Subject: Testimony for January 30, 2019 Energy Committee Meeting

As one charged with watching the external affairs for a 86 year Senior Citizen mother, I was rather taken aback by the strong arming tactics employed by DTE in getting the AMI meter installed on her residence. SHUT OFF NOTICE?

Dated October 10 2017

After watching the "bucket truck" stand in the yard examining the DTE connection,I answered the door. The Rep said, "we are here to change your meter". "Do you always bring a bucket truck and 3 vans to a "meter change?". You have been here before for this". I was informed that if the installation was refused, there would be no further conversation, they would simply pull the plug.Once I stepped outside with a camera, they all ran and hid for the duration of their forced "change".

Practice Rules, R460.101 specifically R460.115 has allowed for self reporting with the ANALOG meter for years. Attaching any FEE for the AMI is nothing more than a hidden Rate Increase for all who are now compromised with the AMI, and those who wanted nothing to do with it to begin with. I am sure there will be a FEE now to get the AMI taken off and NOT by any real given choice. A Penalty.

HB4220 should be immediately Moved on and Approved, Without any attached Fees,committing the authority back to the hands of the people who not only pick up the check,they are more than capable of making their OWN decisions regarding THEIR Health and THEIR Privacy.

Go pull your own mother's plug DTE.Don't forget the \$50 bucks.

I would like to thank the Energy Committee for this opportunity.
