Subject: Letter of Support for the City of Eaton Rapids to Purchase a Platform Aerial Fire Truck

We, at Hamlin Township Fire Department, are wholeheartedly writing to express our unequivocal support for the City of Eaton Rapids' initiative to purchase a platform aerial fire truck. Recognizing the paramount importance of enhanced public safety and efficient emergency response capabilities, we believe that this addition will significantly bolster our collective ability to protect our communities.

The acquisition of a platform aerial fire truck is not merely an upgrade for the City of Eaton Rapids but a strategic investment in the safety and well-being of our wider community. This state-of-the-art equipment will enable our firefighters to combat fires more effectively, particularly in multi-story buildings, thereby potentially saving more lives and reducing property damage. Furthermore, in times of need, this vehicle will be a critical asset in providing mutual aid amongst our departments, fostering a stronger, more resilient emergency response framework across jurisdictions.

Considering the above, Hamlin Township Fire Department is committed to supporting the City of Eaton Rapids in this endeavor. We recognize the financial implications of such a purchase and are prepared to explore avenues for collaboration, including shared training programs, and mutual aid agreements, to ensure the optimal utilization of this resource. By standing together in this venture, we are not only enhancing our capability to respond to emergencies but also reinforcing our commitment to the safety and security of all our residents.

We urge all stakeholders, including local governments, community members, and funding bodies, to support this vital project. Together, we can make a significant difference in our collective emergency response capability, ensuring a safer future for our communities.

Sincerely,

Francis D'Huyvetter

Fire Chief

Ladies & Gentlemen:

CSI has prepared this preliminary proposal price for budgeting and / or grant application purposes only. Final specifications and pricing are required before a purchase can be made. The budget estimate is for:

One (1) Spartan Rear Mount 100 Foot Aerial Platform with the following base specifications:

- Spartan Gladiator EMFD custom cab chassis
- 5" raised roof
- Cummins X-15, 565 HP engine (2027)
- Allison 4000 EVS series automatic transmission
- Waterous 2000 GPM fire pump
- 400 U.S. Gallon poly tank
- Three crosslays, front bumper discharge, EHL hose loader for LDH
- 100 Foot aerial platform
- Single monitor waterway with stand-pipe connections
- LED emergency and scene lighting
- NFPA equipment

Total Budget Estimated: \$2,300,000.00

Budget pricing is generally good for 90 days. CSI is not responsible for any large price or market increase caused by war, international conflict, federal regulations, tariffs or any other cause beyond our control.

Thanks again for contacting CSI and we look forward to working with you in the future.

Sincerely,

A handwritten signature in black ink, appearing to read 'Scott J. Patchin'.
