer contacts to the most appropriate team to help
- Supporting Services- A multitude of system and information integration strategies including both technological infrastructure and data sharing arrangements which support the three main components of ISD (above)
