# CAREER OPPORTUNITIES FOR THE MILITARY COMMUNITY

## A PLACE TO GROW

We value the unmatched leadership and decision-making skills Veterans, National Guard and Reserve members, and Military Spouses bring to the team. We know that your experience in the Military Community makes you a leader and a problem solver - that is why we committed to add 10,000 Military Community members to the Comcast NBCUniversal family by the end of 2017.

We have thousands of Military Community members in our employee family, serving in a variety of roles - from frontline customer service technicians to executive leaders. No matter where you see yourself in your career, you will find opportunities to grow and advance with a team that understands the Military Community and — through our Veterans Network Employee Resource Group — gives back through fellowship, community service, and mentorship.

## A PLACE TO SERVE

Comcast NBCUniversal is committed to supporting our employees who serve in the National Guard and Reserve. In order to help balance your Comcast NBCUniversal and military careers we offer specific benefits including:

- 15 days annual paid time off for National Guard & Reserve training
- Pay differential and continued benefits for 3 years during deployments and activations
- Dedicated Military Concierge Service Team to help you transition between your Military and Comcast NBCUniversal career
- 5,500-member Veterans Network Employee Resource Group
