Subject: SB 637 and SB 894 Please VOTE NO

Hello, I am writing about the 5G wireless infrastructure bills here in Michigan, SB 637 and SB 894.

People should have a choice if they want to be exposed to this level of radiation. If towers are constructed in cities and neighborhoods, people, including babies and children will be exposed to it, with no option to avoid it.

Wireless radiation is dangerous and has been proven to cause cancer and break the bonds in human DNA. If 5G legislation is passed, people will become ill and people will die. This is not a presumption it is a certainty.

We want a hearing dedicated to the health effects from wireless technology and the committee to hear independent expert testimony before any further wireless infrastructure, including 5G is instituted in Michigan.

It is essential that you vote NO on SB 637 and SB 894.

Invest money in the available safer technology and let Michigan become a national leader in safe technology.

Thank you and take care,
Sandy Tuggle
