***Sec. 6. Pupil Membership Definitions* – REVISED**

Executive removes the sunset for a provision that previously (through the 2023-24 school year) allowed instruction by a noncertificated, nonendorsed teacher engaged to teach under Sec. 1233b of the Revised School Code. Major Boilerplate Changes from FY 2024-25

***Secs. 32d & 39. Great Start Readiness Program* – REVISED**
Executive, Senate, and House remove specific program provisions, including the definitions for each type of program offered and requirements related to teacher eligibility, program budgets, assessments, and counting children for the requirement that at least 30% of slots be filled by community-based providers; revise to allow MiLEAP flexibility to determine program options and requirements.

Executive, Senate, and House revise funding formula from being based on the number of children served in the prior school year or the number of children the applicant has capacity to serve to being based on the number of children served in the current school year. If funds are insufficient, use the former formula plus an additional proportional amount based on the new formula.

Executive and Senate remove household income requirements, but require children with lower income or other risk factors to be enrolled before children with lesser needs. House maintains current law.

Executive, Senate, and House add requirement that an ISD recipient must publish an online data dashboard that includes the number of allocations requested from the state, a list of programs offering GSRP in its boundaries, and current enrollment data for each subrecipient, including open and filled slots and waitlist information.

Executive, Senate, and House remove current cap of three hours (unless given approval by MDE to count more than three hours) per school week that may be considered pupil instruction due to travel time between instructional sites for pupils enrolled in a cooperative education program or special education program.

Senate and House allow a district wholly or partially in a county covered by a state of emergency to be exempt from meeting the minimum number of hours and days of pupil instruction if the board of the district votes to exempt the district. ***Sec. 111. Tuition Rates* – REVISED**
Executive adds that tuition for a nonresident pupil may only be charged to the pupil's district of residence, not the pupil's parent or custodian. Senate maintains current law. House concurs with Executive.

***Sec. 164k. Requirements on School Meals, Financial Incentives, and Surveys* – NEW**
