**Post-Conflict Care**

VA has launched special efforts to provide a "seamless transition" for those returning from service in Operations Enduring Freedom and Iraqi Freedom (OEF/OIF). Each VA medical facility and benefits regional office has a point of contact to coordinate activities locally to help meet the needs of these returning combat service members and veterans. In addition, VA increased the staffing of benefits counselors at key military hospitals where severely wounded service members from Iraq and Afghanistan are frequently sent. Once home, recent Iraq and Afghan veterans have ready access to VA health care, which is free of charge for five years following separation for any health problem possibly related to wartime service. Some 537,000 veterans from the conflicts in Iraq and Afghanistan have sought VA health care since returning stateside, about 47 percent of the total number of men and women leaving military service.

Family members of about 528,000 veterans qualify for monthly VA payments as the survivors of disabled veterans or pension recipients.
