Subject: weighing in on HB 4298: Opposition from Nestlé

Hello Ms. Petrosky, I am reaching out on behalf of Nestlé, which has over 1700 employees in Michigan, mostly at our Gerber facilities. We stand with many in opposition to HB 4298 and what it would do to energy choice in Michigan. We believe the reforms would be overly burdensome for companies like ours. Nestlé has been on the waiting list for the C&I pool and remain hopeful that this will be an available choice that is both efficient from a financial perspective and from a regulatory perspective. Thank you for your consideration and please let me know if you have any questions.

Nicole Collier
