

HB 4344 TESTIMONY

Mr. Chairman, members of the committee, thank you for the opportunity to speak with you today.

Last month HB 4344 was introduced which will update the Motor Vehicle Service Repair Act, PA300 of 1974. I wish to inform you Mr. Chairman and this committee that we have worked with the Secretary of State's office to proactively update this Public Act. My association, our members and the independent automotive repair industry have had the opportunity to review this legislation and our feedback has been extremely positive and supportive of these minor updates as technology has changed.

Since over 40 years have passed, one other change that we addressed was the need to update the minimum requirement for an estimate from the current \$20.00 for parts & labor to \$50.00. We believe this modification will assist both consumers and repair facilities in expediting minor repairs moving forward.

Again, thank you for your time and consideration.
