Independent Auditor's Report

To the Michigan Legislature and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

Report on the Audits of the Combined Financial Statement

Opinion

We have audited the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature for the years ended September 30, 2022 and 2021 and the related notes to the financial statement (the "combined financial statement").

In our opinion, the accompanying combined financial statement presents fairly, in all material respects, the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature for the years ended September 30, 2022 and 2021 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Combined Financial Statement* section of our report. We are required to be independent of the Michigan Legislature and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the accompanying combined financial statement of the Michigan Legislature was prepared for the purpose of presenting the combined statement of sources and disposition of the agencies within the State of Michigan's General Fund that comprise the Michigan Legislature, excluding the Legislative Retirement System. The combined financial statement is intended to present only the sources and disposition of General Fund authorizations for the Michigan Legislature and does not present, nor is it intended to present, the entire activity of the State of Michigan or its General Fund. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Combined Financial Statement

Management is responsible for the preparation and fair presentation of the combined financial statement in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the combined financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audits of the Combined Financial Statement

Our objectives are to obtain reasonable assurance about whether the combined financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the combined financial statement.

To the Michigan Legislature and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

In performing audits in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the combined financial statement, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the combined financial
 statement.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are
 appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the
 Michigan Legislature's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the combined financial
 statement.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the combined financial statement that collectively comprises the Michigan Legislature's combined statement of sources and disposition of General Fund authorizations. The accompanying supplemental schedules, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statement. The information has been subjected to the auditing procedures applied in the audit of the combined financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statement or to the combined financial statement itself, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplemental schedules are fairly stated in all material respects in relation to the combined financial statement as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2023 on our consideration of the Michigan Legislature's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Michigan Legislature's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Michigan Legislature's internal control over financial reporting and compliance.

Plante & Moran, PLLC

Notes to Statements of Sources and Disposition

Of General Fund Authorizations

September 30, 2022 and 2021

Note 1 - Summary of Significant Accounting Policies

The Michigan Legislature follows accounting policies generally accepted in the United States of America (GAAP) as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB).

Reporting Entity - The accompanying statements of sources and disposition of General Fund authorizations have been prepared for the purpose of presenting the combined statement of sources and disposition of the agencies within the State of Michigan's General Fund that comprise the Michigan Legislature. These financial statements are intended to present only the sources and disposition of General Fund authorizations for the Michigan Legislature and do not present, nor are they intended to present, the entire activity of the State of Michigan or its General Fund. For the purpose of these statements, the Michigan Legislature includes the following agencies: the Michigan House of Representatives, the Michigan Senate, the Legislative Council, the State Capitol Historic Site, the Office of the Auditor General, the Senate Fiscal Agency, and the House Fiscal Agency. The statements do not include the activity of the Legislative Retirement System.

The accompanying statements of sources and disposition of General Fund authorizations report the total funds (general and work/capital project appropriations) available to the Michigan Legislature and the related disposition of such funds for the years ended September 30, 2022 and 2021.

Total funds available as reflected in the accompanying statements of sources and disposition of General Fund authorizations consist of legislative appropriations to these specific agencies, balances carried forward from prior year, adjustments to appropriations, and restricted and unrestricted miscellaneous revenue. The legislative appropriations include funding from other funds within the State. Each year, the Senate and House of Representatives appropriate funds for the various agencies, bureaus, commissions, departments, boards, and institutions of state government. This General Government Appropriations Act includes the general appropriations for the Michigan Legislature. Total expenditures, as reflected in the accompanying financial statements, represent the purchase of goods and services, including payroll expenses of the Michigan Legislature, for which an obligation for payment was incurred by the Michigan Legislature during the period presented. The financial transactions of the Michigan Legislature are accounted for in the State of Michigan's General Fund and are reported in the State of Michigan's annual comprehensive financial report (SOMACFR).

The notes accompanying these financial statements include only those disclosures that relate directly to the sources and disposition of General Fund authorizations related to the Michigan Legislature. The SOMACFR provides more extensive disclosures regarding the State's significant accounting policies and budgetary control.

The SOMACFR also provides more extensive disclosures regarding the State's litigation, which may impact the Michigan Legislature.

Measurement Focus, Basis of Accounting, and Presentation - The financial statements presented herein have been prepared on the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the Michigan Legislature has spent its resources.

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures because they reduce the ability to spend resources in the future. In addition, claims and judgments are recorded only when payment is due.

Revenue and appropriations are recognized when collected.

Notes to Statements of Sources and Disposition
Of General Fund Authorizations
September 30, 2022 and 2021

Note 1 - Summary of Significant Accounting Policies (Continued)

Adjustments to Appropriations - Adjustments to appropriations represent any adjustments to the original appropriation bill and transfers among agencies.

Intrafund Reimbursement - Intrafund reimbursements represent monies that are transferred to agencies within the Michigan Legislature from other State of Michigan agencies external to the Michigan Legislature, but included in the General Fund of the State of Michigan. These transactions are presented as such to avoid overstating expenditures and revenue on the SOMACFR.

Unexpended Authorizations

Encumbrances - Encumbrances represent written commitments entered into with vendors and suppliers by September 15 that are carried forward to increase the spending authorizations of the subsequent year.

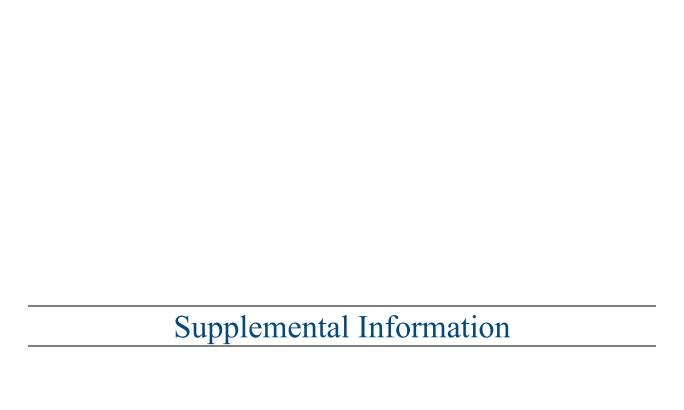

Work Project - Work project represents a one-time recurring project undertaken for the purpose of accomplishing a specific objective contained in a budget appropriation designated as a "work project." The Senate and House Appropriation Committees must be notified of appropriations designated as work projects. The appropriation committees have 30 days to disapprove such projects. Unused spending authority in these accounts may carry forward if the requirements of Act 431, Section 451 of 1984, as amended, are met.

Capital Outlay - Capital outlay represents a project or facility financed either in whole or in part with state funds, including lease purchase agreements, to demolish, construct, renovate, or equip a building or facility for which total project costs exceed \$1,000,000. Unused spending authority in these accounts may carry forward if the requirements of Act 431, Section 451 of 1984, as amended, are met.

Restricted Revenue - Restricted revenue is revenue earned for which the use is restricted to a specific purpose and may be carried forward to future years until expended for the specific purpose.

Note 2 - Accumulated Employee Benefits

The accumulated employee benefits due to state legislative employees are estimated at \$9,342,178 for September 30, 2022 and \$9,342,492 for September 30, 2021. These amounts represent an estimated liability to be paid in future periods in accordance with the specific policies of each agency. The estimated liability includes the Michigan House of Representatives, the Michigan Senate, the Legislative Council, the State Capitol Historic Site, the Office of the Auditor General, the Senate Fiscal Agency, and the House Fiscal Agency and is not reflected in the expenditures of these statements.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of a Financial Statement Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management; the Michigan Legislature; and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the combined statement of sources and disposition of General Fund authorizations of the Michigan Legislature for the years ended September 30, 2022 and 2021 and the related notes to the financial statement and have issued our report thereon dated February 16, 2023.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statement, we considered the Michigan Legislature's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Michigan Legislature's internal control. Accordingly, we do not express an opinion on the effectiveness of the Michigan Legislature's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Michigan Legislature's financial statement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Michigan Legislature's financial statement is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management; the Michigan Legislature; and Mr. Doug Ringler, CPA, CIA, Auditor General Office of the Auditor General

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Michigan Legislature's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Michigan Legislature's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
